LINKING AGREEMENT
BETWEEN
THE CITY OF GLENDALE, ARIZONA
AND
Oracle America, Inc.

THIS LINKING AGREEMENT (this "Agreement") is entered into as of this 22 day of March 2016, between the City of Glendale, an Arizona municipal corporation (the "City"), and Oracle America, Inc., a Delaware corporation ("Contractor"), collectively, the "Parties."

RECITALS

A. On June 25, 2015, under the Contract number ADSPO16-098123 (the "Oracle Contract," Oracle agreement numbers: US-GMA-427347 & US-GMA-562803), the State of Arizona entered into a contract with Contractor to purchase the goods and services described in the Oracle Contract which is incorporated into this Agreement by this reference. The Oracle Contract permits its cooperative use by other governmental agencies in Arizona including the City, as set forth in the second unnumbered paragraph of the General Terms of the Oracle Contract.

B. The City represents that Section 2-149 of the City's Procurement Code permits the Materials Manager to procure goods and services by participating with other governmental units in cooperative purchasing agreements when the best interests of the City would be served.

C. The City represents that Section 2-149 also provides that Materials Manager may enter into such cooperative agreements without meeting the formal or informal solicitation and bid requirements of Glendale City Code Sections 2-145 and 2-146.

D. The City desires to contract with Contractor for supplies or services identical, or nearly identical, to the supplies or services Contractor is providing other units of government under the Oracle Contract. Contractor consents to the City's utilization of the Oracle Contract as the basis of this Agreement, and Contractor desires to enter into this Agreement to provide the supplies and services set forth in this Agreement as may be ordered by the City.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing recitals, which are incorporated by reference, and the covenants and promises contained in this Agreement, the parties agree as follows:

1. Term of Agreement. The City is purchasing the supplies and/or services from Contractor pursuant to the Oracle Contract. According to the Oracle Contract, which is attached for information purposes to this Agreement as Exhibit A, purchases can be made by governmental entities from the date of award, which was June 25, 2015, until the date the contract expires on June 24, 2020, unless the Oracle Contract is terminated by the original contracting parties. The initial period of this Agreement therefore is the period from the Effective Date of this Agreement until June 24, 2016. The City and Oracle, however, may

renew the term of this Agreement by mutual written agreement in the form of extension amendments for four one-year periods until the Oracle Contract expires on June 24, 2020, or the Oracle Contract is terminated. Renewals are not automatic. The City may give the Contractor notice of its intent to renew this Agreement by May 24, 2016 or 30 days prior to the anniversary of the Effective Date, as applicable.

2. Scope of Work; Terms, Conditions, and Specifications. The details of the order will be set forth in an ordering document provided by Oracle for mutual agreement and execution by the parties. The ordering document will incorporate this Agreement by written reference. As such, the Oracle Contract terms shall also be incorporated in the order as they exist at the time of the order and as modified by this Agreement. The Oracle Contract terms are specifically incorporated into, and are enforceable as a part of, this Agreement. The parties shall comply with the Oracle Contract as incorporated herein.

3. Compensation.

A. City may purchase Contractor's Products at the same prices and discounts as set forth in the Pricing and Discounts Exhibit of the Oracle Contract effective at the time that the order is placed.

B. The total cumulative purchase price (fees) for the supplies and/or services purchased under this Agreement shall not exceed Two Million Thirty-Eight Thousand Eight Hundred Twelve Dollars and No Cents ($2,038,812).

4. Non-discrimination. Contractor must not discriminate against any employee or applicant for employment on the basis of race, color, religion, sex, national origin, age, marital status, sexual orientation, gender identity or expression, genetic characteristics, familial status, U.S. military veteran status or any disability. Contractor will require any Sub-contractor to be bound to the same requirements as stated within this section. Contractor, and on behalf of any subcontractors, agrees to comply with this section.

5. Notices. Any notices that must be provided under this Agreement shall be sent to the Parties' respective authorized representatives at the address listed below:

City of Glendal
c/o IT Department
6835 N. 57th Dr.
Suite 100
Glendale, Arizona 8530

and

Please refer to section 14 of the General Terms of the Oracle Agreement. If not otherwise specified in the Oracle Agreement, please contact:

Oracle America, Inc.
c/o Public Sector License Deal Management
1910 Oracle Way
Reston, VA 20152

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date and year set forth above.

LINKING AGREEMENT
BETWEEN
THE CITY OF GLENDALE, ARIZONA
AND
ORACLE AMERICA, INC.

EXHIBIT A
Oracle Contract

For information purposes; subject to change.

GENERAL TERMS- Public Sector

Oracle General Terms Reference:	
US-GMA-427347	For orders placed by Authorized Contract Users among State of Arizona departments, agencies, commissions and boards as described in the second unnumbered paragraph below
US-GMA-562803	For orders placed by Authorized Contract Users among eligible public universities and political subdivisions as described in the second unnumbered paragraph below

These General Terms (these "General Terms") are between Oracle America, Inc. ("Oracle" or "Contractor") and the **State of Arizona** ("You" or the "State"). To place orders subject to these General Terms, at least one Schedule (as defined below) must be incorporated into these General Terms. If a term is relevant only to a specific Schedule, that term will apply only to that Schedule if and/or when that Schedule is incorporated into these General Terms.

All State of Arizona departments, agencies, commissions and boards (each such entity, an "Authorized Contract User") may order Products and Service Offerings from Oracle in accordance with the terms and conditions of this Master Agreement. In addition, eligible public universities and political subdivisions may order Products and Service Offerings from Oracle as Authorized Contract Users in accordance with the terms and conditions of this Master Agreement if it has entered into a Cooperative Purchasing Agreement with the Department of Administration, State Procurement Office as required by Arizona Revised Statutes § 41-2632 ("Cooperative Purchasing Agreement").

By placing an order under this Master Agreement, each Authorized Contract User agrees to be bound by the terms and conditions of the applicable ordering document and this Master Agreement and, for the purposes of such order, "you" and "your" as used in this Master Agreement shall be deemed to refer to such Authorized Contract User, unless indicated otherwise herein. Each Authorized Contract User shall be responsible for its breach(es) of such terms and conditions. "Parties" shall mean you and Oracle, and each of us may be referred to individually as a "party."

By placing an order under this Master Agreement, public universities and political subdivisions are representing and certifying that they have entered into a Cooperative Purchasing Agreement and that they are eligible and authorized to make purchases hereunder.

1. DEFINITIONS

1.1 "**Hardware**" refers to the computer equipment, including components, options and spare parts.

1.2 "**Integrated Software**" refers to any software or programmable code that is (a) embedded or integrated in the Hardware and enables the functionality of the Hardware or (b) specifically provided to You by Oracle under Schedule H and specifically listed (i) in accompanying documentation, (ii) on an Oracle webpage or (iii) via a mechanism that facilitates installation for use with Your Hardware. Integrated Software does not include and You do not have rights to (a) code or functionality for diagnostic, maintenance, repair or technical support services; or (b) separately licensed applications, operating systems, development tools, or system management software or other code that is separately licensed by Oracle. For specific Hardware, Integrated Software includes Integrated Software Options (as defined in Schedule H) separately ordered.

1.3 "**Master Agreement**" refers to these General Terms (including any amendments thereto) and all Schedule(s) incorporated into the Master Agreement (including any amendments to those incorporated Schedule(s)). The Master Agreement governs Your use of the Products and Service Offerings ordered from Oracle or an authorized reseller.

1.4 "**Operating System**" refers to the software that manages Hardware for Programs and other software.

1.5 "**Products**" refers to Programs, Hardware, Integrated Software and Operating System.

1.6 "**Programs**" refers to (a) the software owned or distributed by Oracle that You have ordered under Schedule P, (b) Program Documentation and (c) any Program updates acquired through technical support. Programs do not include Integrated Software or any Operating System.

1.7 "**Program Documentation**" refers to the Program user manual and Program installation manuals. Program Documentation may be delivered with the Programs. You may access the documentation online at http://oracle.com/contracts.

1.8 **"Schedule"** refers to all Oracle Schedules to these General Terms as identified in Section 2.

1.9 **"Separate Terms"** refers to separate license terms that are specified in the Program Documentation, readmes or notice files and that apply to Separately Licensed Third Party Technology.

1.10 "**Separately Licensed Third Party Technology**" refers to third party technology that is licensed under Separate Terms and not under the terms of the Master Agreement.

1.11 "**Service Offerings**" refers to technical support, education, hosted/outsourcing services, cloud services, consulting, advanced customer support services, or other services which You have ordered. Such Service Offerings are further described in the applicable Schedule.

1.12 "**You**" and "**Your**" refers to the entity that has executed these General Terms, except as otherwise indicated in the second paragraph of page 1 of these General Terms.

2. MASTER AGREEMENT TERM AND APPLICABLE SCHEDULES

Orders may be placed under the Master Agreement for five years from the Effective Date (indicated below in Section 17). As of the Effective Date, the following Schedules are incorporated into the Master Agreement: **Schedule P – Program, Schedule H – Hardware, and Schedule S – Services.**

The Schedules set forth terms and conditions that apply specifically to certain types of Oracle offerings which may be different than, or in addition to, these General Terms.

3. SEGMENTATION

The purchase of any Products and related Service Offerings or other Service Offerings are all separate offers and separate from any other order for any Products and related Service Offerings or other Service Offerings you may receive or have received from Oracle. You understand that you may purchase any Products and related Service Offerings or other Service Offerings independently of any other Products or Service Offerings. Your obligation to pay for (a) any Products and related Service Offerings is not contingent on performance of any other Service Offerings or delivery of any other Products or (b) other Service Offerings is not contingent on delivery of any Products or performance of any additional/other Service Offerings.

4. OWNERSHIP

Oracle or its licensors retain all ownership and intellectual property rights to the Programs, Operating System, Integrated Software and anything developed or delivered under the Master Agreement.

5. INDEMNIFICATION

5.1 To the extent not prohibited by law and subject to sections 5.5, 5.6 and 5.7 below, if a third party makes a claim against either You or Oracle ("Recipient" which may refer to You or Oracle depending upon which party received the Material), that any information, design, specification, instruction, software, data, hardware, or material (collectively, "*Material*") *furnished by either You or Oracle ("Provider" which may refer to You or Oracle* depending on which party provided the Material) and used by the Recipient infringes the third party's intellectual property rights, the Provider, at the Provider's sole cost and expense, will defend the Recipient against the claim and indemnify the Recipient from the damages, liabilities, costs and expenses awarded by the court to the third party claiming infringement or the settlement agreed to by the Provider, if the Recipient does the following:

a. notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim (or sooner if required by applicable law);
b. gives the Provider sole control of the defense and any settlement negotiations; and
c. gives the Provider the information, authority and assistance the Provider needs to defend against or settle the claim.

5.2 If the Provider believes or it is determined that any of the Material may have violated a third party's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these

alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid to the other party for it and, if Oracle is the Provider of an infringing Program, any unused, prepaid technical support fees You have paid to Oracle for the license of the infringing Program, if any. If such return materially affects Oracle's ability to meet its obligations under the relevant order, then Oracle may, at its option and upon 30 days prior written notice, terminate the order.

5.3 Notwithstanding the provisions of section 5.2 and with respect to hardware only, if the Provider believes or it is determined that the hardware (or portion thereof) may have violated a third party's intellectual property rights, the Provider may choose to either replace or modify the hardware (or portion thereof) to be non-infringing (while substantially preserving its utility or functionality) or obtain a right to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may remove the applicable hardware (or portion thereof) and refund the net book value and, if Oracle is the Provider of infringing Hardware, any unused, prepaid technical support fees You have paid to Oracle for the Hardware, if any.

5.4 In the event that the Material is Separately Licensed Third Party Technology and the associated Separate Terms do not allow termination of the license, in lieu of ending the license for the Material, Oracle may end the license for, and require return of, the Program associated with that Separately Licensed Third Party Technology and shall refund any Program license fees You may have paid to Oracle for the Program.

5.5 Provided You are a current subscriber to Oracle technical support services for the Operating System (e.g., Oracle Premier Support for Systems, Oracle Premier Support for Operating Systems or Oracle Linux Premier Support), then for the period of time for which You were a subscriber to the applicable Oracle technical support services (a) the phrase "Material" above in section 5.1 shall include the Operating System and the Integrated Software and any Integrated Software Options that You have licensed and (b) the phrase "Program(s)" in this section 5 is replaced by the phrase "Program(s) or the Operating System or Integrated Software or Integrated Software Options (as applicable)" (i.e., Oracle will not indemnify You for Your use of the Operating System and/or Integrated Software and/or Integrated Software Options when You were not a subscriber to the applicable Oracle technical support services). Notwithstanding the foregoing, with respect solely to the Linux operating system, Oracle will not indemnify You for Materials that are not part of the Oracle Linux covered files as defined at http://www.oracle.com/us/support/library/enterprise-linux-indemnification-069347.pdf.

5.6 The Provider will not indemnify the Recipient if the Recipient alters Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of Material which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify You for any portion of an infringement claim that is based upon the combination of any Material with any products or services not provided by Oracle. Solely with respect to Separately Licensed Third Party Technology that is part of or is required to use a Program and that is used: (a) in unmodified form; (b) as part of or as required to use a Program; and (c) in accordance with the license grant for the relevant Program and all other terms and conditions of the Master Agreement, Oracle will indemnify You for infringement claims for Separately Licensed Third Party Technology to the same extent as Oracle is required to provide infringement indemnification for the Program under the terms of the Master Agreement. Oracle will not indemnify You for infringement caused by Your actions against any third party if the Program(s) as delivered to You and used in accordance with the terms of the Master Agreement would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify You for any intellectual property infringement claim(s) known to You at the time license rights are obtained.

5.7 This section provides the parties' exclusive remedy for any infringement claims or damages.

6. TERMINATION

6.1 If either of us breaches a material term of the Master Agreement and fails to correct the breach within 30 days of written specification of the breach, then the breaching party is in default and the non-breaching party may terminate the Master Agreement. If Oracle terminates the Master Agreement as specified in the preceding sentence, You must pay within 30 days all amounts which have accrued prior to such termination, as well as all sums remaining unpaid for Products ordered and/or Service Offerings received under the Master Agreement plus related taxes and expenses. Except for nonpayment of fees, the non-breaching party may agree in its sole discretion to extend the 30 day period for so long as the breaching party continues reasonable efforts to cure the

breach. You agree that if you are in default under the Master Agreement, You may not use those Products or Service Offerings ordered.

6.2 You may terminate this Master Agreement at any time without cause by giving Oracle 30 days prior written notice of such termination. If You end this Master Agreement as specified in the preceding sentence, You agree You must pay within 30 days all amounts which have accrued prior to the end of this Master Agreement, as well as all sums remaining unpaid for Products ordered and/or Service Offerings received under this Master Agreement plus applicable related taxes and expenses (if any).

6.3 If You have used an Oracle Financing Division contract to pay for the fees due under an order and You are in default under that contract, You may not use the Products and/or Service Offerings that are subject to such contract.

6.4 Provisions that survive termination or expiration are those relating to limitation of liability, infringement indemnity, payment and others which by their nature are intended to survive.

7. FEES AND TAXES; PRICING, INVOICING AND PAYMENT OBLIGATION

7.1 All fees payable to Oracle are due within 30 days from the invoice date. You agree to pay any sales, value-added or other similar taxes imposed by applicable law that Oracle must pay based on the Products and/or Service Offerings You ordered, except for taxes based on Oracle's income. Reimbursement of expenses related to the provision of any Service Offering, if any, will be addressed in the relevant ordering document and/or statement of work for such services.

7.2 You understand that You may receive multiple invoices for the Products and Service Offerings You ordered. Invoices will be submitted to You pursuant to Oracle's *Invoicing Standards Policy, which may be accessed at* http://oracle.com/contracts.

8. NONDISCLOSURE

8.1 By virtue of the Master Agreement, the parties may have access to information that is confidential to one another (**"Confidential Information"**). We each agree to disclose only information that is required for the performance of obligations under the Master Agreement. Confidential Information shall be limited to the terms and pricing under the Master Agreement and all information clearly identified as confidential at the time of disclosure.

8.2 A party's Confidential Information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

8.3 Subject to the applicable law, we each agree not to disclose each other's Confidential Information to any third party other than those set forth in the following sentence for a period of three years from the date of the disclosing party's disclosure of the Confidential Information to the receiving party. We may disclose Confidential Information only to those employees or agents or subcontractors who are required to protect it against unauthorized disclosure in a manner no less protective than under the Master Agreement. Nothing shall prevent either party from disclosing the terms or pricing under the Master Agreement or orders submitted under the Master Agreement in any legal proceeding arising from or in connection with the Master Agreement or disclosing the Confidential Information to a governmental entity as required by law. In the event You receive a valid request for Oracle's Confidential Information pursuant to applicable law, You will provide Oracle with reasonable notice of such request and give Oracle an opportunity to object to or limit any such disclosure.

9. ENTIRE AGREEMENT

9.1 You agree that the Master Agreement and the information which is incorporated into the Master Agreement by written reference (including reference to information contained in a URL or referenced policy), together with the applicable order, are the complete agreement for the Products and/or Service Offerings ordered by You and supersede all prior or contemporaneous agreements or representations, written or oral, regarding such Products and/or Service Offerings.

9.2 It is expressly agreed that the terms of the Master Agreement and any Oracle order shall supersede the terms in any purchase order, procurement internet portal or any other similar non-Oracle document and no terms included in any such purchase order, portal or other non-Oracle document shall apply to the Products and/or Service Offerings ordered. In the event of inconsistencies between the terms of any Schedule and these General Terms, the Schedule shall take precedence. In the event of any inconsistencies between the terms of an order and the Master Agreement, the order shall take precedence. The Master Agreement and orders may not be modified and the rights and restrictions may not be altered or waived except in a writing signed or accepted online through the Oracle Store by authorized representatives of You and of Oracle. Any notice required under the Master Agreement shall be provided to the other party in writing.

10. LIMITATION OF LIABILITY

NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. ORACLE'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO THE MASTER AGREEMENT OR YOUR ORDER, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID ORACLE UNDER THE SCHEDULE GIVING RISE TO THE LIABILITY, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PRODUCTS OR SERVICE OFFERINGS, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID ORACLE FOR THE DEFICIENT PRODUCT OR SERVICE OFFERINGS GIVING RISE TO THE LIABILITY.

11. EXPORT

Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the Products. You agree that such export laws govern Your use of the Products (including technical data) and any Service Offerings deliverables provided under the Master Agreement, and You agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, Product and/or materials resulting from Service Offerings (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology. You shall include the following notice on packing lists, commercial invoices, shipping documents and other documents used in the transfer, export or re-export of the Products and any Service Offerings deliverables: "These commodities, technology, software, or hardware (including any Integrated Software and Operating System(s)) were exported in accordance with U.S. Export Administration Regulations and applicable export laws. Diversion contrary to applicable export laws is prohibited."

12. FORCE MAJEURE

Neither of us shall be responsible for failure or delay of performance if caused by: an act of war, hostility, or sabotage; act of God; pandemic, electrical, internet, or telecommunication outage that is not caused by the obligated party; government restrictions (including the denial or cancellation of any export, import or other license); other event outside the reasonable control of the obligated party. We both will use reasonable efforts to mitigate the effect of a force majeure event. If such event continues for more than 30 days, either of us may cancel unperformed Service Offerings and affected orders upon written notice. This section does not excuse either party's obligation to take reasonable steps to follow its normal disaster recovery procedures or Your obligation to pay for Products and Service Offerings ordered or delivered.

13. GOVERNING LAW AND JURISDICTION

The Master Agreement is governed by the substantive and procedural laws of the State of Arizona.

14. NOTICE

If You have a dispute with Oracle or if You wish to provide a notice under the Indemnification section of these General Terms, or if You become subject to insolvency or other similar legal proceedings, You will promptly send written notice to: Oracle America, Inc., 500 Oracle Parkway, Redwood City, California, United States, 94065, Attention: General Counsel, Legal Department.

15. ASSIGNMENT

You may not assign the Master Agreement or give or transfer the Programs, Operating System, Integrated Software and/or any Service Offerings or an interest in them to another individual or entity. If You grant a

security interest in the Programs, Operating System, Integrated Software and/or any Service Offerings deliverables, the secured party has no right to use or transfer the Programs, Operating System, Integrated Software and/or any Service Offerings deliverables, and if You decide to finance Your acquisition of any Products and/or any Service Offerings, You will follow Oracle's policies regarding financing which are at http://oracle.com/contracts. The foregoing shall not be construed to limit the rights You may otherwise have with respect to the Linux operating system, third party technology or Separately Licensed Third Party Technology licensed under open source or similar license terms.

16. OTHER

16.1 Oracle is an independent contractor and we agree that no partnership, joint venture, or agency relationship exists between us. We each will be responsible for paying our own employees, including employment related taxes and insurance.

16.2 If any term of the Master Agreement is found to be invalid or unenforceable, the remaining provisions will remain effective and such term shall be replaced with a term consistent with the purpose and intent of the Master Agreement.

16.3 Except for actions for nonpayment or breach of Oracle's proprietary rights, no action, regardless of form, arising out of or relating to the Master Agreement may be brought by either party more than two years after the cause of action has accrued.

16.4 Products and Service Offerings deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

16.5 If requested by an authorized reseller on Your behalf, You agree Oracle may provide a copy of the Master Agreement to the authorized reseller to enable the processing of Your order with that authorized reseller.

16.6 The Uniform Computer Information Transactions Act does not apply to the Master Agreement or orders placed under it.

16.7 You understand that Oracle's business partners, including any third party firms retained by You to provide consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not liable for nor bound by any acts of any such business partner unless (i) the business partner is providing services as an Oracle subcontractor in furtherance of an order placed under the Master Agreement and (ii) only to the same extent as Oracle would be responsible for the performance of Oracle resources under that order.

16.8 The State of Arizona's Statutory Terms and Conditions are attached hereto.

16.9Discount Terms and Price Lists. Authorized Contract Users may place orders under this Master Agreement for Programs, Hardware, and Services, including but not limited to the products listed in the Price Lists specified in the attached **Pricing and Discounts Exhibit**. The Pricing and Discounts Exhibit, attached hereto and incorporated by reference herein, sets forth pricing and discounting terms only for the products listed in such Pricing and Discounts Exhibit.

17. ADMINISTRATIVE FEE / USAGE REPORTS

17.1 Contractor shall assess an administrative fee in the amount of one percent (1%) against all contract sales to Authorized Contract Users among the members of the State Purchasing Cooperative – including cities, counties, school districts and other qualified members. The administrative fee is calculated against all sales under this Master Agreement minus any taxes or regulatory fees, minus any returns or credits, and minus any shipping charges not already included in the unit prices. An updated list of State Purchasing Cooperative members may be found at https://spo.az.gov/state-purchasing-cooperative. At its option, the State may expand or narrow the applicability of this fee. The State shall provide thirty (30) written notice prior to exercising or changing this option.

17.2 Contractors shall submit a Quarterly Usage Report documenting all contract sales. Any usage report that is submitted to the State for the purpose of satisfying this requirement shall be deemed public record and all information contained in such report shall not be considered confidential, including any supplemental information

contained in the submitted report beyond that which is requested in the Sample Forms located at the State Procurement Office Web Site.

At the completion of each quarter, the Contractor reviews all sales under this Master Agreement in preparation for submission of its Quarterly Usage Report. The Contractor identifies all invoices generated to Authorized Contract Users among members of the State Purchasing Cooperative and assesses one percent (1.0%) of this amount in its Quarterly Usage Report. The Contractor summarizes all invoices, along with all assessed administrative fee amounts within its Quarterly Usage Report, including total amounts for the following.

- Total invoices generated to State agencies, boards and commissions who are Authorized Contract Users
- Total invoices generated to Authorized Contract Users among members of the State Purchasing Cooperative
- Total Administrative Fee amount based on one percent (1.0%) of the invoices generated to Authorized Contract Users among members of the State Purchasing Cooperative

In the event there is no activity on the contract in a reporting period, the Contractor is still required to submit a zero-dollar report.

17.3 The administrative fee shall be submitted, along with a Quarterly Usage Report to the State Procurement Office within thirty (30) days following the end of each calendar quarter. The administrative fee payment is only applicable to amounts invoiced by the Contractor during the quarter. The administrative fee is not paid on transactions with state agency customers. Administrative fees shall be submitted to the following address:

Department of Administration
Controller's Office
ATTN: "Statewide Contracts Administrative Fee"
100 N. 15th Avenue, Suite 202
Phoenix, AZ 85007

It is important that the Contractor indicates on the check stub or an attached document the Contractor's Master Agreement number and the quarter for which the Contractor is paying. If paying for multiple contracts or quarters, please break down the amount to show how it is to be applied.

17.4 Within thirty (30) days following the end of the quarter, the Contractor submits its Quarterly Usage Report and if applicable, a check in the amount of one percent (1%) of invoices generated to Authorized Contract Users among members of the State Purchasing Cooperative, to the Department of Administration, State Procurement Office. Quarterly Usage Report and administrative fee submission schedule is as follows.

- State Fiscal Quarter 1 (July 1 – September 30): Due by October 30
- State Fiscal Quarter 2 (October 1 – December 31): Due by January 30
- State Fiscal Quarter 3 (January 1 – March 31): Due by April 30
- State Fiscal Quarter 4 (April 1 – June 30): Due by July 30

Quarterly Usage Reports and any questions are to be submitted by email to the State's designated usage report email address:

usage@azdoa.gov (link sends e-mail)

17.5 The administrative fee shall be a part of the Contractor's unit price lists and is not to be charged directly to the customer in the form of a separate line item; transactional pricing may vary. Statewide contracts shall not have separate prices for State Agency customers and State Purchasing Cooperative customers.

17.6 Contractor's failure to remit administrative fees in a timely manner consistent with the Master Agreement's requirements may result in the State exercising any recourse available under the contract or as provided for by law.

18. MASTER AGREEMENT EFFECTIVE DATE

The Effective Date of the Master Agreement is Jun 25, 2015. (DATE TO BE COMPLETED BY ORACLE).

State of Arizona		Oracle America, Inc.	
Signature		Signature	Elizabeth Hwang Elizabeth Hwang (Jun 25, 2015)
Name	Terry Johnson	Name	Elizabeth Hwang
Title	Procurement Manager	Title	Senior Contracts Manager
Signature Date	6-25-15	Signature Date	Jun 25, 2015

STATUTORY TERMS AND CONDITIONS (Rev 1/2010)

1. **Applicable Law.** In accordance with Section 13 of the General Terms, the Master Agreement shall be governed and interpreted by the laws of the State of Arizona.

2. **Non-Availability of Funds** — In accordance with ARS § 35-154, every payment obligation of the State under the Contract is conditioned upon the availability of funds appropriated or allocated for payment of such obligation. If funds are not allocated and available for the continuance of the ordering document, the ordering document may be terminated by the State at the end of the period for which funds are available. No liability shall accrue to the State in the event this provision is exercised, and the State shall not be obligated or liable for any future payments or for any damages as a result of termination under this paragraph. Notwithstanding the foregoing, Authorized Contract User shall not sign an ordering document or issue a purchase order for an order unless the funds for the order are fully appropriated and allocated, and You agree to pay for all Products ordered and Service Offerings performed by Oracle prior to Oracle's receipt of Your notice of termination for non-appropriations.

3. **Audit** — In accordance with A.R.S. § 35-214, the Contractor shall retain and shall contractually require each subcontractor to retain all records relating to invoices and payments under this Master Agreement ("records") for the Products purchased hereunder and any Services Offerings provided to You hereunder for a period of five years after completion of the Master Agreement. All records shall be subject to inspection and audit by the State upon reasonable written notice to Oracle, no more than one time per year, at the State's cost, and provided that such audit does not unreasonably interfere with Oracle's normal business operations.

4. **Conflict of Interest** — In accordance with A.R.S. § 38-511, State may within three years after execution terminate the Master Agreement, without penalty or further obligation, if any person significantly involved in initiating, negotiating, securing, drafting or creating the Master Agreement on behalf of the State, at any time while the Master Agreement is in effect, becomes an employee or agent or any other party to the Master Agreement in any capacity or a consultant to any other party of the Master Agreement with respect to the matter of the Master Agreement and Oracle intentionally hired the employee with knowledge of such employee's conflict of interest.

5. **Non-Discrimination** — In accordance with ARS § 41-1461, Contractor shall provide equal employment opportunities for all persons, regardless of race, color, creed, religion, sex, age, national origin, disability or political affiliation. Contractor shall comply with the Americans with Disabilities Act.

6. **E-Verify** — In accordance with ARS § 41-4401, Contractor warrants compliance with all Federal immigration laws and regulations relating to employees and warrants its compliance with A.R.S. § 23-214, Subsection A.

7. **Scrutinized Businesses** — In accordance with ARS § 35-391 and ARS § 35-393, Contractor certifies that the Contractor does not have scrutinized business operations in Sudan or Iran.

8. **Dispute Resolution.** If you receive an invoice, and you in good faith believe that the amount on the invoice is calculated incorrectly, you shall notify Oracle of the alleged error within the period specified in the first sentence of section 7 of the General Terms of this Master Agreement (the "Payment Period"). You and Oracle agree to use commercially reasonable efforts to resolve the invoicing error within the Payment Period. If you and Oracle come to agreement during the Payment Period on an adjusted amount, you shall promptly pay within the Payment Period the agreed-upon amount; otherwise you will pay the invoiced amount before the end of the Payment Period. If the parties do not agree during the Payment Period on an adjusted amount and you pay the invoiced amount by the end of the Payment Period, but the parties subsequently agree on an adjusted amount, then Oracle will promptly refund any fees determined to be owed to you. Either party may invoke this paragraph by providing the other party written notice of its decision to do so, including a description of the issues subject to the dispute. Each party will appoint a Managing Director (or equivalent) to discuss the dispute and no formal proceedings for the judicial resolution of such dispute, except for the seeking of equitable relief, may be initiated by a party, until either Managing Director (or equivalent) concludes, after a good faith effort to resolve the dispute, that resolution through continued discussion is unlikely. The parties shall refrain from exercising any termination right and shall continue to perform their respective obligations under the applicable ordering document and agreement while the parties endeavor to resolve the dispute under this paragraph; provided, however, that any party alleged to be in breach promptly makes good faith efforts to cure such breach and pursues the cure in good faith. The period of dispute resolution after notice will not exceed thirty (30) days, unless both parties agree to an extension.

Public Sector
Schedule P - Program

Oracle America, Inc. ("Oracle")
500 Oracle Parkway
Redwood Shores, CA 94065

Your Name:	**State of Arizona**
Oracle General Terms Reference:	
US-GMA-427347	For orders placed by Authorized Contract Users among State of Arizona departments, agencies, commissions and boards as described in the second unnumbered paragraph of the General Terms
US-GMA-562803	For orders placed by Authorized Contract Users among eligible public universities and political subdivisions as described in the second unnumbered paragraph of the General Terms

This Public Sector Program Schedule (this "Schedule P") is a Schedule to the General Terms referenced above. The General Terms and this Schedule P, together with any other Schedules that reference the General Terms, are the Master Agreement. This Schedule P shall coterminate with the General Terms.

1. DEFINITIONS

1.1 "**Commencement Date**" refers to the date of shipment of tangible media or the effective date of the order if shipment of tangible media is not required.

1.2 Capitalized terms used but not defined in this Schedule P have the meanings set forth in the General Terms.

2. RIGHTS GRANTED

2.1 Upon the full signing of Your order by both Oracle and You, You have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in the order), limited right to use the Programs and receive any Program-related Service Offerings You ordered solely for Your internal business operations and subject to the terms of the Master Agreement, including the definitions and rules set forth in the order and the Program Documentation. If accepted, Oracle will notify You and this notice will include a copy of Your Master Agreement.

2.2 Upon payment for Program-related Service Offerings, You have the non-exclusive, non-assignable, royalty free, perpetual, limited right to use for Your internal business operations anything developed by Oracle and delivered to You under this Schedule P ("deliverables"); however, certain deliverables may be subject to additional license terms provided in the order.

2.3 You may allow Your agents and contractors (including, without limitation, outsourcers) to use the Programs and deliverables for Your internal business operations and You are responsible for their compliance with the General Terms and this Schedule P in such use. For Programs that are specifically designed to allow Your customers and suppliers to interact with You in the furtherance of Your internal business operations, such use is allowed under the General Terms and this Schedule P.

2.4 You may make a sufficient number of copies of each Program for Your licensed use and one copy of each Program media.

3. RESTRICTIONS

3.1 The Programs may contain or require the use of third party technology that is provided with the Programs. Oracle may provide certain notices to You in Program Documentation, readmes or notice files in connection with such third party technology. Third party technology will be licensed to You either under the terms of the Master Agreement or, if specified in the Program Documentation, readmes or notice files, under Separate Terms. Your rights to use Separately Licensed Third Party Technology under Separate Terms are not restricted in any way by the Master Agreement. However, for clarity, notwithstanding the existence of a notice, third party technology that is not Separately Licensed Third Party Technology shall be deemed part of the Programs and is licensed to You under the terms of the Master Agreement.

If You are permitted under an order to distribute the Programs, You must include with the distribution all such notices and any associated source code for Separately Licensed Third Party Technology as specified, in the form and to the extent such source code is provided by Oracle, and You must distribute Separately Licensed Third Party Technology under Separate Terms (in the form and to the extent Separate Terms are provided by Oracle). Notwithstanding the foregoing, Your rights to the Programs are solely limited to the rights granted in Your order.

3.2 You may not:

a. remove or modify any Program markings or any notice of Oracle's or its licensors' proprietary rights;

b. make the Programs or materials resulting from the Service Offerings available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific Program license or materials from the Service Offerings you have acquired);

c. cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the Programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by Programs);

d. disclose results of any Program benchmark tests without Oracle's prior written consent, except as required by applicable law, provided that You give Oracle prior notice and an opportunity to oppose such disclosure (unless prohibited by law).

3.3 The prohibition on the assignment or transfer of the Programs or any interest in them under section 15 of the General Terms shall apply to all Programs licensed under this Schedule P, except to the extent that such prohibition is rendered unenforceable under applicable law.

4. TRIAL PROGRAMS

You may order trial Programs, or Oracle may include additional Programs with Your order which You may use for trial, non-production purposes only. You may not use the trial Programs to provide or attend third party training on the content and/or functionality of the Programs. You have 30 days from the Commencement Date to evaluate these Programs. To use any of these Programs after the 30 day trial period, You must obtain a license for such Programs from Oracle or an authorized reseller. If You decide not to obtain a license for any Program after the 30 day trial period, You will cease using and promptly delete any such Programs from Your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these Programs.

5. TECHNICAL SUPPORT

5.1 For purposes of an order, technical support consists of Oracle's annual technical support services You may have ordered from Oracle or an authorized reseller for the Programs. If ordered, annual technical support (including first year and all subsequent years) is provided under Oracle's technical support policies in effect at the time the technical support services are provided. You agree to cooperate with Oracle and provide the access, resources, materials, personnel, information and consents that Oracle may require in order to perform the technical support services. The technical support policies are incorporated in this Schedule P and are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of technical support services provided for supported Programs during the period for which fees for technical support have been paid. You should review the policies prior to entering into the order for the applicable technical support services. You may access the current version of the technical support policies at http://oracle.com/contracts.

5.2 Technical support is effective upon the Commencement Date unless otherwise stated in Your order.

5.3 Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with Your order may be renewed annually and, if You renew SULS for the same number of licenses for the same Programs, for the first and second renewal years the fee for SULS will not increase by more than 4% over the prior year's fees. If Your order is fulfilled by an authorized reseller, the fee for SULS for the first renewal year will be the price quoted to You by Your authorized reseller; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees.

5.4 If You decide to purchase technical support for any Program license within a license set, You are required to purchase technical support at the same level for all licenses within that license set. You may desupport a subset of licenses in a license set only if You agree to terminate that subset of licenses. The technical support fees for the remaining licenses will be priced in accordance with the technical support policies in effect at the time of termination. Oracle's license set definition is available in the current technical support policies. If You decide not to purchase technical support, You may not update any unsupported Program licenses with new versions of the Program.

6. PROGRAM-RELATED SERVICE OFFERINGS

In addition to technical support, You may order a limited number of Program-related Service Offerings under this Schedule P as listed in the Program-Related Service Offerings document, which is at http://oracle.com/contracts. You agree to provide Oracle with all information, access and full good faith cooperation reasonably necessary to enable Oracle to deliver these Service Offerings and You will perform the actions identified in the order as Your responsibility. If while performing these Service Offerings Oracle requires access to another vendor's products that are part of Your system, You will be responsible for acquiring all such products and the appropriate license rights necessary for Oracle to access such products on Your behalf. Service Offerings provided may be related to Your license to use Programs owned or distributed by Oracle which You acquire under a separate order. The agreement referenced in that order shall govern Your use of such Programs.

7. WARRANTIES, DISCLAIMERS AND EXCLUSIVE REMEDIES

7.1 Oracle warrants that a Program licensed to You will operate in all material respects as described in the applicable Program Documentation for a period of one year after delivery (i.e., via physical shipment or electronic download). You must notify Oracle of any Program warranty deficiency within one year after delivery. Oracle also warrants that technical support services and Program-related Service Offerings (as referenced in section 6 above) ordered and provided under this Schedule P will be provided in a professional manner consistent with industry standards. You must notify Oracle of any technical support service or Program-related Service Offerings warranty deficiencies within 90 days from performance of the deficient technical support service or Program-related Service Offerings.

7.2 ORACLE DOES NOT GUARANTEE THAT THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED OR THAT ORACLE WILL CORRECT ALL PROGRAM ERRORS.

7.3 FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE: (A) THE CORRECTION OF PROGRAM ERRORS THAT CAUSE BREACH OF THE WARRANTY; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE ERRORS OF THE APPLICABLE PROGRAM LICENSE IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END YOUR PROGRAM LICENSE AND RECOVER THE FEES YOU PAID TO ORACLE FOR THE PROGRAM LICENSE AND ANY UNUSED, PREPAID TECHNICAL SUPPORT FEES YOU HAVE PAID FOR THE PROGRAM LICENSE; OR (B) THE REPERFORMANCE OF THE DEFICIENT PROGRAM-RELATED SERVICE OFFERINGS; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE DEFICIENT PROGRAM-RELATED SERVICE OFFERINGS AND RECOVER THE FEES YOU PAID TO ORACLE FOR THE DEFICIENT PROGRAM-RELATED SERVICE OFFERINGS.

7.4 TO THE EXTENT NOT PROHIBITED BY LAW, THIS WARRANTY IS EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

8. AUDIT

Upon 45 days written notice, Oracle may audit Your use of the Programs. You agree to cooperate with Oracle's audit and provide reasonable assistance and access to information. Any such audit shall not unreasonably interfere with Your normal business operations. You agree to pay within 30 days of written notification any fees applicable to Your use of the Programs in excess of Your license rights. If You do not pay, Oracle can end (a) Program-related Service Offerings (including technical support), (b) Program licenses ordered under this Schedule P and related agreements and/or (c) the Master Agreement. You agree that Oracle shall not be responsible for any of Your costs incurred in cooperating with the audit.

9. ORDER LOGISTICS

9.1 Delivery and Installation

9.1.1 You are responsible for installation of the Programs unless the Programs have been pre-installed by Oracle on the Hardware You are purchasing under the order or unless You purchase installation services from Oracle for those Programs.

9.1.2 Oracle has made available to You for electronic download at the electronic delivery web site located at the following Internet URL: http://edelivery.oracle.com the Programs listed in the Programs and Program Support Service Offerings section of the applicable order. Through the Internet URL, You can access and electronically download to Your location the latest production release as of the effective date of the applicable order of the software and related Program Documentation for each Program listed. Provided that You have continuously maintained technical support for the listed Programs, You may continue to download the Programs and related Program Documentation. Please be advised that not all Programs are available on all hardware/operating system combinations. For the most recent Program availability please check the electronic delivery web site specified above. You acknowledge that Oracle is under no further delivery obligation with respect to Programs under the applicable order, electronic download or otherwise unless otherwise stated in Your Order.

9.1.3 If ordered, Oracle will deliver the tangible media to the delivery address specified on the applicable order. You agree to pay applicable media and shipping charges. The applicable shipping terms for the delivery of tangible media are: FCA Shipping Point, Prepaid, and Add.

9.2 Territory

The Programs shall be used in the United States.

9.3 Pricing, Invoicing and Payment Obligation

9.3.1 In entering into payment obligations under an order, You agree and acknowledge that You have not relied on the future availability of any Program or updates. However, (a) if You order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the Master Agreement, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to You under an order and the Master Agreement.

9.3.2 Program fees are invoiced as of the Commencement Date.

9.3.3 Program-related Service Offering fees are invoiced after the performance of the Program-related Service Offering performance; specifically, technical support fees are invoiced quarterly in arrears. The period of performance for all Program-related Service Offerings is effective upon the Commencement Date.

9.3.4 In addition to the prices listed on the order, and unless specified otherwise in the Order, Oracle will invoice You for any applicable shipping charges or applicable taxes and You will be responsible for such charges and taxes.

Public Sector
Schedule H - Hardware

Oracle America, Inc. ("Oracle")
500 Oracle Parkway
Redwood Shores, CA 94065

Your Name:	**State of Arizona**
Oracle General Terms Reference:	
US-GMA-427347	For orders placed by Authorized Contract Users among State of Arizona departments, agencies, commissions and boards as described in the second unnumbered paragraph of the General Terms
US-GMA-562803	For orders placed by Authorized Contract Users among eligible public universities and political subdivisions as described in the second unnumbered paragraph of the General Terms

This Public Sector Hardware Schedule (this "Schedule H") is a Schedule to the General Terms referenced above. The General Terms and this Schedule H, together with any other Schedules that reference the General Terms, are the Master Agreement. This Schedule H shall coterminate with the General Terms.

1. DEFINITIONS

1.1 "**Commencement Date**" for the Hardware, Operating System and Integrated Software refers to the date the Hardware is delivered. For Integrated Software Options, the Commencement Date refers to the date that Oracle both parties fully sign an order for an Integrated Software Option.

1.2 "**Integrated Software Options**" refers to software or programmable code embedded in, installed on, or activated on the Hardware that requires one or more unit licenses that You must separately order. Such separate order will set forth the fees for the Integrated Software Options You are ordering. Not all Hardware contains Integrated Software Options; please refer to the Oracle Integrated Software Options License Definitions, Rules and Metrics accessible at http://oracle.com/contracts (the "Integrated Software Options License Rules") for the specific Integrated Software Options that may apply to specific Hardware. Oracle reserves the right to designate new software features as Integrated Software Options in subsequent releases and that designation will be specified in the applicable documentation and in the Integrated Software Options License Rules.

1.3 Capitalized terms used but not defined in this Schedule H have the meanings set forth in the General Terms.

2. RIGHTS GRANTED

2.1 Your Hardware order consists of the following items: Operating System (as defined in Your configuration), Integrated Software and all Hardware equipment (including components, options and spare parts) specified on the applicable order. Your Hardware order may also include Integrated Software Options. Integrated Software Options may not be activated or used until You separately order them and pay the fees as set forth in an in accordance with such Order. .

2.2 You have the right to use the Operating System delivered with the Hardware subject to the terms of the license agreement(s) delivered with the Hardware. Current versions of the license agreements are located at http://oracle.com/contracts. You are licensed to use the Operating System and any Operating System updates acquired through technical support only as incorporated in, and as part of, the Hardware.

2.3 You have the limited, non-exclusive, royalty free, non-transferable, non-assignable right to use Integrated Software delivered with the Hardware subject to the terms of this Schedule H and the applicable documentation. You are licensed to use that Integrated Software and any Integrated Software updates acquired through technical support only as incorporated in, and as part of, the Hardware. You have the limited, non-exclusive, royalty free, non-transferable, non-assignable right to use Integrated Software Options that You separately order subject to the terms of this Schedule H, the applicable documentation and the Integrated Software Options License Rules; the Integrated Software Options License Rules are incorporated in and made a part of this Schedule H. You are licensed to use those Integrated Software Options and any Integrated Software Options updates acquired through technical support only as incorporated in, and as part of, the Hardware. To fully understand Your license right to any Integrated Software Options that You separately order, You need to review the Integrated Software Options License Rules. In the event of any conflict between the Master Agreement and the Integrated Software Options License Rules, the Integrated Software Options License Rules shall take precedence.

2.4 The Operating System or Integrated Software or Integrated Software Options (or all three) may include separate works, identified in a readme file, notice file or the applicable documentation, which are licensed under open source or similar license terms; Your rights to use the Operating System, Integrated Software and Integrated Software Options under such terms are not restricted in any way by the Master Agreement including this Schedule H. The appropriate terms associated with such

separate works can be found in the readme files, notice files or in the documentation accompanying the Operating System, Integrated Software, and Integrated Software Options.

For GPLv2, LGPLv2.1, GPLv3 and LGPLv3 licensed code You received as binaries on physical media, You may receive a copy of the source code ("source code") on media via postal service by submitting a written request at http://www.oracle.com/technetwork/opensource/index.html. Alternatively, You can mail Your written request to Oracle Corporation, Attn: VP of Legal, Development and Engineering, 500 Oracle Parkway, MS-5OP10, Redwood Shores, CA 94065. Your request should include the name and version number of the Product, Your name, Your company name (if applicable), Your return mailing address, and Your email address. Certain source distributions require a fee for physical media; in such case, You will be sent details on the cost and payment procedure via email. Your request must be sent within three (3) years of the date of Oracle's last delivery of the applicable Product, or in the case of code licensed under the GPLv3, You may send a request for as long as Oracle offers spare parts or technical support for the applicable Product model. This offer only applies if You received Your Operating System, Integrated Software or Integrated Software Options on physical media.

2.5 Upon payment for Hardware-related Service Offerings, You have the non-exclusive, non-assignable, royalty free, perpetual, limited right to use for Your internal business operations anything developed by Oracle and delivered to You under this Schedule H ("deliverables"); however, certain deliverables may be subject to additional license terms which are provided in the order.

3. RESTRICTIONS

3.1 You may only make copies of the Operating System, Integrated Software and Integrated Software Options for archival purposes, to replace a defective copy, or for program verification. You shall not remove any copyright notices or labels on the Operating System, Integrated Software or Integrated Software Options. You shall not decompile or reverse engineer (unless required by law for interoperability) the Operating System or Integrated Software.

3.2 You acknowledge that to operate certain Hardware, Your facility must meet a minimum set of requirements as described in the Hardware documentation. Such requirements may change from time to time, as communicated by Oracle to You in the applicable Hardware documentation.

3.3 The prohibition on the assignment or transfer of the Operating System or any interest in it under section 15 of the General Terms shall apply to all Operating Systems licensed under this Schedule H, except to the extent that such prohibition is rendered unenforceable under applicable law.

4. TRIAL PROGRAMS

Oracle may include additional Programs on the Hardware (e.g., Exadata Storage Server software). You are not authorized to use those Programs unless You have a license specifically granting You the right to do so; however, You may use those additional Programs for trial, non-production purposes for up to 30 days from the date of delivery provided that You may not use the trial Programs to provide or attend third party training on the content and/or functionality of the Programs. To use any of these Programs after the 30 day trial period, You must obtain a license for such Programs from Oracle or an authorized reseller. If You decide not to obtain a license for any Program after the 30 day trial period, You will cease using and promptly delete any such Programs from Your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these Programs.

5. TECHNICAL SUPPORT

5.1 Oracle Hardware and Systems Support acquired with Your order may be renewed annually and, if You renew Oracle Hardware and Systems Support for the same systems and same configurations, for the first and second renewal years the technical support fee will not increase by more than 4% over the prior year's fees.

5.2 If ordered, Oracle Hardware and Systems Support (including first year and all subsequent years) is provided under Oracle's Hardware and Systems Support Policies in effect at the time the technical support services are provided. You agree to cooperate with Oracle and provide the access, resources, materials, personnel, information, and consents that Oracle may require in order to perform the technical support services. The Oracle Hardware and Systems Support Policies are incorporated in this Schedule H and are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of technical support services provided during the period for which fees for Oracle Hardware and Systems Support have been paid. You should review the policies prior to entering into the order for technical support services. You may access the current version of the Oracle Hardware and Systems Support Policies at http://oracle.com/contracts.

5.3 Oracle Hardware and Systems Support is effective upon the Commencement Date of the Hardware or upon the effective date of the order if shipment of Hardware is not required.

6. HARDWARE-RELATED SERVICE OFFERINGS

In addition to technical support, You may order a limited number of Hardware-related Service Offerings under this Schedule H as listed in the Hardware-Related Service Offerings document, which is at http://oracle.com/contracts. You agree to provide Oracle with all information, access and full good faith cooperation reasonably necessary to enable Oracle to deliver these Service Offerings and You will perform the actions identified in the order as Your responsibility. If while performing these Service Offerings Oracle requires access to another vendor's products that are part of Your system, You will be responsible for acquiring all such products and the appropriate license rights necessary for Oracle to access such products on Your behalf. Service Offerings provided may be related to Your license to use Products owned or distributed by Oracle which You acquire under a separate order. The agreement referenced in that order shall govern Your use of such Products.

7. WARRANTIES, DISCLAIMERS AND EXCLUSIVE REMEDIES

7.1 Oracle provides a limited warranty ("Oracle Hardware Warranty") for (i) the Hardware, (ii) the Operating System and the Integrated Software and the Integrated Software Options, and (iii) the Operating System media, the Integrated Software media and the Integrated Software Options media ("media", and (i), (ii) and (iii) collectively, "Hardware Items"). Oracle warrants that the Hardware will be free from, and using the Operating System and Integrated Software and Integrated Software Options will not cause in the Hardware, material defects in materials and workmanship for one year from the date the Hardware is delivered to You. Oracle warrants that the media will be free from material defects in materials and workmanship for a period of 90 days from the date the media is delivered to You. You may access a more detailed description of the Oracle Hardware Warranty at http://www.oracle.com/us/support/policies/index.html ("Warranty Web Page"). Any changes to the Oracle Hardware Warranty specified on the Warranty Web Page will not apply to Hardware or media ordered prior to such change. The Oracle Hardware Warranty applies only to Hardware and media that have been (1) manufactured by or for Oracle, and (2) sold by Oracle (either directly or by an Oracle-authorized distributor). The Hardware may be new or like new. The Oracle Hardware Warranty applies to Hardware that is new and Hardware that is like-new which has been remanufactured and certified for warranty by Oracle.

7.2 Oracle also warrants that technical support services and Hardware-related Service Offerings (as referenced in section 6 above) ordered and provided under this Schedule H will be provided in a professional manner consistent with industry standards. You must notify Oracle of any technical support service or Hardware-related Service Offerings warranty deficiencies within 90 days from performance of the deficient technical support service or Hardware-related Service Offerings.

7.3 **FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE: (i) THE REPAIR OR, AT ORACLE'S OPTION AND EXPENSE, REPLACEMENT OF THE DEFECTIVE HARDWARE ITEM, OR IF SUCH REPAIR OR REPLACEMENT IS NOT REASONABLY ACHIEVABLE, THE REFUND OF THE FEES YOU PAID ORACLE FOR THE DEFECTIVE HARDWARE ITEM OR (ii) THE REPERFORMANCE OF THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS AND RECOVER THE FEES YOU PAID TO ORACLE FOR THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS. TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS WITH RESPECT TO THE ABOVE ITEMS, INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.**

7.4 Replacement units for defective parts or Hardware Items replaced under the Oracle Hardware Warranty may be new or like new quality. Such replacement units assume the warranty status of the Hardware into which they are installed and have no separate or independent warranty of any kind. Title in all defective parts or Hardware Items shall transfer back to Oracle upon removal from the Hardware.

7.5 **ORACLE DOES NOT WARRANT UNINTERRUPTED OR ERROR-FREE OPERATION OF THE HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE, INTEGRATED SOFTWARE OPTIONS OR MEDIA.**

7.6 No warranty will apply to any Hardware, Operating System, Integrated Software, Integrated Software Options or media which has been:

a. modified, altered or adapted without Oracle's written consent (including modification or removal of the Oracle/Sun serial number tag on the Hardware);
b. maltreated or used in a manner other than in accordance with the relevant documentation;
c. repaired by any third party in a manner which fails to meet Oracle's quality standards;
d. improperly installed by any party other than Oracle or an authorized Oracle certified installation partner;
e. used with equipment or software not covered by an Oracle warranty, to the extent that the problems are attributable to such use;
f. relocated, to the extent that problems are attributable to such relocation;
g. used directly or indirectly in supporting activities prohibited by U.S. or other national export regulations;
h. used by parties appearing on the then-current U.S. export exclusion list;
i. relocated to countries subject to U.S. trade embargo or restrictions;
j. used remotely to facilitate any activities for parties or in the countries referenced in 7.6(h) and 7.6(i) above; or
k. purchased from any entity other than Oracle or an Oracle authorized reseller.

7.7 The Oracle Hardware Warranty does not apply to normal wear of the Hardware or media. The Oracle Hardware Warranty is extended only to the original purchaser or original lessee of the Hardware and may be void in the event that title to the Hardware is transferred to a third party.

8. AUDIT

Upon 45 days written notice, Oracle may audit Your use of the Operating System, Integrated Software and Integrated Software Options. You agree to cooperate with Oracle's audit and provide reasonable assistance and access to information. Any such audit shall not unreasonably interfere with Your normal business operations. You agree to pay within 30 days of written notification any fees applicable to Your use of the Operating System, Integrated Software and Integrated Software Options in excess of Your license rights. If You do not pay, Oracle can end (a) Service Offerings (including technical support) related to the Operating System, Integrated Software and Integrated Software Options, (b) licenses of the Operating System, Integrated Software and Integrated Software Options ordered under this Schedule H and related agreements and/or (c) the Master Agreement. You agree that Oracle shall not be responsible for any of Your costs incurred in cooperating with the audit.

9. ORDER LOGISTICS

9.1 Delivery, Installation and Acceptance of Hardware

9.1.1 You are responsible for installation of the Hardware unless You purchase installation services from Oracle for that Hardware.

9.1.2 Oracle will deliver the Hardware to the delivery address specified by You on Your purchasing document or when Your purchasing document does not indicate a ship to address, the location specified on the order. The applicable country specific Hardware shipping terms are located in the Order and Delivery Policies, which may be accessed at http://oracle.com/contracts.

9.1.3 Acceptance of the Hardware is deemed to occur on delivery.

9.1.4 Oracle may make and invoice You for partial deliveries.

9.1.5 Oracle may make substitutions and modifications to the Hardware that do not cause a material adverse effect in overall Hardware performance, fit or function.

9.1.6 Oracle will use its reasonable commercial efforts to deliver the Hardware within a timeframe that is consistent with Oracle's past practices regarding the amount and type of Hardware that You have ordered.

9.2 Transfer of Title

Title to the Hardware will transfer upon delivery.

9.3 Territory

The Hardware shall be installed in the country/countries that You specify as the delivery location on Your purchasing document or when Your purchasing document does not indicate a ship to address, the location specified in the order.

9.4 Pricing, Invoicing, and Payment Obligation

9.4.1 You may change a Hardware order prior to shipment subject to the then current change order fee as established by Oracle from time to time. The applicable change order fees and a description of allowed changes are defined in the Order and Delivery Policies, which may be accessed at http://oracle.com/contracts.

9.4.2 In entering into payment obligations under an order, You agree and acknowledge that You have not relied on the future availability of any Hardware, Program or updates. However, (a) if You order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the Master Agreement, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to You under an order and the Master Agreement.

9.4.3 Hardware and Integrated Software Options fees are invoiced as of the respective Commencement Dates.

9.4.4 Hardware-related Service Offering fees are invoiced after performance of the Hardware-related Service Offering performance; specifically, technical support fees are invoiced quarterly in arrears. The period of performance for all Hardware-related Service Offerings is effective upon the Commencement Date of the Hardware or upon the effective date of the order if shipment of Hardware is not required.

9.4.5 In addition to the prices listed on the order, Oracle will invoice You for any applicable freight charges or applicable taxes, and You will be responsible for such charges and taxes notwithstanding any express or implied provision in the "Incoterms" referenced in the Order and Delivery Policies. The Order and Delivery Policies may be accessed at http://oracle.com/contracts.

Public Sector
Schedule S - Services

Oracle America, Inc. ("Oracle") 500 Oracle Parkway Redwood Shores, CA 94065

Your Name:	State of Arizona
Oracle General Terms Reference:	
US-GMA-427347	For orders placed by Authorized Contract Users among State of Arizona departments, agencies, commissions and boards as described in the second unnumbered paragraph of the General Terms
US-GMA-562803	For orders placed by Authorized Contract Users among eligible public universities and political subdivisions as described in the second unnumbered paragraph of the General Terms

This Public Sector Services Schedule (this "Schedule S") is a Schedule to the General Terms referenced above. The General Terms and this Schedule S, together with any other Schedules that reference the General Terms, are the Master Agreement. This Schedule S shall coterminate with the General Terms.

1. DEFINITIONS

1.1 **"Services"** refers to consulting, advanced customer support services, education or other services which you have ordered from Oracle under this Schedule S.

1.2 Capitalized terms used but not defined in this Schedule S have the meanings set forth in the General Terms.

2. RIGHTS GRANTED / RESTRICTIONS

2.1 Upon payment for Services, You have the non-exclusive, non-assignable, royalty free, perpetual, limited right to use for Your internal business operations anything developed by Oracle and delivered to You under this Schedule S ("deliverables"); however, certain deliverables may be subject to additional license terms provided in the order.

2.2 You may allow Your agents and contractors (including, without limitation, outsourcers) to use deliverables for Your internal business operations and You are responsible for their compliance with the General Terms and this Schedule S in such use.

2.3 Services provided may be related to Your license to use Products owned or distributed by Oracle which You acquire under a separate order. The agreement referenced in that order shall govern Your use of such Products.

3. WARRANTIES, DISCLAIMERS AND EXCLUSIVE REMEDIES

Oracle warrants that Services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any warranty deficiencies within 90 days from performance of the deficient Services.

FOR ANY BREACH OF THE WARRANTY, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE THE RE-PERFORMANCE OF THE DEFICIENT SERVICES, OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE DEFICIENT SERVICES AND RECOVER THE FEES YOU PAID TO ORACLE FOR THE DEFICIENT SERVICES.

TO THE EXTENT NOT PROHIBITED BY LAW, THIS WARRANTY IS EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

PRICING AND DISCOUNTS EXHIBIT

Your Name:	State of Arizona
Oracle General Terms Reference:	
US-GMA-427347	For orders placed by Authorized Contract Users among State of Arizona departments, agencies, commissions and boards as described in the second unnumbered paragraph of the General Terms
US-GMA-562803	For orders placed by Authorized Contract Users among eligible public universities and political subdivisions as described in the second unnumbered paragraph of the General Terms

A. Pricing and Discounts for New Program Licenses, Hardware, and First-Year Technical Support

1. Price Lists[1]. For one (1) year from the Effective Date of the Master Agreement, the "Price Lists" attached hereto shall be defined as follows:

   a. Oracle Technology Global Price List, dated June 18, 2015
   b. Oracle Business Intelligence Applications Global Price List, dated June 1, 2015
   c. Oracle E-Business Suite Applications Global Price List, dated June 1, 2015
   d. PeopleSoft Component Global Price List, dated October 16, 2014
   e. JD Edwards Global Price List, dated June 18, 2015
   f. Siebel CRM Global Price List (Component Pricing), dated March 12, 2015
   g. Primavera Global Price List, dated October 16, 2014
   h. Arizona Pricelist (for Hardware and Engineered Systems and Associated Software – Named Product Hierarchy Price List), dated April 7, 2015

2. Pricing and Discounts. For one (1) year from the Effective Date of the Master Agreement, provided that Authorized Contract User has continuously maintained technical support for its existing program licenses and/or hardware, Authorized Contract User may acquire the Products listed on the Price Lists, provided that such Products are available in production release when ordered, by paying Oracle the fees specified for such Products on the Price Lists less the discount determined by the discount schedule set forth below. Authorized Contract User may also acquire first-year technical support (Software Updates & License Support ("SULS") for Programs or Premier Support Services for Hardware) by paying Oracle the fees specified for such technical support on the Price Lists less the discount determined by the discount schedule set forth below.

3. Discount Schedules.

   a. For Price Lists listed in sections A.1.a through A.1.g.
      i. For one (1) year from the Effective Date of the Master Agreement, except as provided in sections A.4 below, the following discount schedule shall apply to the list fees specified on the Price Lists for the program licenses and first-year SULS for such licenses acquired pursuant to the terms of the Master Agreement:

Transaction Band (List License + List SULS Fees)	License and First-Year SULS Discounts
$0 - $25,000	24.25%
$25,001 - $50,000	24.25%
$50,001 - $100,000	24.25%
$100,001 – $250,000	29.30%
$250,001 – $375,000	34.35%
$375,001 +	39.40%

      ii. Conditions. (1) The discount tier based on list license and list SULS fees as provided in the table above (the "Transaction Band") shall be determined per order; (2) each order placed pursuant to this discount schedule shall be considered a separate transaction; and (3) orders may not be aggregated to increase the overall discount.

[1] Any discounts provided in this Master Agreement shall not apply toward (i) any third-party products included in any of the Price Lists, (ii) any cloud products included in any of the Price Lists, and (iii) any products on controlled availability. Cloud products, even if on the Price Lists, may not be purchased under this Master Agreement.

b. For Arizona Pricelist (for Hardware and Engineered Systems and Associated Software – Named Product Hierarchy Price List) listed in section A.1.h. For one (1) year from the Effective Date of the Master Agreement, except as provided in sections A.4 below, the discounts specified in the attached Arizona Pricelist (for Hardware and Engineered Systems and Associated Software – Named Product Hierarchy Price List) shall apply to the program licenses, hardware, and first-year technical support acquired pursuant to the terms of the Master Agreement.

4. Exceptions.

a. Any discounts provided in this Master Agreement shall not apply toward (i) any third-party products included in any of the Price Lists, (ii) any cloud products included in any of the Price Lists, and (iii) any products on controlled availability.

b. Cloud products, even if on the Price Lists, may not be purchased under this Master Agreement.

Application Specific Technology Products Licensing Rules and General Notes

Programs that contain "for Oracle Applications" in the program name are limited use programs. These limited use programs may only be used with "eligible" Oracle application programs that contain the following prefixes in the program name: Oracle Fusion, Oracle Communications*, Oracle Documaker, Oracle Media, Oracle Retail*, Oracle Enterprise Taxation*, Oracle Tax, Oracle Utilities*, Oracle Financial Services*, Oracle FLEXCUBE, Oracle Revenue, Oracle Mantas, Oracle Healthcare*, Oracle Health Sciences, Oracle Argus, Oracle Legal, Oracle Insurance and Oracle Primavera. For those prefixes designated above with a "*" not all programs with that prefix are eligible for use with the "for Oracle Applications" limited use programs. For a list of excluded programs please review the Applications Licensing Table, which may be accessed at http://www.oracle.com/us/corporate/pricing/application-licensing-table-070571.pdf.

Notwithstanding anything above, Business Intelligence Suite Enterprise Edition Plus for Oracle Applications may only be used with "eligible" Oracle application programs that contain "Oracle Fusion Human Capital Management" as a prefix in the program name and provided that the Oracle Fusion Human Capital Management programs are the only programs configured to run against the database instance.
Endeca Discovery Foundation for Oracle Applications is eligible for use with products that contain "Extensions for Oracle Endeca" in the product name.

Business Intelligence Foundation Suite for Oracle Applications is eligible for use with the following Oracle Business Intelligence Applications provided Oracle Fusion Applications is the only data source: Sales Analytics, Fusion Edition; Marketing Analytics, Fusion Edition; Partner Analytics, Fusion Edition; Supply Chain and Order Management Analytics, Fusion Edition; Financial Analytics, Fusion Edition; Procurement & Spend Analytics, Fusion Edition; Project Analytics; and Human Resources Analytics, Fusion Edition.

Business Intelligence Foundation Suite for Oracle Applications is also eligible for use with: Oracle Product Information Management Analytics, Fusion Edition; Oracle Customer Data Management Analytics, Fusion Edition; and Oracle Product Lifecycle Analytics.

WebLogic Suite for Oracle Applications is eligible for use with Oracle Agile Applications (available on the Oracle E-Business Suite Applications Global Price Lists).

Any use of limited use programs containing "for Oracle Applications" by other Oracle applications or third party applications is not permitted.

Term licensing available for all Oracle Products. The list price for a term license is based on a specific percentage of the perpetual license price. Annual term licenses are available from 1 to 5 years: 1 year - 20% of list; 2 year - 35% of list, 3 year - 50% of list, 4 year 60% of list and 5 year 70% of list. Support for all term licenses is 22% of net perpetual fee.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited. For educational purposes only. Subject to change without notice.

Definitions

Named User Plus: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. A non human operated device will be counted as a named user plus in addition to all individuals authorized to use the programs, if such devices can access the programs. If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor minimums are maintained for the programs contained in the user minimum table in the licensing rules section; the minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, only the users of the program that is being managed/monitored are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Masking and Subsetting Pack, and Data Masking and Subsetting Pack for Non-Oracle Databases only the users of the database servers where masked data or data subsets originate and the users of the database servers performing masking, or subsetting operations (via GUI or command line) must be licensed.

With respect to the following programs: Load Testing, Load Testing Developer Edition, Load Testing Accelerator for Web Services, Load Testing Accelerator for Oracle Database and Load Testing Suite for Oracle Applications, each emulated human user and non human operated device shall be considered as a virtual user and shall be counted for the purpose of determining the number of Named User Plus licenses required.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, Real User Experience Insight, Application Replay Pack, all users of the respective managed application program must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate, only (a) the users of the Oracle database from which you capture data and (b) the users of the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the users of the Non Oracle database from which you capture data and (b) the users of the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Big Data, only the users of the source Oracle or non Oracle database(s) from which you capture data must be counted for the purpose of determining the number of licenses required. In the instance of multiple source databases, all users for all sources must be counted.

For the purposes of the following program: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, and Application Adapters for Data Integration, the users that are running or accessing the data transformation processes must be counted for the purposes of determining the number of licenses required.

For the purposes of the following programs: Oracle Mobile Suite Client Runtime and Mobile Application Framework, only the end users of each Application Developd must be counted for the purpose of determining the number of licenses required, regardless of the choice of the mobile application development tool or the framework used to build the Application Developed.

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name (with the exception of WebCenter Enterprise Capture Standard Edition, Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, only the processors on which the program that is being managed/monitored are running are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Masking and Subsetting Pack and, Data Masking and Subsetting Pack for non-Oracle Databases all database servers where masked data or data subsets originate and database servers performing masking, or subsetting operations (via GUI or command line) must be licensed.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, all processors on which the middleware and/or database software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Replay Pack, Real User Experience Insight, all processors on which the middleware software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Informatica PowerCenter and PowerConnect Adapters, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, Data Integrator for Oracle Business Intelligence, and Application Adapters for Data Integration, only the processor(s) where the data transformation processes are executed must be counted for the purposes of determining the number of licenses required.

For the purposes of the following program: In-Memory Database Cache, and In-Memory Database Cache for Oracle Applications, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate, only (a) the processors running the Oracle database from which you capture data and (b) the processors running the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the processors running the Non Oracle database from which you capture data and (b) the processors running the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purpose of the following programs: Oracle Golden Gate Application Adapters, and Oracle GoldenGate for Big Data, only the processors running the source Oracle or non Oracle database(s) from which you capture data must be counted for the purpose of determining the number of licenses required. In the instance of multiple source databases, all processors for all sources must be counted.

For the purposes of the following program: Audit Vault and Database Firewall, only the processors of the sources which are protected, monitored, or audited must be counted for the purpose of determining the number of licenses required.

Application Developed: is defined as a software program developed by you that operates on smart-phones and/or other end user devices and that (i) provides end users with access to content or (ii) provides end users with end user transaction enablement or (iii) otherwise enables use by end users of functions available through the Oracle run-time Program.

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Oracle Self Service Work Request option in conjunction with Oracle Enterprise Asset Management, you are required to maintain licenses for the equivalent number of Application Users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion date for your entire employee population. Applications Users licensed for Oracle Order Management are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately. For Oracle Sourcing, Oracle iSupplier Portal, and Oracle Services Procurement programs, use by your external suppliers is included with your application user licenses.

Application Read-Only User: is defined as an individual authorized by you to run only queries or reports against the application program for which you have also acquired non read-only licenses.

Annual Transaction Volume: is defined as the U.S. dollar denominated total value of all purchase orders transacted and all auctions conducted through the Oracle Exchange Platform by you and others during the applicable year of the Oracle Exchange Platform license regardless of whether any such auction results in a purchase order, provided that an auction resulting in a purchase order shall only be counted against the Annual Transaction Volume once.

Case Report Form (CRF) Page: is defined as the "electronic equivalent" of what would be the total number of physical paper pages initiated remotely by the Program (measured explicitly in the Program as Received Data Collection Instruments) during a 12-month period. You may not exceed the licensed number of CRF pages during any 12-month period unless you acquire additional CRF pages licenses from us.

Compensated Individual: is defined as an individual whose compensation or compensation calculations are generated by the programs. The term Compensated Individual includes, but is not limited to, your employees, contractors, retirees, and any other Person.

Computer: is defined as the computer on which the programs are installed. A Computer license allows you to use the licensed program on a single specified computer.

Connector: is defined as each connector connecting the software product with an external product. A unique connector is required for each distinct product with which the software product is required to interface.

Cost of Goods Sold: is defined as the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to you then Cost of Goods Sold shall be equal to 75% of total company revenue.

Customer: is defined as the Customer entity specified on the ordering document. The programs may not be used or accessed for the business operations of any third party, including but not limited to your customers, partners, or your affiliates. There is no limitation on the number of physical servers on which such programs may be copied, installed and used.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited. For educational purposes only. Subject to change without notice.

Electronic Order Line: is defined as the total number of distinct electronic order lines entered electronically into the Oracle Order Management application from any source (not manually entered by licensed Order Management Users, Professional Users 2003, or Professional Users 2003 External) during a 12 month period. This includes order lines originating as external EDI/XML transactions and/or sourced from other Oracle and non-Oracle applications. You may not exceed the licensed number of order lines during any 12 month period.

Employee: is defined as (i) all of your full-time, part-time, temporary employees, and (ii) all of your agents, contractors and consultants who have access to, use, or are tracked by the programs. The quantity of the licenses required is determined by the number of Employees and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, the following must be counted for purposes of determining the number of Employees: all of the company's full-time employees, part-time employees, temporary employees, agents, contractors and consultants that (i) are providing the outsourcing services and (ii) have access to, use, or are tracked by the programs.

Employee for HCM: is defined as (i) all of your full-time, part-time, temporary employees, and (ii) all of your agents, contractors and consultants who have access to, use, or are tracked by the programs. The quantity of the licenses required is determined by the number of Employees for HCM and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, the following must be counted for purposes of determining the number of Employees for HCM: all of the company's full-time employees, part-time employees, temporary employees, agents, contractors and consultants that (i) are providing the outsourcing services and (ii) have access to, use, or are tracked by the programs. Employees for HCM may only use the licensed programs with Oracle application programs that contain "Oracle Fusion Human Capital Management" as a prefix in the program name.

Employee User: is defined as an individual authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time.

Entry: is defined as a unique item (e.g., object, person, entity or item of information) stored within the programs. Replicated entries stored within the program on multiple servers are counted as a single entry.

Expense Report: is defined as the total number of expense reports processed by the iExpenses during a 12 month period. You may not exceed the licensed number of expense reports during any 12 month period.

Field Technician: is defined as an engineer, technician, representative, or other person who is dispatched by you, including the dispatchers, to the field using the programs.

FTE Student: is defined as any full-time student enrolled in your institution and any part-time student enrolled in your institution counts as 25% of an FTE Student. The definition of "full-time" and "part-time" is based on your policies for student classification. If the number of FTE Students is a fraction, that number will be rounded to the nearest whole number for purposes of license quantity requirements.

Hosted Named User: is defined as an individual authorized by you to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

Invoice Line: is defined as the total number of invoice line items processed by the program during a 12 month period. You may not exceed the licensed number of Invoice Lines during any 12 month period unless you acquire additional Invoice Line licenses from us.

IVR Port: is defined as a single caller that can be processed via the Interactive Voice Response (IVR) system. Customers must purchase licenses for the number of IVR Ports that represent the maximum number of concurrent callers that can be processed by the IVR system.

Module: is defined as each production database running the programs.

Network Device: is defined as the hardware and/or software whose primary purpose is to route and control communications between computers or computer networks. Examples of network devices include but are not limited to, routers, firewalls and network load balancers.

Non Employee User - External: is defined as an individual, who is not your employee, contractor or outsourcer, authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time.

Partner Organization: is defined as an external third party business entity that provides value-added services in marketing and selling your products. Depending upon the type of industry, partner organizations play different roles and are recognized by different names such as reseller, distributor, agent, dealer or broker.

Person: is defined as your employee or contractor who is actively working on behalf of your organization or a former employee who has one or more benefit plans managed by the system or continues to be paid through the system. For Project Resource Management, a person is defined as an individual who is scheduled on a project. The total number of licenses needed is to be based on the peak number of part-time and full-time people whose records are recorded in the system.

Physical Server: *is defined as each physical server on which the programs are installed.*

Ported Number: is defined as the telephone number that end users retain as they change from one service provider to another. This telephone number originally resides on a telephone switch and is moved into the responsibility of another telephone switch.

Record: The Customer Hub B2B is a bundle that includes two components, Siebel Universal Customer Master B2B and Oracle Customer Data Hub. For the purpose of the Customer Hub B2B application, record is defined as the total number of unique customer database records stored in the Customer Hub B2B application (i.e., stored in a component of Customer Hub B2B). A customer database record is a unique business entity or company record which is stored as an account for the Siebel Universal Customer Master B2B product or as an organization for the Oracle Customer Data Hub product.

The Customer Hub B2C is a bundle that includes two components, Siebel Universal Customer Master B2C and Oracle Customer Data Hub. For the purposes of the Customer Hub B2C application, record is defined as the total number of unique customer database records stored in the Customer Hub B2C application (i.e., stored in a component of Customer Hub B2C). A customer database record is a unique consumer (i.e., physical person) record which is stored as a contact for the Siebel Universal Customer Master product or as a person for the Oracle Customer Data Hub product.

The Product Hub is a bundle that includes two components, Siebel Universal Product Master and Oracle Product Information Management Data Hub. *For the purposes of the Product Hub application,* record is defined as the total number of unique product database records stored in the Product Hub application (i.e., stored in a component of Product Hub). A product database record is a unique product component or SKU stored in the MTL_SYSTEM_ITEMS table with an active or inactive status and does not include any instance items (i.e. "star items) or organization assignments of the same item.

For the purposes of the Case Hub program a record is defined as the total number of unique case database records that may be stored in the Case Hub application.. A case database record is a unique request or issue requiring investigation or service stored in S_CASE table with an active or inactive status.

For all application programs licensed as record, please see the application licensing prerequisites as specified in the Applications Licensing Table which may be accessed at _http://oracle.com/contracts for the grant and restrictions of the underlying Oracle technology.

For the Hyperion Data Relationship Management program, a record is defined as the unique occurrence of any business object or master data construct that you choose to manage within the program. Records may describe any number of enterprise information assets, commonly referred to as base members, including but not limited to cost centers, ledger accounts, legal entities, organizations, products, vendors, assets, locations, regions or employees. Additionally, a record may also be a summary object, commonly referred to as a rollup member, that either summarizes base members or describes hierarchical information associated with underlying *base members. Records represent unique occurrences* and they do not include any duplicates or shared references that may be essential for master data management purposes.

1000 Records: is defined as 1000 cleansed records (i.e., rows) that are output from a production data flow of the Data Quality for Data Integrator program.

RosettaNet Partner Interface Processes® (PIPs®): are defined as business processes between trading partners. Preconfigured system-to-system XML-based dialogs for the relevant E-Business Suite Application(s) are provided. Each preconfigured PIP includes a business document with the vocabulary and a business process with the choreography of the message dialog.

Rule Set: is defined as a data rules file containing content for a given country in order to perform data quality functions optimized for that country.

Server: is defined as the computer on which the programs are installed. A Server license allows you to use the licensed program on a single specified computer.

Service Order Line: is defined as the total number of service order entry line items *processed by the program during a 12 month period.* Multiple service order entry line items may be entered as part of an individual customer service order or quote. You may not exceed the licensed number of Service Order Lines during any 12 month period unless you acquire additional Service Order Line licenses from us.

Subscriber: is defined as (a) a working telephone number for all wireline devices; (b) a portable handset or paging device that has been activated by you for wireless communications and paging; (c) a residential drop or a nonresidential device serviced by a cable provider; or (d) a live connected utility meter . The total number of Subscribers is equal to the aggregate of all types of Subscribers. If your business is not defined in the primary definition of Subscriber above, Subscriber is defined as each U.S. $1,000 increment of your gross annual revenue as reported to the SEC in your annual report or the equivalent accounting or reporting document.

Suite: is defined as all the functional software components described in the product documentation.

Stream: is defined as a concurrent backup or restore job to a tape, disk or cloud target. For tape targets (which would be a physical tape drive (e.g., T10000D or LTO6) or a virtual tape drive), each configured tape drive within the Oracle Secure Backup domain *must be counted for determining the number of licenses required.* For disk targets, each concurrent job defined per Oracle Secure Backup disk pool must be counted for determining the number of licenses required. For Cloud based targets utilizing the Oracle Secure Backup Cloud Module, each parallel Recovery Manager (RMAN) channel must be counted for determining the number of licenses required.

Terabyte: is defined as a terabyte of computer storage space used by a storage filer equal to one trillion bytes.

Transaction: is defined as each set of interactions that is initiated by an application user recorded by Oracle Enterprise Manager to capture availability and performance metrics used in calculating service levels. For example, the following set of interactions would represent one transaction: login, search customer, log out.

Definitions (continued)

UPK Developer: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Developers may create, modify, view and interact with simulations and documentation.

UPK Employee: is defined as an active employee of yours. (note; The value of these applications is determined by the size of the active employee population and not the number of actual users. Therefore, all of your active employees must be included in your order when licensing these applications). UPK Employees may view and interact with simulations and documentation but may not create or modify simulations or documentation.

UPK User: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Users may view and interact with simulations and documentation but may not create or modify simulations or documentation.

Wireless Handset: is defined as a mobile communications device such as a mobile telephone, PDA, or paging device, that has as primary functions wireless voice communications and data services provided through a service provider.

Workstation: is defined as the client computer from which the programs are being accessed, regardless of where the program is installed.

$M Freight Under Management: is defined as one million U.S. dollars of the total transportation value of tendered orders for all shipments for a given calendar year during the term of the license. FUM shall include the combined total of actual freight purchased by you, plus the cost of freight for shipments managed by you (e.g., you are not purchasing transportation services on behalf of your client's but are providing transportation management services for your clients). Freight that is paid by a third party shall also be included in the FUM total (e.g., inbound shipments from suppliers to you with freight terms of prepaid).

$M In Revenue: is defined as one million United States dollars in all income (interest income and non interest income) before adjustments for expenses and taxes generated by You during a fiscal year.

$M In Managed Assets: is defined as one million U.S. dollars of the following total: (1) Book value of investment in capital leases, direct financing leases and other finance leases, including residuals, whether owned or managed for others, active on the program, plus (2) Book value of assets on operating leases, whether owned or managed for others, active on the program, plus (3) Book value of loans, notes, conditional sales contracts and other receivables, owned or managed for others, active on the program, plus (4) Book value of non earning assets, owned or managed for others, which were previously leased and active on the program, including assets from term terminated leases and repossessed assets, plus (5) Original cost of assets underlying leases and loans, originated and active on the program, then sold within the previous 12 months.

http://edelivery.oracle.com

GENERAL LICENSING RULES

TERM DESIGNATION

If your Program License does not specify a term, the Program license is perpetual and shall continue unless terminated as otherwise provided in the Agreement.

5 Year Term: A Program license specifying a 5 Year Term shall commence on the Effective Date of the order and shall continue for a period of 5 years. At the end of the 5 Year Term the Program license shall terminate automatically.

4 Year Term: A Program license specifying a 4 Year Term shall commence on the Effective Date of the order and shall continue for a period of 4 years. At the end of the 4 Year Term the Program license shall terminate automatically.

3 Year Term: A Program license specifying a 3 Year Term shall commence on the Effective Date of the order and shall continue for a period of 3 years. At the end of the 3 Year Term the Program license shall terminate automatically.

2 Year Term: A Program license specifying a 2 Year Term shall commence on the Effective Date of the order and shall continue for a period of 2 years. At the end of the 2 Year Term the Program license shall terminate automatically.

1 Year Term: A Program license specifying a 1 Year Term shall commence on the Effective Date of the order and shall continue for a period of 1 year. At the end of the 1 Year Term the Program license shall terminate automatically.

ORACLE-BEA GRANDFATHERED GLOBAL PRICE LIST

Oracle PartnerNetwork members with a valid distribution agreement may distribute the programs specified on the Oracle-BEA Grandfathered Global Price List to existing end users for add-on capacity only, subject to the terms of such valid distribution agreement and any restrictions set forth in the Oracle-BEA Grandfathered Price List.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited. For educational purposes only. Subject to change without notice.

ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support *website at http://www.oracle.com/Support*

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the Inflationary Adjustment Rate (IAR). For licenses with an active Contractual Cap Rate (CCR), support is increased by the lower CCR or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Customer Support

Advanced Customer Support is designed to provide an enhanced level of support to Oracle customers. Advanced Customer Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Customer Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.

Contact your local Support Sales representative for Advanced Customer Support information and pricing.

Incident Server Support Packages

Incident Server Support Packages provide incident-based web support for the following limited product sets:

- Oracle Database Server Support Package (2,300 USA (Dollar) for 10 incidents on one server):
  Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters, Advanced Compression
- *Oracle Application Server Support Package (1,100 USA (Dollar) for 10 incidents on one server):*
  Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Server Support Packages, customers receive access to Oracle*MetaLink*, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at http://www.oracle.com/support

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the *initial 5 years from the general availability date of the product*, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support
Year 7 after product release: 20% of current year's Software Update License & Support
Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

Updates, fixes and security alerts
Tax, legal and regulatory updates
Upgrade scripts
Technical support
Major product and technology releases

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

Technical Support
Access to MetaLink/Customer Connection
Major product and technology releases
Pre-existing fixes

ORACLE ON DEMAND

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.

DEFINITIONS

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Oracle Self Service Work Request option in conjunction with Oracle Enterprise Asset Management, you are required to maintain licenses for the equivalent number of Application Users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion dates for your entire employee population. Application Users licensed for Oracle Order Management are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately. For Oracle Sourcing, Oracle iSupplier Portal, and Oracle Services Procurement programs, use by your external suppliers is included with your application user licenses.

Compensated Individual: is defined as an individual whose compensation or compensation calculations are generated by the programs. The term Compensated Individual includes, but is not limited to, your employees, contractors, retirees, and any other Person.

Computer: is defined as the computer on which the programs are installed. A Computer license allows you to use the licensed program on a single specified computer.

Employee: is defined as all of your full-time, part-time, temporary employees and all of your agents, contractors and consultants. The quantity of the licenses required is determined by the number of Employees and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, all of the company's full-time, part-time, temporary employees and agents, contractors and consultants that are providing the outsourcing services for you must be counted for the purposes of determining the number of Employees.

Member Record: is defined as each unique customer loyalty program Member Record managed by the program. 100k Member Records shall mean one hundred thousand Member Records.

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name, a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Hosts, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, and, Provisioning and Patch Automation Pack, only the processors on which the program that is being managed/monitored are running are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Management Pack for Oracle E-Business Suite, Application Change Management Pack for Oracle E-Business Suite, Application Management Pack for Siebel, Application Management Pack for JD Edwards EnterpriseOne and Application Management Pack for PeopleSoft, all processors on which the middleware and/or database software that support the respective application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator and Application Adapter for Data Integration, Informatica PowerCenter and PowerConnect Adapters, Application Adapters for Data Integration, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Audit Vault Collection Agent, only the processors of the database sources from which audit data is collected must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: In-Memory Database Cache, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate, only (a) the processors running the Oracle database from which you capture data and (b) the processors running the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the processors running the Non Oracle database from which you capture data and (b) the processors running the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited. For education purposes only. Subject to change without notice.

Record: The Customer Hub B2B is a bundle that includes two components, Siebel Universal Customer Master B2B and Oracle Customer Data Hub. For the purposes of the Customer Hub B2B application, record is defined as the total number of unique customer database records stored in the Customer Hub B2B application (i.e., stored in a component of Customer Hub B2B). A customer database record is a unique business entity or company record which is stored as an account for the Siebel Universal Customer Master B2B product or as an organization for the Oracle Customer Data Hub product.

The Customer Hub B2C is a bundle that includes two components, Siebel Universal Customer Master B2C and Oracle Customer Data Hub. For the purposes of the Customer Hub B2C application, record is defined as the total number of unique customer database records stored in the Customer Hub B2C application (i.e., stored in a component of Customer Hub B2C). A customer database record is a unique consumer (i.e., physical person) record which is stored as a contact for the Siebel Universal Customer Master product or as a person for the Oracle Customer Data Hub product.
The Product Hub is a bundle that includes two components, Siebel Universal Product Master and Oracle Product Information Management Data Hub. For the purposes of the Product Hub application, record is defined as the total number of unique product database records stored in the Product Hub application (i.e., stored in a component of Product Hub). A product database record is a unique product component or SKU stored in the MTL_SYSTEM_ITEMS table with an active or inactive status and does not include any instance items (i.e. *-star items) or organization assignments of the same item.

For the purposes of the Case Hub program a record is defined as the total number of unique case database records that may be stored in the Case Hub application.. A case database record is a unique request or issue requiring investigation or service stored in S_CASE table with an active or inactive status.

For all application programs licensed as record, please see the application licensing prerequisites as specified in the Applications Licensing Table which may be accessed at _http://oracle.com/contracts for the grant and restrictions of the underlying Oracle technology.

For the Hyperion Data Relationship Management program, a record is defined as the unique occurrence of any business object or master data construct that you choose to manage within the program. Records may describe any number of enterprise information assets, commonly referred to as base members, including but not limited to cost centers, ledger accounts, legal entities, organizations, products, vendors, assets, locations, regions or employees. Additionally, a record may also be a summary object, commonly referred to as a rollup member, that either summarizes base members or describes hierarchical information associated with underlying base members. Records represent unique occurrences and they do not include any duplicates or shared references that may be essential for master data management purposes.

UPK Developer: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Developers may create, modify, view and interact with simulations and documentation.

UPK Module: is defined as the functional software component described in the program documentation.

$B in Total Assets: is defined as one billion US dollars (insert equivalent amount of local currency in these parens using the corporate treasury exchange rate found on esource. Check http://esource.oraclecorp.com License>Pricing>Price List>Exchange Rates) of your latest published or internally available "Total Asset Value" defined per GAAP policies as disclosed in your annual report and/or regulatory filings.

ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at http://www.oracle.com/Support

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the Inflationary Adjustment Rate (IAR). For licenses with an active Contractual Cap Rate (CCR), support is increased by the lower of the CCR or the IAR. Oracle uses two different renewal adjustments: the Inflationary Adjustment Rate (IAR) and the Local Renewal Adjustment (LRA). Support for all licenses is adjusted by the greater of the LRA or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Customer Support

Advanced Customer Support is designed to provide an enhanced level of support to Oracle customers. Advanced Customer Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Customer Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.

Contact your local Support Sales representative for Advanced Customer Support information and pricing.

Incident Server Support Packages

Incident Server Support Packages provide incident-based web support for the following limited product sets:

Oracle Database Server Support Package (2,300 USA (Dollar) for 10 incidents on one server):

Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters

Oracle Application Server Support Package (1,150 USA (Dollar) for 10 incidents on one server):

Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Server Support Packages, customers receive access to OracleMetaLink, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at http://www.oracle.com/support

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the initial 5 years from the general availability date of the product, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support
Year 7 after product release: 20% of current year's Software Update License & Support
Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

Updates, fixes and security alerts
Tax, legal and regulatory updates
Upgrade scripts
Technical support
Major product and technology releases

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

Technical Support
Access to MetaLink/Customer Connection
Major product and technology releases
Pre-existing fixes

ORACLE ON DEMAND

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.

(up to 4K employees and up to $1 billion in revenue)	17,500	3,850.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
User Productivity Kit Content Materials for Master Data Management				
Oracle E-Business Suite UPK for Oracle Site Hub				
(up to 4K employees and up to $1 billion in revenue)	8,800	1,936.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	17,600	3,872.00	UPK Module	not applicable
Oracle E-Business Suite UPK for Oracle Product Hub				
(up to 4K employees and up to $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	70,000	15,400.00	UPK Module	not applicable
User Productivity Kit Content Materials for Public Sector/University				
Oracle E-Business Suite UPK for Oracle Contract Lifecycle Management for Public Sector for Oracle Purchasing				
(up to 4K employees and up to $1 billion in revenue)	17,500	3,850.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
Oracle E-Business Suite UPK for Oracle Contract Lifecycle Management for Public Sector for Oracle Sourcing				
(up to 4K employees and up to $1 billion in revenue)	17,500	3,850.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	35,000	7,700.00	UPK Module	not applicable
Oracle E-Business Suite UPK for Oracle Contract Lifecycle Management for Public Sector for Oracle iSupplier Portal				
(up to 4K employees and up to $1 billion in revenue)	8,800	1,936.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	17,600	3,872.00	UPK Module	not applicable
Oracle E-Business Suite UPK for Oracle Contract Lifecycle Management for Public Sector for Oracle Procurement Contracts				
(up to 4K employees and up to $1 billion in revenue)	8,800	1,936.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	17,600	3,872.00	UPK Module	not applicable
Oracle E-Business Suite UPK for Oracle Contract Lifecycle Management for Public Sector for Oracle iProcurement				
(up to 4K employees and up to $1 billion in revenue)	8,800	1,936.00	UPK Module	not applicable
(over 4K employees and/or over $1 billion in revenue)	17,600	3,872.00	UPK Module	not applicable

Oracle Education Subscription				
iLearning Subscription*	65	Hosted Named User	Yearly	$5,000.00

* At the minimum, the customer must license a number of Named Users and Months that are equal to 5,000 USA (Dollar).

Term licensing available for all Oracle Products. The list price for a term license is based on a specific percentage of the perpetual license price. Annual terms licenses are available from 1 to 5 years: 1 year - 20% of list; 2 year - 35% of list, 3 year - 50% of list, 4 year 60% of list and 5 year 70% of list.

The list support price for term licenses is 22% of the list perpetual license fee, as listed in the price list. The term license percentages are not applied to the list support price.

DEFINITIONS

Named User Plus: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. A non human operated device will be counted as a named user plus in addition to all individuals authorized to use the programs, if such devices can access the programs. If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor minimums are maintained for the programs contained in the user minimum table in the licensing rules section; the minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, only the users of the program that is being managed/monitored are counted for the purpose of determining the number of licenses required.

With respect to the following programs: Load Testing, Load Testing Developer Edition, Load Testing Accelerator for Web Services, Load Testing Accelerator for Oracle Database, and Load Testing Suite for Oracle Applications, each emulated human user and non human operated device shall be considered as a virtual user and shall be counted for the purposes of determining the number of Named User Plus licenses required.

For the purposes of the following programs: Data Masking and Subsetting Pack, and Data Masking and Subsetting Pack for Non-Oracle Databases only the users of the database servers where masked data or data subsets originates and the users of the database servers performing masking, or subsetting operations (via GUI or command line) must be licensed.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, Real User Experience Insight, Application Replay Pack, all users of the respective managed application program must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate and Oracle GoldenGate for Oracle Applications, only (a) the users of the Oracle database from which you capture data and (b) the users of the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database only (a) the users of the Non Oracle database from which you capture data and (b) the users of the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, and Application Adapters for Data Integrations, the users that are running or accessing the data transformation processes must be counted for the purposes of determining the number of licenses required.

For the purposes of the following programs: Oracle Mobile Suite Client Runtime and Mobile Application Framework, only the end users of each Application Developed must be counted for the purpose of determining the number of licenses required, regardless of the choice of the mobile application development tool or the framework used to build the Application Developed.

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name (with the exception of Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, only the processors on which the program that is being managed/monitored are running are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Masking and Subsetting Pack and, Data Masking and Subsetting Pack for non-Oracle Databases all database servers where masked data or data subsets originate and database servers performing masking, or subsetting operations (via GUI or command line) must be licensed.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, all processors on which the middleware and/or database software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Replay Pack, Real User Experience Insight, all processors on which the middleware software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Informatica PowerCenter and PowerConnect Adapters, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, Data Integrator for Oracle Business Intelligence, and Application Adapters for Data Integration, only the processor(s) where the data transformation processes are executed must be counted for the purposes of determining the number of licenses required.

For the purposes of the following program: TimesTen Application-Tier Database Cache, and TimesTen Application-Tier Database Cache for Oracle Applications, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate and Oracle GoldenGate for Oracle Applications, only (a) the processors running the Oracle database from which you capture data and (b) the processors running the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.1

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the processors running the Non Oracle database from which you capture data and (b) the processors running the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.2

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.3

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.4

For the purpose of the following programs: Oracle Golden Gate Application Adapters, only the processors running the source Oracle or non Oracle database(s) from which you capture data must be counted for the purpose of determining the number of licenses required. In the instance of multiple source databases, all processors for all sources must be counted.5

For the purposes of the following program: Audit Vault and Database Firewall, only the processors of the sources which are protected, monitored or audited must be counted for the purpose of determining the number of licenses required.6

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Oracle Self Service Work Request option in conjunction with Oracle Enterprise Asset Management, you are required to maintain licenses for the equivalent number of Application Users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion date for your entire employee population. Applications Users licensed for Oracle Order Management are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately. For Oracle Sourcing, Oracle iSupplier Portal, and Oracle Services Procurement programs, use by your external suppliers is included with your application user licenses.

Application Read-Only User: is defined as an individual authorized by you to run only queries or reports against the application program for which you have also acquired non read-only licenses, regardless of whether the individual is actively using the programs at any given time.

Collaboration Program User: is defined as an individual authorized by you to use the programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. For the purposes of counting and licensing the number of Real-Time Collaboration users, a Collaboration Program User within your company is defined as a user able to initiate, or host, a web conference and also participate in a web conference; all participants in the web conference external to your company and attending a web conference are not required to be licensed.

Annual Transaction Volume: is defined as the *U.S. dollar denominated* total value of all purchase orders transacted and all auctions conducted through the Oracle Exchange Platform by you and others during the applicable year of the Oracle Exchange Platform license regardless of whether any such auction results in a purchase order, *provided that an auction* resulting in a purchase order shall only be counted against the Annual Transaction Volume once.

Case Report Form (CRF) Page: is defined as the "electronic equivalent" of what would be the total number of physical paper pages initiated remotely by the Program (measured explicitly in the Program as Received Data Collection Instruments) during a 12-month period. You may not exceed the licensed number of CRF pages during any 12-month period unless you acquire additional CRF pages licenses from us.

Compensated Individual: is defined as an individual whose compensation or compensation calculations are generated by the programs. The term Compensated Individual includes, but is not limited to, your employees, contractors, retirees, and any other Person.

Computer: is defined as the computer on which the programs are installed. A Computer license allows you to use the licensed program on a single specified computer.

Connector: is defined as each connector connecting the software product with an external product. A unique connector is required for each distinct product with which the software product is required to interface.

Warehouse Builder Connector: is defined as a software product that connects an Oracle database where the Oracle Warehouse Builder code is deployed, to an external product (e.g., SAP). A unique connector is required for each distinct external product for which the Oracle database is required to interface.

Cost of Goods Sold: is defined as the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to you then Cost of Goods Sold shall be equal to 75% of total company revenue.

Customer: is defined as the customer entity specified on the ordering document. The programs may not be used or accessed for the business operations of any third party, including but not limited to your customers, partners, or your affiliates. There is no limitation on the number of physical servers on which such programs may be copied, installed and used.

Electronic Order Line: is defined as the total number of distinct electronic order lines entered electronically into the Oracle Order Management application from any source (not manually entered by licensed Order Management Users, Professional Users 2003, or Professional Users 2003 External) during a 12 month period. This includes order lines originating as external EDI/XML transactions and/or sourced from other Oracle and non-Oracle applications. You may not exceed the licensed number of order lines during any 12 month period.

Employee: is defined as (i) all of your full-time, part-time, temporary employees, and (ii) all of your agents, contractors and consultants who have access to, use, or are tracked by the Oracle Programs. The quantity of the licenses required is determined by the number of Employees and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, the following must be counted for purposes of determining the number of Employees: all of the company's full-time employees, part-time employees, temporary employees, agents, contractors and consultants that (i) are providing the outsourcing services and (ii) have access to, use, or are tracked by the programs.

Employee User: is defined as an individual authorized by you to use the application programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time.

Entry: is defined as a unique item (e.g., object, person, entity or item of information) stored within the programs. Replicated entries stored within the program on multiple servers are counted as a single entry.

Expense Report: is defined as the total number of expense reports processed by the iExpenses during a 12 month period. You may not exceed the licensed number of expense reports during any 12 month period.

Field Technician: is defined as an engineer, technician, representative, or other person who is dispatched by you, including the dispatchers, to the field using the programs.

FTE Student: is defined as any full-time student enrolled in your institution and any part-time student enrolled in your institution counts as 25% of an FTE Student. The definition of "full-time" and "part-time" is based on your policies for student classification. If the number of FTE Students is a fraction, that number will be rounded to the nearest whole number for purposes of license quantity requirements.

Hosted Named User: is defined as an individual authorized by you to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

Invoice Line: is defined as the total number of invoice line items processed by the program during a 12 month period. You may not exceed the licensed number of Invoice Lines during any 12 month period unless you acquire additional Invoice Line licenses from us.

Module: is defined as each production database running the programs.

Monitored User: is defined as an individual who is monitored by an Analytics program which is installed on a single server or multiple servers, regardless of whether the individual is *actively being monitored at any* given time.

Individual users who are licensed for an Analytics program by either Named User Plus or Application User may not be licensed by Monitored User.

For the purpose of the Usage Accelerator Analytics program, every user of your licensed CRM Sales application program must be licensed.

For the purpose of the Human Resources Compensation Analytics program, all of your employees must be licensed.

For the purpose of the following Oracle Governance, Risk, and Compliance applications: Advanced Controls for E-Business Suite, Application Access Controls Governor, Application Access Controls for E-Business Suite, Configuration Controls Governor, Configuration Controls for E-Business Suite, Transaction Controls Governor, and Preventive Controls Governor, the number of Monitored Users is equal to the total number of unique E-Business Suite users (individuals) being monitored by the program(s), as created/defined in the User Administration function of E-Business Suite. Users of iProcurement and/or Self-Service Human Resources are excluded.

For the purpose of the following PeopleSoft Enterprise Governance, Risk, and Compliance applications: Advanced Controls for PeopleSoft Enterprise, Application Access Controls Governor, Application Access Controls for PeopleSoft Enterprise, Configuration Controls Governor, and Configuration Controls for PeopleSoft Enterprise, the number of Monitored Users is equal to the total number of unique PeopleSoft Enterprise (or any other custom applications / programs) users (individuals) that the program monitors.

Network Device: is defined as the hardware and/or software whose primary purpose is to route and control communications between computers or computer networks. Examples of network devices include but are not li, routers, firewalls and network load balancers.

Non Employee User - External: is defined as an individual, who is not your employee, contractor or outsourcer, authorized by you to use the *application programs which are* installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time.

Partner Organization: is defined as an external third party business entity that provides value-added services in marketing and selling your products. Depending upon the type of industry, partner organizations play different roles and are recognized by different names such as reseller, distributor, agent, dealer or broker.

Person: is defined as your employee or contractor who is actively working on behalf of your organization or a former employee who has one or more benefit plans managed by the system or continues to be paid through the system. For Project Resource Management, a person is defined as an individual who is scheduled on a project. The total number of licenses needed is to be based on the peak number of part-time and full-time people whose records are recorded in the system.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited. For educational purposes only. Subject to change without notice.

DEFINITIONS (continued)

Ported Number: is defined as the telephone number that end users retain as they change from one service provider to another. This telephone number originally resides on a telephone switch and is moved into the responsibility of another telephone switch.

Record: The Customer Hub B2B is a bundle that includes two components, Siebel Universal Customer Master B2B and Oracle Customer Data Hub. For the purposes of the Customer Hub B2B application, record is defined as the total number of unique customer database records stored in the Customer Hub B2B application (i.e., stored in a component of Customer Hub B2B). A customer database record is a unique business entity or company record which is stored as an account for the Siebel Universal Customer Master B2B product or as an organization for the Oracle Customer Data Hub product.

The Customer Hub B2C is a bundle that includes two components, Siebel Universal Customer Master B2C and Oracle Customer Data Hub. For the purposes of the Customer Hub B2C application, record is defined as the total number of unique customer database records stored in the Customer Hub B2C application (i.e., stored in a component of Customer Hub B2C). A customer database record is a unique consumer (i.e., physical person) record which is stored as a contact for the Siebel Universal Customer Master product or as a person for the Oracle Customer Data Hub product.

The Product Hub is a bundle that includes two components, Siebel Universal Product Master and Oracle Product Information Management Data Hub. For the purposes of the Product Hub application, record is defined as the total number of unique product database records stored in the Product Hub application (i.e., stored in a component of Product Hub). A product database record is a unique product component or SKU stored in the MTL_SYSTEM_ITEMS table with an active or inactive status and does not include any instance items (i.e. *-star items) or organization assignments of the same item.

For the purposes of the Case Hub program a record is defined as the total number of unique case database records that may be stored in the Case Hub application.. A case database record is a unique request or issue requiring investigation or service stored in S_CASE table with an active or inactive status.

For purposes of the Site Hub application, a record will be defined as the total number of unique site database records stored in the RRS_SITES_B table of the Site Hub application. A site database record is a unique site (e.g., an asset, a building, part of a building, such as a store or a franchise within the store, an ATM, etc.) which is stored as a site in the Oracle Site Hub product.

For the purpose of Oracle Supplier Lifecycle Management and Oracle Supplier Hub applications, a record is a unique business entity or company record, which is stored as Supplier in AP_SUPPLIERS table of the Oracle Supplier Lifecycle Management and Oracle Supplier Hub products.

For all programs licensed as record, please see the application licensing prerequisites as specified in the Applications Licensing Table which may be accessed at http://oracle.com/contracts for the grant and restrictions of the underlying Oracle technology.

RosettaNet Partner Interface Processes® (PIPs®): are defined as business processes between trading partners. Preconfigured system-to-system XML-based dialogs for the relevant E-Business Suite Application(s) are provided. Each preconfigured PIP includes a business document with the vocabulary and a business process with the choreography of the message dialog.

Service Order Line: is defined as the total number of service order entry line items processed by the program during a 12 month period. Multiple service order entry line items may be entered as part of an individual customer service order or quote. You may not exceed the licensed number of Service Order Lines during any 12 month period unless you acquire additional Service Order Line licenses from us.

Subscriber: is defined as (a) a working telephone number for all wireline devices; (b) a portable handset or paging device that has been activated by you for wireless communications and paging; (c) a residential drop or a nonresidential device serviced by a cable provider; or (d) a live connected utility meter . The total number of Subscribers is equal to the aggregate of all types of Subscribers. If your business is not defined in the primary definition of Subscriber above, Subscriber is defined as each U.S. $1,000 increment of your gross annual revenue as reported to the SEC in your annual report or the equivalent accounting or reporting document.

Suite: is defined as all the functional software components described in the product documentation.

Tape Drive: Tape drives are defined as mechanical devices used to sequentially write, read and restore data from magnetic tape media. Typically used, but not limited to, data protection and archival purposes, tape drives are deployed either as a standalone unit(s) or housed within a robotic tape library. Examples of tape drive include but are not limited to, Linear Tape Open (LTO), Digital Linear Tape (DLT), Advanced Intelligent Type (AIT), Quarter-Inch Cartridge (QIC), Digital Audio Tape (DAT), and 8mm Helical Scan.

Terabyte: is defined as a terabyte of computer storage space used by a storage filer equal to one trillion bytes.

Trainee: is defined as an employee, contractor, student or other person who is being recorded by the program.

UPK Developer: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Developers may create, modify, view and interact with simulations and documentation.

UPK Module: is defined as the functional software component described in the program documentation.

Workstation: is defined as the client computer from which the programs are being accessed, regardless of where the program is installed.

$B in Total Assets: is defined as one billion US dollars (insert equivalent amount of local currency in these parens using the corporate treasury exchange rate found on eSource. Check http://esource.oraclecorp.com License > Pricing > Price List > Exchange Rates) of your latest published or internally available "Total Asset Value" defined per GAAP policies as disclosed in your annual report and/or regulatory filings.

$M Freight Under Management: is defined as one million U.S. dollars of the total transportation value of tendered orders for all shipments for a given calendar year during the term of the license. FUM shall include the combined total of actual freight purchased by you, plus the cost of freight for shipments managed by you (e.g., you are not purchasing transportation services on behalf of your clients but are providing transportation management services for your clients). Freight that is paid by a third party shall also be included in the FUM total (e.g., inbound shipments from suppliers to you with freight terms of prepaid).

$M in Revenue: is defined as one million United States dollars in all income (interest income and non interest income) before adjustments for expenses and taxes generated by You during a fiscal year.

$M in Managed Assets: is defined as one million U.S. dollars of the following total: (1) Book value of investment in capital leases, direct financing leases and other finance leases, including residuals, whether owned or managed for others, active on the program, plus (2) Book value of assets on operating leases, whether owned or managed for others, active on the program, plus (3) Book value of loans, notes, conditional sales contracts and other receivables, owned or managed for others, active on the program, plus (4) Book value of non earning assets, owned or managed for others, which were previously leased and active on the program, including assets from term terminated leases and repossessed assets, plus (5) Original cost of assets underlying leases and loans, originated and active on the program, then sold within the previous 12 months.

$M Revenue Under Management: is defined as one million U.S. dollars in all income (interest income and non interest income) before adjustments for expenses and taxes generated by you during a fiscal year for the product lines for which the programs are used.

ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at http://www.oracle.com/Support

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the Inflationary Adjustment Rate (IAR). For licenses with an active Contractual Cap Rate (CCR), support is increased by the lower CCR or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Customer Support

Advanced Customer Support is designed to provide an enhanced level of support to Oracle customers. Advanced Customer Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Customer Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.

Contact your local Support Sales representative for Advanced Customer Support information and pricing.

Incident Server Support Packages

Incident Server Support Packages provide incident-based web support for the following limited product sets:

- Oracle Database Server Support Package (2,300 USA (Dollar) for 10 incidents on one server):
  Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters
- Oracle Application Server Support Package (1,150 USA (Dollar) for 10 incidents on one server):
  Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Server Support Packages, customers receive access to Oracle*MetaLink*, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at http://www.oracle.com/support

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the initial 5 years from the general availability date of the product, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support
Year 7 after product release: 20% of current year's Software Update License & Support
Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

Updates, fixes and security alerts
Tax, legal and regulatory updates
Upgrade scripts
Technical support
Major product and technology releases

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

Technical Support
Access to MetaLink/Customer Connection
Major product and technology releases
Pre-existing fixes

North American Payroll Tax Updates

North American Payroll Tax Updates is available for programs in the Sustaining Support phase of Oracle's product support lifecycle. Customers who acquire North American Payroll Tax Updates will receive a tax year of tax updates for Oracle payroll applications. North American Payroll Tax Updates is available for $50,000 per annum. This service does not attract the eBusiness Discount, and will not be pro-rated to partial years.

In order to acquire North American Payroll Tax Updates, programs must be currently supported with Software Update License & Support.

North American Payroll Tax Updates is not available in all countries or for all programs. Please contact your Support Sales Representative for service availability.

ORACLE ON-DEMAND

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.

DEFINITIONS

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time.

Employee: is defined as (i) all of your full-time, part-time, temporary employees, and (ii) all of your agents, contractors and consultants who have access to, use, or are tracked by the programs. The quantity of the licenses required is determined by the number of Employees and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, the following must be counted for purposes of determining the number of Employees: all of the company's full-time employees, part-time employees, temporary employees, agents, contractors and consultants that (i) are providing the outsourcing services and *(ii) have access to, use, or are tracked by the programs.*

Expense Report: is defined as the total number of expense reports by Expenses during a 12 month period. You may not exceed the licensed number of expense reports during any 12 month period.

FTE Student: is defined as any full-time student enrolled in your institution and any part-time student enrolled in your institution counts as 25% of an FTE Student. The definition of "full-time" and "part-time" is based on your policies for student classification. If the number of FTE Students is a fraction, *that number will be rounded to the nearest* whole number for purposes of license quantity requirements.

Monitored User: is defined as an individual who is monitored by an Analytics program which is installed on a single server or multiple servers, regardless of whether the individual is actively being monitored at any given time.

Individual users who are licensed for an Analytics program by either Named User Plus or Application User may not be licensed by Monitored User.

For the purpose of the Usage Accelerator Analytics program, every user of your licensed CRM Sales application program must be licensed.

For the purpose of the Human Resources Compensation Analytics program, all of your employees must be licensed.

For the purpose of the following Oracle Governance, Risk, and Compliance applications: Advanced Controls for eBusiness Suite, Application Access Controls Governor, Application Access Controls for E-Business Suite, Configuration Controls Governor, Configuration Controls for E-Business Suite, Transaction Controls Governor, and Preventive Controls Governor, the number of Monitored Users is equal to the total number of unique E-Business Suite users (individuals) being monitored by the program(s), as created/defined in the User Administration function of E-Business Suite. Users of iProcurement and/or Self-Service Human Resources are excluded.

For the purpose of the following PeopleSoft Enterprise Governance, Risk, and Compliance applications: Advanced Controls for PeopleSoft Enterprise, Application Access Controls Governor, Application Access Controls for PeopleSoft Enterprise, Configuration Controls Governor, and Configuration Controls for PeopleSoft Enterprise, the number of Monitored Users is equal to the total number of unique PeopleSoft Enterprise (or any other custom applications/programs) users (individuals) that the program monitors.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited. For educational purposes only. Subject to change without notice.

Named User Plus: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. A non human operated device will be counted as a named user plus in addition to all individuals authorized to use the programs, if such devices can access the programs. If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor minimums are maintained for the programs contained in the user minimum table in the licensing rules section; the minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, only the users of the program that is being managed/monitored are counted for the purpose of determining the number of licenses required.

With respect to the following programs: Load Testing, Load Testing Developer Edition, Load Testing Accelerator for Web Services, Load Testing Accelerator for Oracle Database, and Load Testing Suite for Oracle Applications, each emulated human user and non human operated device shall be considered as a virtual user and shall be counted for the purposes of determining the number of Named User Plus licenses required.

For the purposes of the following programs: Data Masking and Subsetting Pack, and Data Masking and Subsetting Pack for Non-Oracle Databases only the users of the database servers where masked data or data subsets originates and the users of the database servers performing masking, or subsetting operations (via GUI or command line) must be licensed.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, Real User Experience Insight, Application Replay Pack, all users of the respective managed application program must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate and Oracle GoldenGate for Oracle Applications, only (a) the users of the Oracle database from which you capture data and (b) the users of the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the users of the Non Oracle database from which you capture data and (b) the users of the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, and Application Adapters for Data Integrations, the users that are running or accessing the data transformation processes must be counted for the purposes of determining the number of licenses required.

For the purposes of the following programs: Oracle Mobile Suite Client Runtime and Mobile Application Framework, only the end users of each Application Developed must be counted for the purposes of determining the number of licenses required, regardless of the choice of the mobile application development tool or the framework used to build the Application Developed.

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name (with the exception of Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, only the processors on which the program that is being managed/monitored are running are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Masking and Subsetting Pack and, Data Masking and Subsetting Pack for non-Oracle Databases all database servers where masked data or data subsets originate and database servers performing masking, or subsetting operations (via GUI or command line) must be licensed.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, all processors on which the middleware and/or database software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Replay Pack, Real User Experience Insight, all processors on which the middleware software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Informatica PowerCenter and PowerConnect Adapters, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, Data Integrator for Oracle Business Intelligence, and Application Adapters for Data Integration, only the processor(s) where the data transformation processes are executed must be counted for the purposes of determining the number of licenses required.

For the purposes of the following program: TimesTen Application-Tier Database Cache, and TimesTen Application-Tier Database Cache for Oracle Applications, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate and Oracle GoldenGate for Oracle Applications, only (a) the processors running the Oracle database from which you capture data and (b) the processors running the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the processors running the Non Oracle database from which you capture data and (b) the processors running the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purpose of the following programs: Oracle Golden Gate Application Adapters, only the processors running the source Oracle or non Oracle database(s) from which you capture data must be counted for the purpose of determining the number of licenses required. In the instance of multiple source databases, all processors for all sources must be counted.

For the purposes of the following program: Audit Vault and Database Firewall, only the processors of the sources which are protected, monitored or audited must be counted for the purpose of determining the number of licenses required.

UPK Developer: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Developers may create, modify, view and interact with simulations and documentation.

UPK Module: is defined as the functional software component described in the product documentation.

ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at http://www.oracle.com/Support

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the Inflationary Adjustment Rate (IAR). For licenses with an active Contractual Cap Rate (CCR), support is increased by the lower of the CCR or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Customer Support

Advanced Customer Support is designed to provide an enhanced level of support to Oracle customers. Advanced Customer Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Customer Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.

Contact your local Support Sales representative for Advanced Customer Support information and pricing.

Incident Server Support Packages

Incident Server Support Packages provide incident-based web support for the following limited product sets:

- Oracle Database Server Support Package (2,300 USA (Dollar) for 10 incidents on one server):
  Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters, Advanced Compression
- Oracle Application Server Support Package (1,150 USA (Dollar) for 10 incidents on one server):
  Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Server Support Packages, customers receive access to Oracle*MetaLink*, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at http://www.oracle.com/support

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the initial 5 years from the general availability date of the product, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support
Year 7 after product release: 20% of current year's Software Update License & Support
Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

Updates, fixes and security alerts
Tax, legal and regulatory updates
Upgrade scripts
Technical support
Major product and technology releases

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

Technical Support
Access to MetaLink/Customer Connection
Major product and technology releases
Pre-existing fixes

ORACLE ON DEMAND

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.

DEFINITIONS

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time.

$M Cost of Goods Sold: is defined as one million U.S. dollars in the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to you then Cost of Goods Sold shall be equal to 75% of total company revenue.

Employee: is defined as (i) all of your full-time, part-time, temporary employees, and (ii) all of your agents, contractors and consultants who have access to, use, or are tracked by the programs. The quantity of the licenses required is determined by the number of Employees and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, the following must be counted for purposes of determining the number of Employees: all of the company's full-time employees, part-time employees, temporary employees, agents, contractors and consultants that (i) are providing the outsourcing services and (ii) have access to, use, or are tracked by the programs.

Expense Report: is defined as the total number of expense reports processed by Expense Management during a 12 month period. You may not exceed the licensed number of expense reports during a 12 month period.

Named User Plus: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. A non human operated device will be counted as a named user plus in addition to all individuals authorized to use the programs, if such devices can access the programs. If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor minimums are maintained for the programs contained in the user minimum table in the licensing rules section; the minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, *Management Pack for WebCenter Suite*, only the users of the program that is being managed/monitored are counted for the purpose of determining the number of licenses required.

With respect to the following programs: Load Testing, Load Testing Developer Edition, Load Testing Accelerator for Web Services, Load Testing Accelerator for Oracle Database, and Load Testing Suite for Oracle Applications, each emulated human user and non human operated device shall be considered as a virtual user and shall be counted for the purposes of determining the number of Named User Plus licenses required.

For the purposes of the following programs: Data Masking and Subsetting Pack, and Data Masking and Subsetting Pack for Non-Oracle Databases only the users of the database servers where masked data or data subsets originates and the users of the database servers performing masking, or subsetting operations (via GUI or command line) must be licensed.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management *Suite for PeopleSoft*, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, Real User Experience Insight, Application Replay Pack, all users of the respective managed application program must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate and Oracle GoldenGate for Oracle Applications, only (a) the users of the Oracle database from which you capture data and (b) the users of the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the users of the Non Oracle database from which you capture data and (b) the users of the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, and Application Adapters for Data Integrations, the users that are running or accessing the data transformation processes must be counted for the purposes of determining the number of licenses required.

For the purposes of the following programs: Oracle Mobile Suite Client Runtime and Mobile Application Framework, only the end users of each Application Developed must be counted for the purposes of determining the number of licenses required, regardless of the choice of the mobile application development tool or the framework used to *build* the Application Developed.

DEFINITIONS continued

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name (with the exception of Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, only the processors on which the program that is being managed/monitored are running are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Masking and Subsetting Pack and, Data Masking and Subsetting Pack for non-Oracle Databases all database servers where masked data or data subsets originate and database servers performing masking, or subsetting operations (via GUI or command line) must be licensed.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, all processors on which the middleware and/or database software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Replay Pack, Real User Experience Insight, all processors on which the middleware software that support the respective managed application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Informatica PowerCenter and PowerConnect Adapters, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.
For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator *Enterprise* Edition for Oracle Applications, Data Integrator for Oracle Business Intelligence, and Application Adapters for Data Integration, only the processor(s) where the data transformation processes are executed must be *counted* for the purposes of determining the number of licenses required.

For the purposes of the following program: TimesTen Application-Tier Database Cache, and TimesTen Application-Tier Database Cache for Oracle Applications, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate and Oracle GoldenGate for Oracle Applications, only (a) the processors running the Oracle database from which you capture data and (b) the processors running the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the processors running the Non Oracle database from which you capture data and (b) the processors running the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purpose of the following programs: Oracle Golden Gate Application Adapters, only the processors running the source Oracle or non Oracle database(s) from which you capture data must be counted for the purpose of determining the number of licenses required. In the instance of multiple source databases, all processors for all sources must be counted.

For the purposes of the following program: Audit Vault and Database Firewall, only the processors of the sources which are protected, monitored or audited must be counted for the purpose of determining the number of licenses required.

$M Revenue Under Management: is defined as one million U.S. dollars in all income (interest income and non interest income) before adjustments for expenses and taxes generated by you during a fiscal year for the product lines for which the programs are used.

UPK Developer: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Developers may create, modify, view and interact with simulations and documentation.

UPK Module: is defined as the functional software component described in the product documentation.

For a complete list of products offered by Oracle Corporation, please visit the Oracle Software Delivery cloud site:

ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at http://www.oracle.com/Support

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the Inflationary Adjustment Rate (IAR). For licenses with an active Contractual Cap Rate (CCR), support is increased by the lower of the CCR or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Customer Support

Advanced Customer Support is designed to provide an enhanced level of support to Oracle customers. Advanced Customer Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Customer Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.

Contact your local Support Sales representative for Advanced Customer Support information and pricing.

Incident Server Support Packages

Incident Server Support Packages provide incident-based web support for the following limited product sets:

- Oracle Database Server Support Package (2,300 USA (Dollar) for 10 incidents on one server):
  Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters, Advanced Compression
- Oracle Application Server Support Package (1,150 USA (Dollar) for 10 incidents on one server):
  Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Server Support Packages, customers receive access to Oracle*MetaLink*, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at http://www.oracle.com/support

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the initial 5 years from the general availability date of the product, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support
Year 7 after product release: 20% of current year's Software Update License & Support
Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

Updates, fixes and security alerts
Tax, legal and regulatory updates
Upgrade scripts
Technical support
Major product and technology releases

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

Technical Support
Access to MetaLink/Customer Connection
Major product and technology releases
Pre-existing fixes

ORACLE ON DEMAND

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.

Oracle Global Price List

Software Investment Guide - Siebel CRM Pricing

March 12, 2015

Prices in USA (Dollar)

Siebel Pricing and Quoting Notes

- For each Employee user, Siebel modules must be licensed at the same level or less then the Siebel base application. For Example, if the customer licensed 100 Siebel CRM Base, then Siebel Contracts must have a quantity of 100 or less--not more then 100. This rule applies only to modules using the Application User metric.
- Technology products: There are NO technology products included with Siebel licenses. Any required technology, Oracle or otherwise, must be licensed separately.

Siebel CRM Applications

Siebel CRM Applications Pricing
Siebel Base Applications

Every Siebel customer must license, at a minimum, one Siebel CRM Base Application. Typically, each employee user of Siebel applications requires a base. Start by selecting the Siebel CRM Base for each Siebel user. All users requiring a base must license the Siebel CRM Base. Then, if the customer requires industry specific functionality, select the industry base option(s) that most appropriately meet customer needs--in addition to the CRM Base. Note that if the customer requires an industry solution, all users must have an industry base option and the Siebel CRM Base (exceptions require HQAPP approval).

Oracle Secure Enterprise Search (SES) is now bundled as part of the Siebel CRM Base as a search solution for Siebel customers. Customers can use SES as an embedded, limited use SES license--for use only with the Siebel product suite. Customers with previous bases must first migrate to Siebel CRM Base.

	License Price	Software Update License & Support	Licensing Metric	Minimum
Siebel Base Applications				
Siebel CRM Base	3,750	825.00	Application User	
Siebel Communications, Media and Energy CRM Base Option	400	88.00	Application User	
Siebel Financial Services CRM Base Option	400	88.00	Application User

Siebel CRM Applications Pricing
Siebel CRM - Employee Applications

All modules, except those in the "Applications Not Requiring CRM Base" section, require a Siebel CRM Base--see the price list supplement for detailed requirements on each module. All customers can add CRM modules to their solution--including Industry users. There are some modules that have an industry specific version. When a customer licenses an industry base option check that industry module section for a replacement. The industry specific module should be quoted in place of the CRM version. (e.g. if the customer licenses the Communications, Media & Energy base option and they want contracts functionality, they should license Siebel CME Contracts not Siebel Contracts.

Siebel CRM Applications Pricing
Siebel CRM Web Channel

Siebel CRM Web Channel is intended for customers that have an existing Siebel implementation and have a functionality hole or two they need to fill that cannot easily be filled any other way. Siebel CRM Web Channel should never be used where standard Siebel licensing is available.

Siebel CRM Web Channel requires, at a minimum, the customer license one User of Siebel Tools and 100 user of Siebel CRM Base or equivalent.

A licensed user of a Siebel CRM Base does not require additional Web Channel licensing as the Web Channel deployment option is included in their license. Siebel CRM Web Channel pricing is available for Siebel CRM objects as well as Siebel Industry objects and all quote the same set of products.

Siebel CRM Web Channel pricing is designed for Siebel customers who desire to extend the usefulness of their Siebel deployment by providing additional users access to Siebel Business Objects with defined methods, events, and data and reuse Siebel Business Objects and project Siebel Data through an independent User Interface via:

- Built-in scripting of Siebel objects using Siebel VB, Siebel eScript, and Browser Script
- Component Object Model (COM) using the Siebel Web Client Automation Server, Siebel COM Data Control, Siebel COM Data Server, and Siebel Mobile/Dedicated Web Client Automation Server
- CORBA using Siebel CORBA Object Manager
- Java or J2EE using Siebel Java Data Bean, JMS or JCA
- HTTP-based Integration Objects
- Transport technologies such as: MQ Series, MSMQ, BizTalk, OLE DB

Siebel CRM Web Channel user capabilities include:

- Full access to the data model corresponding to the business objects licensed
- Reduced access to specialized application behavior, especially within specialized applet classes
- Ability to customize and extend application behavior via Siebel business services and scripting

	License Price	Software Update License & Support	Licensing Metric	Minimum
Siebel CRM Web Channel				
Siebel CRM Web Channel for Employees- up to 15 Objects	700	154.00	Application User	
Siebel CRM Web Channel for Customers- up to 15 Objects	69,000	15,180.00	Processor

Oracle Knowledge Applications

Oracle Knowledge Notes

- Oracle Knowledge Standard Edition offerings are limited to 10 moderators in the community forums and access by 250 partner organizations.
- Oracle Knowledge Standard Edition offerings do not include Industry ontology's (pre-packaged dictionaries with common industry terminology) and Guided Flows (decision tree style question-answer diagnostics).
- Oracle Knowledge Enterprise Edition customers receive everything in the Standard Edition version plus unlimited forum moderators, unlimited partner organization access, as well as industry ontology's and Guided Flows.
- Oracle Knowledge for Web Self-Service (Standard and Enterprise) include all Web Self-Service interfaces owned by the client, including the www support site, extranets for partners/distributors, and knowledge intranets for employees (whose primary function is NOT to support human-assisted contact center channels).
- When quoting Knowledge for Web Self-Service only count processors used by the out-of-the-box Web Self-Service UI (Information Center), or processors handling service requests from custom UIs using the web service API layer (Information Manager Web Services).
- Oracle Knowledge for Contact Center licenses are required for all knowledge authors or other users such as approvers and reviewers contributing to knowledge creation workflows. Contact Center employees may access Oracle Knowledge for Web Self-Service, but they must first have an Oracle Knowledge for Contact Center license.

	License Price	Software Update License & Support	Licensing Metric	Minimum

DEFINITIONS

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Oracle Self Service Work Request option in conjunction with Oracle Enterprise Asset Management, you are required to maintain licenses for the equivalent number of Application users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion date for your entire employee population. For Order Management, application users are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately by Electronic Order Line.

$M in Application Annual Revenue: is defined as one million U.S. dollars excluding taxes processed through the licensed program. For Oracle Self-Service E-Billing products, the Annual Revenue is equivalent to the total invoiced amount for all company accounts that have at least one enrolled user per billing period.

Siebel Branch Teller Services program, Siebel Internet Banking Services program, Siebel Retail Finance Foundation Services program and the Siebel Financial Transactions Workbench program, you may use third party tools to (a) create materials or (b) modify the materials identified as Sample Screen Code and Process Templates in the program documentation, all in accordance with the program documentation, and provided that such materials or modified materials shall be used solely with your licensed use of such programs. You shall not limit in any way Oracle's right to develop, use, license, create derivative works of, or otherwise freely exploit the programs, ancillary programs, program documentation, or any other materials provided by Oracle, or to permit third parties to do so.

1,000 Claims: is defined as one thousand unique claims processed through the program during a 12 month period. A unique claim is defined as one of the following: OEM Claims entry, supplier claims entry, adjudication. Claims flow through to OPA for automated processing. **You may not exceed the licensed number of transactions during a 12 month period unless you acquire additional transaction licenses from Oracle.**

Connected Instance: is defined as the configuration between Oracle Policy Automation Connector for Oracle CRM On Demand and the Oracle CRM On Demand instance's web service endpoint. For each Oracle CRM On Demand instance so configured, an additional Connected Instance is required.

Connector: is defined as each connector connecting the software product with an external product. A unique connector is required for each distinct product that the software product is required to interface.

Cost of Goods Sold: is defined as the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to you then Cost of Goods Sold shall be equal to 75% of total company revenue.

$M Cost of Goods Sold: Is defined as one million U.S. dollars of the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to you then Cost of Goods Sold shall be equal to 75% of total company revenue.

Customer: is defined as the customer entity specified on the ordering document. The programs may not be used or accessed for the business operations of any third party, including but not limited to your customers, partners, or your affiliates. There is no limitation on the number of physical servers on which such programs may be copied, installed and used.

Customer Account: is defined as each unique Customer Account, designated by a unique account number, for which the billing information is managed or displayed using the program, regardless of the number of individual account holders associated with such accounts.

Customer Record: is defined as each unique Customer Record (including contact records, prospect records and records in external data sources) that you may access using the program.

Contact Record: is defined as each database record of an individual contact that is stored in the Siebel Data Model

The **Siebel Marketing Server** program is licensed on a Computer basis together with the number of unique Customer Records that you may access using the program.

The **Siebel Pharma Marketing Server** is licensed on the basis of the number of unique Customer Records that you may access using the program together with the number of Brands that you may manage using the program.

Brand: is defined as a named product offering that corresponds to a specific molecular entity, including multiple dosage forms and multiple strengths for the same molecular entity.

Computer: is defined as the computer on which the programs are installed. A Computer license allows you to use the licensed program on a single specified computer.

The **Siebel Details** Program includes a license for 20 Concurrent Users that authorizes you to use the program on only one Physical Server for a maximum of 20 Concurrent Users at any given time.

Electronic Order Line: is defined as the total number of distinct electronic order lines entered electronically into the Oracle Order Management application from any source (not manually entered by licensed Order Management Users, Professional Users 2003, or Professional Users 2003 External) during a 12 month period. This includes order lines originating as external EDI/XML transactions and/or sourced from other Oracle and non-Oracle applications. You may not exceed the licensed number of order lines during any 12 month period.

Order Line is defined as the total number of order entry line items processed by the program during a 12 month period. Multiple order entry line items may be entered as part of an individual customer order or quote and may also be automatically generated by the Oracle Configurator. You may not exceed the licensed number of Order Lines during any 12 month period unless you acquire additional Order Line licenses from Oracle.

Employee: Enterprise Employee: is defined as **(i)** all of your full-time, part-time, temporary employees, and (ii) all of your agents, contractors and consultants who have access to, use, or are tracked by the Oracle Programs. The quantity of the licenses required is determined by the number of Enterprise Employees and not the actual number of users. In addition, if you elect to outsource any business function(s) to another company, all of the company's full-time, part-time, temporary employees and agents, contractors and consultants that are providing the outsourcing services for you who have access to, use, or are tracked by the Oracle Programs must be counted for the purposes of determining the number of Enterprise Employees.

Field Resource: is defined as dispatchers using the programs, as well as engineers, technicians, representatives or other persons scheduled by the programs.

Guest Room: is defined as the number of guest rooms managed by the program.

Hosted Named User: is defined as an individual authorized by you to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

1K Interaction Credits: is defined as one thousand interaction credits where one interaction credit is defined as (a) one completed Click to Call session or (b) one Click to Chat session or (c) three Email Response outbound emails sent from the Live Help Agent Console.

A Click to Call session is defined as a user initiated PC-to-phone or phone-to-phone call which is connected to a destination phone number.

A Click to Chat session is defined as a user initiated chat from any channel that is removed from a chat session queue in the Live Help Agent Console via an automatic or manual queue distribution.

An Email Response is defined as an agent reply to an inbound email or an agent-originated email. Any fraction of Email Responses less than three will be rounded up to three for purposes of license quantity requirements.

If at any time the amount of 1K Interaction Credits exceeds the licensed quantity, you are required to order additional services such that the amount of 1K Interaction Credits is equal to or less than the number of licensed quantity.

$M in Managed Assets: is defined as one million U.S. dollars of the following total: (1) Book value of investment in capital leases, direct financing leases and other finance leases, including residuals, whether owned or managed for others, active on the program, plus (2) Book value of assets on operating leases, whether owned or managed for others, active on the program, plus (3) Book value of loans, notes, conditional sales contracts and other receivables, owned or managed for others, active on the program, plus (4) Book value of non earning assets, owned or managed for others, which were previously leased and active on the program, including assets from term terminated leases and repossessed assets, plus (5) Original cost of assets underlying leases and loans, originated and active on the program, then sold within the previous 12 months.

Member Record: is defined as each unique customer loyalty program Member Record managed by the program. 100k Member Records shall mean one hundred thousand Member Records.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited.
For educational purposes only. Subject to change without notice.

Named User Plus / Named User is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. All of the remaining provisions of this definition apply only with respect to Named User Plus licenses, and not to Named User licenses. A non human operated device will be counted as a named user plus in addition to all individuals authorized to use the programs, if such devices can access the programs. If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor minimums are maintained for the programs contained in the user minimum table in the licensing rules section; the minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Hosts, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, Oracle VM Management Pack, and Provisioning and Patch Automation Pack, only the users of the program that is being managed/monitored are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Management Pack for Oracle E-Business Suite, Application Change Management Pack for Oracle E-Business Suite, Application Management Pack for Siebel, Application Management Pack for JD Edwards EnterpriseOne and Application Management Pack for PeopleSoft all users of the middleware and/or database software that support the respective application program are counted for the purpose of determining the number of licenses required.

With respect to the following programs: Load Testing, Load Testing Developer Edition, Load Testing Accelerator for Web Services, Load Testing Accelerator for Siebel, Load Testing Accelerator for Oracle E-Business Suite, and Load Testing Accelerator Application Development Framework Applications, each emulated human user and non human operated device shall be considered as a virtual user and shall be counted for the purposes of determining the number of Named User Plus licenses required.

For the purposes of the following program: Oracle GoldenGate, only (a) the users of the Oracle database from which you capture data and (b) the users of the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the users of the Non Oracle database from which you capture data and (b) the users of the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the users of the database from which you capture data and (b) the users of the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Database Firewall, only the processors of the database sources which are protected or monitored must be counted for the purpose of determining the number of licenses required.

Partner Organization: is defined as an external third party business entity that provides value-added services in marketing and selling your products. Depending upon the type of industry, partner organizations play different roles and are recognized by different names such as reseller, distributor, agent, dealer or broker.

Physical Server: is defined as each physical server on which the programs are installed.

The **Siebel Pricing Claims Server-Up to 20 Application Users** is licensed on a Physical Server basis with a limitation on the number of Application Users.

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name, a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Hosts, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, Ops Center Virtualization management Pack and, Provisioning and Patch Automation Pack, only the processors on which the program that is being managed/monitored are running are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Management Pack for Oracle E-Business Suite, Application Change Management Pack for Oracle E-Business Suite, Application Management Pack for Siebel, Application Management Pack for JD Edwards EnterpriseOne and Application Management Pack for PeopleSoft, all processors on which the middleware and/or database software that support the respective application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator and Application Adapter for Data Integration, Informatica PowerCenter and PowerConnect Adapters, Application Adapters for Data Integration, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Audit Vault Collection Agent, only the processors of the database sources from which audit data is collected must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: In-Memory Database Cache, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate, only (a) the processors running the Oracle database from which you capture data and (b) the processors running the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the processors running the Non Oracle database from which you capture data and (b) the processors running the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle ATG Web Commerce Search, only the processors on which queries are processed must be counted. You do not need to count processors on which the program is running for indexing content in configured content sources as long as the foregoing is the only use of the program on all the processors installed in a given server.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited.
For educational purposes only. Subject to change without notice.

Product Catalog: is defined as a single instance of your product offerings in a tabular structure which includes product details such as name, price, category, SKU number, and other data fields. Product Catalogs must be provided from you to Oracle via File Transfer Protocol (FTP) or API feed.

For the purposes of Oracle Recommendations Single-Channel On Demand and Oracle Multi-Channel On Demand, hosting is included for one Product Catalog that includes only up to 500,000 products.

For the purposes of Oracle Recommendations Additional Catalog On Demand, a Product Catalog refers to each of your additional deployed Product Catalogs that each include only up to 500,000 products.

For the purposes of Oracle Recommendations Large Catalog On Demand, a Product Catalog refers to each of your deployed Product Catalogs that each include more than 500,000 products per Product Catalog.

If at any time the amount of Product Catalogs exceeds the licensed quantity, you are required to order additional services such that the amount of Product Catalogs is equal to or less than the number of licensed quantity.

Record: *For Customer Hub B2B and Hyperion Data Relationship Management for Customer Hub, record is defined as the number of unique customer database records stored in the* Customer Hub B2B application (e.g. stored in a component of Customer Hub B2B). A customer database record is a unique business entity or company record which is stored as an account for the Siebel Universal Customer Master B2B product or as an organization for the Customer Data Hub product.

For Customer Hub B2C, record is defined as the number of unique customer database records stored in the Customer Hub B2C application. A customer database record is a unique consumer (i.e. physical person) record which is stored as a contact for the Universal Customer Master product or as a person for the Customer Data Hub product.

For Product Hub, record is defined as the number of unique product database records stored in the Product Hub application. A product database record is a unique product component or SKU stored in the MTL_SYSTEM_ITEMS table with an active or inactive status and does not include any instance items (i.e. *-star items) or organization assignments of the same item.

The Customer Hub B2B is a bundle that includes two components, Siebel Universal Customer Master B2B and Oracle Customer Data Hub. For the purposes of the Customer Hub B2B application, record is defined as the total number of unique customer database records stored in the Customer Hub B2B application (i.e., stored in a component of Customer Hub B2B). A customer database record is a unique business entity or company record which is stored as an account for the Siebel Universal Customer Master B2B product or as an organization for the Oracle Customer Data Hub product.

The Customer Hub B2C is a bundle that includes two components, Siebel Universal Customer Master B2C and Oracle Customer Data Hub. For the purposes of the Customer Hub B2C application, record is defined as the total number of unique customer database records stored in the Customer Hub B2C application (i.e., stored in a component of Customer Hub B2C). A customer database record is a unique consumer (i.e., physical person) record which is stored as a contact for the Siebel Universal Customer Master product or as a person for the Oracle Customer Data Hub product.

The Product Hub is a bundle that includes two components, Siebel Universal Product Master and Oracle Product Information Management Data Hub. For the purposes of the Product Hub application, record is defined as the total number of unique product database records stored in the Product Hub application (i.e., stored in a component of Product Hub). A product database record is a unique product component or SKU stored in the MTL_SYSTEM_ITEMS table with an active or inactive status and does not include any instance items (i.e. *-star items) or organization assignments of the same item.

For the purposes of the Life Sciences Customer Hub program a record is defined as the number of unique customer database records stored in the application. A Life Sciences customer database record is a unique physician (i.e. physical person) record which is stored as a contact for the Oracle Life Sciences Customer Hub product.

For the purpose of Oracle Supplier Lifecycle Management and Oracle Supplier Hub applications, a record is a unique business entity or company record, which is stored as Supplier in AP_SUPPLIERS table of the Oracle Supplier Lifecycle Management and Oracle Supplier Hub products.

For all programs licensed as record, please see the application licensing prerequisites as specified in the Applications Licensing Table which may be accessed at http://oracle.com/contracts for the grant and restrictions of the underlying Oracle technology.

The **Siebel Master Data Application** programs (denoted by the word "Master" in the program name) are licensed on the basis of the number of Contact Records that may be stored in the Master Data Application.

The **Siebel Master Data Application** programs (denoted by the word "Master" in the program name) are subject to the following additional terms: (a) you have no right to use the user interface of such programs except through the Customer Data Steward or Product Data Steward modules, and (b) you can use only those components of the Siebel Master Data application program that have been licensed by you.

Registered User: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. Registered Users shall be only your business partners and/or customers and shall not be your employees.

500,000 Queries Per Day: is defined as five hundred thousand queries from midnight to the next midnight (e.g., a day) to the production MDEX engine, including but not limited to: text searches; changes to facet (refinement); and page up/down through results (any text box query, change in facet selection, change in results viewed). Queries that can be reasonably shown to be generated via malicious intent, such as Denial of Service attacks, are not counted against the number of licensed queries. You may also use the programs for non-production uses, including but not limited to development, quality assurance, and performance testing.

250,000 Requests Per Day: is defined as two hundred fifty thousand requests from midnight to the next midnight (e.g., a day) in the production systems. Requests that can be reasonably shown to be generated via malicious intent, such as Denial of Service attacks, are not counted against the number of licensed requests. You may also use the program for non-production uses, including but not limited to development, quality assurance, and performance testing.

For the purposes of the following program: ATG Web Commerce, requests for the full ATG pipeline at the ATG DynamoHandler in the Servlet Pipeline made by web browsers or via web service calls in the production systems, including, but not limited to: JSP page requests; Ajax requests; REST service requests; SOAP service requests; web service calls by native mobile applications, rich front end applications or other integrated external systems must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: WebCenter Sites for Oracle ATG Web Commerce, requests to the production WebCenter Sites or production WebCenter Sites Satellite Server programs for page or page fragments, JSP page requests, REST service requests, SOAP service requests or web service calls by browsers or external application must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Endeca Experience Manager, requests at the production Assembler and Presentation API, including but not limited to: any page request for Experience Manager; any single submitted query for the Search Engine (text box queries, selection or changes in facet selection); page requests by an application (e.g. ATG Web Commerce); direct requests from web browsers; web service calls by native mobile applications, rich front end applications or other integrated external systems must be counted for the purpose of determining the number of licenses required.

100 Sites is defined as the number of unique Sites added to Multi-Site Quotes created over the last 12 calendar months. Sites added to Multi-Site Quotes are listed as records in the Site Characteristics View and the Billing Group View of the Multi-Site Quote. A Site record is uniquely defined by its Service Account and Service Point fields. Only unique Sites are counted, i.e., a Site, as defined by its Service Account and Service Point values, added to multiple Multi-Site Quotes created in a 12-month period is only counted once.

100MB per month is defined as 100 megabytes of storage space used each month.

Telephone Number is defined as each unique telephone number for which the billing information is managed or displayed using the program, regardless of the number of individual account holders associated with such telephone numbers.

1K Transactions is defined as one thousand unique transactions processed through the program during a 12 month period. ***You may not exceed the licensed number of transactions during a 12 month period unless you acquire additional transaction licenses from Oracle.***

UPK Developer: is defined as an individual authorized by you to use the programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the programs at any given time. UPK Developers may create, modify, view and interact with simulations and documentation.

This document is the property of Oracle Corporation. Any reproduction of this document in part or in whole is strictly prohibited.
For educational purposes only. Subject to change without notice.

UPK Module is defined as the functional software component described in the product documentation

The users or processors of the **Siebel Web Channel** program may access a maximum of 15 Objects. An "Object" is defined as each data entity within the Business Object Layer of the programs that is defined in the Siebel Tools program.

1M Web Sessions is defined as one million web sessions where a web session is defined as a sequence of requests from a uniquely identified client that expire after 30 minutes of inactivity. The total number of Web Sessions per calendar year must be aggregated for the purposes of license quantity requirements. If at any time the amount of 1M Web Sessions exceeds the licensed quantity, you are required to order additional services such that the amount of 1M Web Sessions is equal to or less than the number of licensed quantity.

Wireless handset is defined as a mobile communications device such as a mobile telephone, PDA, or paging device, that has as primary functions wireless voice communications and data services provided through a service provider.

ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at http://www.oracle.com/Support

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via Oracle MetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the Inflationary Adjustment Rate (IAR). For licenses with an active Contractual Cap Rate (CCR), support is increased by the lower CCR or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Customer Support

Advanced Customer Support is designed to provide an enhanced level of support to Oracle customers. Advanced Customer Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Customer Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.

Contact your local Support Sales representative for Advanced Customer Support information and pricing.

Incident Server Support Packages

Incident Server Support Packages provide incident-based web support for the following limited product sets:

Oracle Database Server Support Package 2,300 USA (Dollar) for 10 incidents on one server:
Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters, Advanced Compression
Oracle Application Server Support Package 1,150 USA (Dollar) for 10 incidents on one server:
Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Server Support Packages, customers receive access to Oracle MetaLink, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at http://www.oracle.com/support

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the initial 5 years from the general availability date of the product, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support
Year 7 after product release: 20% of current year's Software Update License & Support
Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

Updates, fixes and security alerts
Tax, legal and regulatory updates
Upgrade scripts
Technical support
Major product and technology releases

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

Technical Support
Access to MetaLink/Customer Connection
Major product and technology releases
Pre-existing fixes

ORACLE ON DEMAND

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.

Term licensing available for all Oracle Products. The list price for a term license is based on a specific percentage of the perpetual license price. Annual terms licenses are available from 1 to 5 years: 1 year - 20% of list; 2 year - 35% of list, 3 year - 50% of list, 4 year 60% of list and 5 year 70% of list.

The list support price for term licenses is 22% of the list perpetual license fee, as listed in the price list. The term license percentages are not applied to the list support price.

Definitions

Application User: is defined as an individual authorized by you to use the applicable licensed application programs which are *installed on a single server or on* multiple servers regardless of whether the individual is actively using the programs at any given time. If you license the Oracle Self Service Work Request option in conjunction with Oracle Enterprise Asset Management, you are required to maintain licenses for the equivalent number of Application Users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion dates for your entire employee population. Application Users licensed for Oracle Order Management are allowed to manually enter orders directly into the programs but any orders entered electronically from other sources must be licensed separately. For Oracle Sourcing, Oracle iSupplier Portal, Oracle Services Procurement, PeopleSoft eSupplier Connection, PeopleSoft Strategic Sourcing and JD Edwards Supplier Self Service programs, use by your external suppliers is included with your application user licenses.

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a *core processor licensing factor specified* on the Oracle Processor Core Factor Table which can be accessed at http://oracle.com/contracts. All cores on all multicore chips for each licensed program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle programs with Standard Edition One or Standard Edition in the product name (with the exception of Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the program (other than Standard Edition One programs or Standard Edition programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running the program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following program: Healthcare Transaction Base, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed program; under these licenses you may also install and/or run the licensed program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Hosts, *System Monitoring Plug-in for Non Oracle Databases*, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware, Management Pack for WebCenter Suite, Ops Center Virtualization Management Pack, Grid Engine, Oracle VM Management Pack, and, Provisioning and Patch Automation Pack, only the processors on which the program that is being managed/monitored are running are counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Application Management Suite for Oracle E-Business Suite, Application Management Suite for PeopleSoft, Application Management Suite for Siebel, Application Management Suite for JD Edwards EnterpriseOne, all processors on which the middleware and/or database software that support the respective application program are running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following programs: Informatica PowerCenter and PowerConnect Adapters, and Application Adapter for Warehouse Builder for: PeopleSoft, Oracle E-Business Suite, Siebel, and SAP, only the processor(s) on which the target database is running must be counted for the purpose of *determining the number of licenses required.*

For the purposes of the following programs: Data Integrator Enterprise Edition, Data Integrator Enterprise Edition for Oracle Applications, Data Integrator and Application Adapter for Data Integration, and Application Adapters for Data Integration, only the processor(s) where the data transformation processes are executed must be counted for the purposes of determining the number of licenses required.

For the purposes of the following program: Audit Vault Collection Agent, only the processors of the database sources from which audit data is collected must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: In-Memory Database Cache, and In-Memory Database Cache for Oracle Applications, only the processors on which the Times Ten In-Memory Database component of the In-Memory Database Cache program is installed and/or running must be counted for the purpose of *determining the number of licenses required.*

For the purposes of the following program: Oracle GoldenGate, only (a) the processors running the Oracle database from which you capture data and (b) the processors running the Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Non Oracle Database, only (a) the processors running the Non Oracle database from which you capture data and (b) the processors running the Non Oracle database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Mainframe, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Oracle GoldenGate for Teradata Replication Services, only (a) the processors running the database from which you capture data and (b) the processors running the database where you will apply the data must be counted for the purpose of determining the number of licenses required.

For the purposes of the following program: Database Firewall, only the processors of the database sources which are protected or monitored must be counted for the purpose of determining the number of licenses required.

Gigabyte: is defined as a gigabyte of storage space.

Hosted Named User: is defined as an individual authorized by you to access the hosted service, regardless of whether the individual is actively accessing the hosted service at any given time.

Production environment: is defined as a single production environment provided to Customer as part of the Cloud Services.

Nonproduction environment: is defined as a single nonproduction environment provided to Customer as part of the Cloud Services. A nonproduction environment is used for testing and validating changes prior to promotion to the production environment as well as for recreating events and duplicating issues occurring in the *production environment for the purposes of* troubleshooting and facilitating incident resolution.

Oracle Support Services

Oracle Support Services (OSS) offers the following programs: Software Update License & Support to provide customers with the right to Oracle product upgrades and 24x7 support of all Oracle products, and Oracle Advanced Customer Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Sales Support website at http://www.oracle.com/Support

Software Update License & Support

Software Updates License & Support provides customers with the right to product upgrades and 24x7 technical support, and is available for five years from the release date of the product. Product upgrades includes upgraded versions of software, maintenance releases and patches. Customers receive direct access Oracle experts for product-specific questions about installing and operating Oracle software. Web based support is provided via OracleMetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Update License & Support is the technical support fees paid for the same licenses in the prior year, increased by the Inflationary Adjustment Rate (IAR). For licenses with an active Contractual Cap Rate (CCR), support is increased by the lower CCR or the IAR. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licensee, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Customer Support

Advanced Customer Support is designed to provide an enhanced level of support to Oracle customers. Advanced Customer Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements. Advanced Customer Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.
Contact your local Support Sales representative for Advanced Customer Support information and pricing.

Incident Server Support Packages

Incident Server Support Packages provide incident-based web support for the following limited product sets:
- Oracle Database Server Support Package (2,300 USA (Dollar) for 10 incidents on one server):
  Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters, Advanced Compression
- Oracle Application Server Support Package (1,150 USA (Dollar) for 10 incidents on one server):
  Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Server Support Packages, customers receive access to OracleMetaLink, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at http://www.oracle.com/support

Extended Support

Customers with current Software Updates, License & Support can support their product for a further 3 years, past the initial 5 years from the general availability date of the product, by purchasing Extended Support. Extended Support fees are applied to the desupported Oracle programs only. Extended Support fees consist of the prior year's fee for Software Updates & Support plus the applicable renewal adjustment, plus an additional fee based on the year. Additional fees are as follows:

Year 6 after product release: 10% of current year's Software Update License & Support
Year 7 after product release: 20% of current year's Software Update License & Support
Year 8 after product release: 20% of current year's Software Update License & Support

Extended Support offers the following:

Updates, fixes and security alerts
Tax, legal and regulatory updates
Upgrade scripts
Technical support
Major product and technology releases

Sustaining Support

Sustaining Support offered in years 9 and beyond provides technical support—i.e., access to Oracle's online and call-center support—and rights to future products for as long the customer is purchasing support. Sustaining support is charged as per renewal pricing, found in the "Support Renewals" section above.

Sustaining Support provides:

Technical Support
Access to MetaLink/Customer Connection
Major product and technology releases
Pre-existing fixes

Oracle OnDemand

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administrative Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance.

Item	Item Description	Named Product Discount Category	Values: Oracle List Price	Discount	Authorized Contract User Price
7100030	Spare: StorageTek LTO tape drive: 1 HP LTO5 full height SAS for StorageTek SL500, StorageTek SL3000, and StorageTek SL8500	Spare Parts	$7,690.00	29%	$5,459.90
7100031	Spare: StorageTek LTO tape drive: 1 HP LTO5 4 Gb FC for StorageTek SL500, StorageTek SL3000, and StorageTek SL8500	Spare Parts	$10,250.00	29%	$7,277.50
7100090	Sun Blade 6000 Virtualized 40 GbE Network Express Module	Network Adapters	$4,584.00	14%	$3,942.24
7100110	Spare: energy storage module	Spare Parts	$252.00	29%	$178.92
7100235	Spare: HP LTO power cable	Spare Parts	$60.00	29%	$42.60
7100262	1-phase high voltage 22 kVA PDU	Sun Racks	$1,300.00	15%	$1,105.00
7100265	1-phase high voltage 22 kVA PDU (for factory installation)	Sun Racks	$1,300.00	15%	$1,105.00
7100272	Spare: F20 flash accelerator	Spare Parts	$7,818.00	29%	$5,550.78
7100283	Sun Blade PCIe-2 pass-through fabric expansion module (for factory installation)	Sun Blade Server Options	$219.00	15%	$186.15
7100311	Spare: Exadata X2-2 Apple service kit	Spare Parts	$11,580.00	29%	$8,221.80
7100342	Spare: 22000 VA single phase low voltage PDU	Spare Parts	$5,358.00	29%	$3,804.18
7100343	Spare: 22000 VA single phase high voltage PDU	Spare Parts	$5,000.00	29%	$3,550.00
7100369	Spare: PSU DC power supply assembly	Spare Parts	$4,050.00	29%	$2,875.50
7100402	Spare: FC assembly for HP LTO5 tape drive	Spare Parts	$9,540.00	29%	$6,773.40
7100417	Sun Netra 6000 chassis DC with midplane, accessory kit with dongle and RJ45-DB9 adapter, 9 server module filler panels, 20 PCIe Express Module filler panels, and 2 Network Express Module filler panels	Sun Netra 6000 Blade Chassis	$15,251.00	15%	$12,963.35
7100418	Sun Netra 6000 chassis AC with midplane, accessory kit with dongle and RJ45-DB9 adapter, 9 server module filler panels, 20 PCIe Express Module filler panels, and 2 Network Express Module filler panels	Sun Netra 6000 Blade Chassis	$8,685.00	15%	$7,382.25
7100444	Spare: HP LTO5 fibre assembly	Spare Parts	$9,410.00	29%	$6,681.10
7100480	Spare: 4 GB USB drive single-level cell unprogrammed	Spare Parts	$260.00	29%	$184.60
7100485	Spare: virtualized 40 GbE network express module	Spare Parts	$6,912.00	29%	$4,907.52
7100494	Spare: encryption belisarius for IBM LTO4 and IBM LTO5 tape drives	Spare Parts	$920.00	29%	$653.20
7100497	Solid filler panel kit	Sun Racks	$103.00	15%	$87.55
7100570	Wago DC plug connectors, pack of 10	Netra SPARC T3-1 Server	$165.00	15%	$140.25
7100584	Spare: PCIe fabric expansion module	Spare Parts	$678.00	29%	$481.38
7100591	Spare: chassis management module for Sun Netra 6000 M2 modular system	Spare Parts	$1,520.00	29%	$1,079.20
7100633	Sun Blade PCIe-2 pass-through fabric expansion module	Sun Blade Server Options	$285.00	15%	$242.25
7100921	Spare: snap-in rail assembly	Spare Parts	$870.00	29%	$617.70
7100922	Spare: bolt-on rail assembly	Spare Parts	$890.00	29%	$631.90

Item	Item Description	Named Product Discount Category	Oracle List Price	Discount	Authorized Contract User Price
7101048	Spare: meter riser FC, 50 micron, LC-LC	Spare Parts	$60.00	29%	$42.60
7101297	Spare: infiniband gateway switch for Oracle Exalogic Elastic Cloud X2-2	Spare Parts	$29,370.00	29%	$20,852.70
7101647	Spare: power distribution board assembly	Spare Parts	$642.00	29%	$455.82
7101664	Oracle Solaris and Oracle VM Server for SPARC preinstall (for factory installation)	SPARC T4 Server Configured Options	$0.00	15%	$0.00
7102010	Spare: service processor assembly for SPARC T4-1 server	Spare Parts	$654.00	29%	$464.34
7102011	Spare: logic board assembly for SPARC T4-1 server	Spare Parts	$21,282.00	29%	$15,110.22
7102044	Spare: drive carrier with one 1 TB SATA HDD for Hitachi	Spare Parts	$1,452.00	29%	$1,030.92
7102056	Spare: enclosure services for 1 drive tray with EMI gasket	Spare Parts	$1,074.00	29%	$762.54
7102058	Spare: fan	Spare Parts	$1,026.00	29%	$728.46
7102066	Spare: 13th drive carrier with one 1 TB SATA HDD for Hitachi	Spare Parts	$1,704.00	29%	$1,209.84
7102078	Spare: battery	Spare Parts	$852.00	29%	$604.92
7102109	Spare: I/O unit with K2 RAID	Spare Parts	$6,294.00	29%	$4,468.74
7102110	Spare: cable assembly, 2 meters, 18 awg, C14 plug, SJT wire, 110 V	Spare Parts	$48.00	29%	$34.08
7102113	Spare: cable assembly, 22 inches, DB9, female-female	Spare Parts	$48.00	29%	$34.08
7102117	Spare: cable assembly, 0.5 meter, FC, HSSDC2/HSSDC2	Spare Parts	$120.00	29%	$85.20
7102120	Spare: GbE 4-port network interface module for copper cable	Spare Parts	$3,294.00	29%	$2,338.74
7102121	Spare: cable assembly, 2 meters, FC, HSSDC2/HSSDC2	Spare Parts	$144.00	29%	$102.24
7102122	Spare: GbE 4-port network interface module for optical cable	Spare Parts	$4,314.00	29%	$3,062.94
7102124	Spare: network interface module with 4 GB SAN adapter	Spare Parts	$4,350.00	29%	$3,088.50
7102128	Spare: private interconnect module for Emulex SOC422	Spare Parts	$8,874.00	29%	$6,300.54
7102133	Spare: PSU with cooling for drive trays	Spare Parts	$1,044.00	29%	$741.24
7102134	Spare: network cable, 0.5 meter, cat 5E, blue	Spare Parts	$42.00	29%	$29.82
7102135	Spare: optical SFP multi-mode transceiver	Spare Parts	$180.00	29%	$127.80
7102136	Spare: optical cable, 2 meters, duplex multi-mode, 50/125 core, LC/LC	Spare Parts	$102.00	29%	$72.42
7102137	Spare: optical cable, 0.5 meter, duplex multi-mode, 50/125 core, LC/LC	Spare Parts	$96.00	29%	$68.16
7102138	Spare: optical cable, 1 meter, duplex single-mode, 50/125 core, SC/LC	Spare Parts	$126.00	29%	$89.46
7102141	Spare: SFP module, multi-mode optical, 1 and 2 GB/sec, SAN	Spare Parts	$258.00	29%	$183.18
7102355	Spare: module bezel slammer	Spare Parts	$1,092.00	29%	$775.32
7102356	Spare: 4U rack rail kit	Spare Parts	$348.00	29%	$247.08
7102357	Spare: 2U rack rail kit	Spare Parts	$246.00	29%	$174.66
