RE: Proposal ID# GLENAZF02192014

Dear Chief Black,

Thank you for giving us the opportunity to serve your organization. This proposal includes terms for converting the City of Glendale's existing ShotSpotter OnSite™ system to the ShotSpotter Flex™ Gunfire Location, Alert & Analysis Service. As discussed, there will be no additional annual maintenance and support fees associated with this conversion and benefits include access to unlimited mobile clients; ease of use for the various user interfaces and added portals; new features/Chat/IRP; higher availability due to redundant platform components and continuous support surveillance; better self-service reporting capabilities and ability to incorporate/correlate additional data regarding incidents reported; and qualified reviewed alerts that will dramatically improve effectiveness, reduce dispatch work load and minimizing false incidents. ShotSpotter Flex offers a new user interface and unlimited and automatic updates.

We trust that you will find that our Flex solution offered as a hosted service, delivers to your agency and community a tremendous value. Qualified and intelligence-rich gunfire alerts and corresponding incident data as a hosted service is yet another way that SST offers unique industry-leading benefits unmatched by any other vendor.

We stand ready to cooperatively work with you in your ongoing effort to address gunfire and related violent crime in your community.

Best regards,

SST Reviewer Alert Service

When ShotSpotter Flex detects gunfire, detailed incident data is instantly sent to the SST Operations Center, our secure data processing and alert qualification facility. Immediately, a SST gunfire and acoustic expert analyzes the data, qualifies the incident and sends a validated alert to the dispatch center or other Public Safety Answer Points (PSAP) and even directly to mobile and field personnel. Qualified Alerts include critical situational awareness such as number of shots fired, shooter position, speed and direction of travel (of a moving shooter) and the exact time of gunfire.

The highly trained and specialized team of gunfire detection experts at the SST Operations Center has analyzed thousands of gunfire events captured by SST solutions. Their dedicated 24x7x365 expertise provides an instant assessment of all potential incidents, freeing up time that dispatchers and officers would otherwise spend analyzing alerts and giving agencies the level of data qualification they need to have complete confidence when dispatching based on alerts from ShotSpotter Flex. Drawing on their experience, SST experts are often able to add important situational intelligence to alerts, such as the possibility of multiple shooters and other critical data that can help personnel respond more safely and successfully.

During the term of the Services, SST will make commercially reasonable efforts to promote Customer's successful utilization of the Service, including but not limited to providing Customer with user guides, online help, online training presentation, and online training sessions (as available). The e-mail support specialist shall be responsible for receiving Customer reports of missed incidents, or errors in the Service, and, to the extent practicable over email or telephone, making commercially-reasonable efforts to assist the Customer in resolving the Customer's reported problems. SST, at the specific request of the customer, will produce and provide a reasonable quantity of detailed incident forensic reports for any ShotSpotter detected incidents, including Reviewed Alerts, if such information is deemed by the customer to be valuable to the customer for investigation follow-up, prosecutorial requirements, or after action review.

Such reports must be requested a minimum of 5 days in advance of when needed, and all such requests must be in writing and addressed to the SST Customer Service Department. Customer should expect delivery of these reports within 5 days after receipt of the request. This benefit shall only be available to Customer if Customer is fully current with payments due under this Agreement. In

the case that Customer is not current with their payments, then forensic reports shall not be generated nor provided to Customer until Customer becomes current with its payment obligations.

B. EXPERT WITNESS SERVICES. SST offers reasonable expert witness services. The Customer will be responsible for all travel and per diem reimbursement. At the specific request of the customer, SST will provide individual(s) for the purposes of expert witness testimony for any ShotSpotter detected incidents, including Reviewed Alerts, for which the incident information is deemed by the customer to be valuable to the customer's prosecutorial requirements. Customer understands that SST undertakes to provide individuals whose qualifications are sufficient for such services, but does not warrant that any person or his or her opinion will be accepted by every court. SST requires at least fourteen (14) days prior notice of such a requirement in writing from the Customer. Customer must include dates, times, specific locations and a point of contact for SST personnel. Due to the nature of legal proceedings, SST cannot guarantee that its services described in this section shall produce the outcome, legal or otherwise, which Customer desires. Payment for expert witness services described shall be due and payable when services are rendered regardless of the outcome of the proceedings.

5. TERM, RENEWAL

A. TERM AND COMMENCEMENT. The Service term shall be specified in the Purchase Document and will commence on the date that the Service is available to the Customer via the Alert Console.

B. RENEWAL. The Service may be renewed for successive periods of one year each, in accordance with the following procedure. Not later than thirty (30) days prior to the expiration of the Service term then in effect, Customer shall issue a purchase order and tender payment in full for the next annual renewal (unless otherwise agreed in writing by SST), and the term shall be renewed for another year. SST shall provide Customer with renewal fees, terms and conditions for the next successive renewal term upon Customer's request but no later than 90 days from the expiration date. Customer acknowledges that the Service fees, terms and conditions and service levels hereunder are subject to change and that such fees, terms and conditions, and service levels may vary from those applicable to this Agreement in successive renewal terms.

If Customer fails to renew in a timely manner and hence allows the Service term to expire then the Service will terminate in accordance with Section 2. C. At its discretion, SST may remove the ShotSpotter Gunshot Location System and any components from the coverage area at that time. If SST does not remove the ShotSpotter Gunshot Location System from the coverage area, Customer may reinstate the Service at a later date by renewing, however Customer will not have access to any Reviewed Alerts that they would have had access to during the lapsed period.

C. COMMERCIAL CARRIER DATA SERVICES. The ShotSpotter Gunshot Location System may use wired, wireless or cellular wireless acoustic sensor communications which necessitates the existence of a real-time data communications channel from each sensor to the hosted servers via a commercial carrier. The unavailability or deterioration of the quality of such wired, wireless or wireless cellular communications may impact the ability of SST to provide the Service. In such circumstances SST will use commercially reasonable efforts to obtain alternate wired or wireless cellular communications or adjust the coverage area as necessary. In the event SST is unable to do so, SST will terminate the Service and refund a pro-rata portion of the annual Service fee to Customer.

6. IP INFRINGEMENT; EXCLUSIVE REMEDY.

Subject to the terms and conditions hereof, SST agrees to defend and indemnify Customer (provided it is the actual End-user Customer of the Service) from and against losses, suits, damages, liability and expenses (including reasonable attorney fees) arising out of a claim asserted in a lawsuit or action against the end-user customer by a third party unrelated to the customer, in which such third party asserts a claim that the Service and/or Software, when used in accordance with SST's specifications and for the purposes intended, infringes any United States patent which was issued by the U.S. Patent and Trademark Office, or United States copyright which was registered by the U.S. Copyright Office, as of the effective date of Customer's agreement to purchase the ShotSpotter Flex System.

Provided, however, that SST shall have the right to choose counsel to defend such suit and/or action, and to control the settlement (including determining the terms and conditions of settlement) and the defense thereof, and that Customer shall provide SST with reasonably prompt written notice of any such suit or action, and of any oral, written or other communication or other information or circumstances of which Customer becomes aware that could reasonably be expected to lead to such a suit or action (including any and all cease and desist demands or warnings, and offers or invitations to enter license agreements), and shall provide SST all reasonable assistance and information in connection with SST's investigation and defense of any claim of infringement.

Further provided, however, that this section shall not apply and SST shall have no obligation to defend and indemnify Customer in the event the Customer or a reseller, integrator, service provider or supplier modifies, alters, substitutes, or supplements any of the Service, or Software, or to the extent that the claim of infringement arises from or relates to the integration, bundling, merger or

combination of any of the same with other hardware, software, systems, technologies, or components, functions, capabilities or applications not licensed by SST as part of the Service, nor shall it apply to the extent that the claim of infringement arises from or relates to meeting or conforming to any instruction, design, direction or specification furnished by the Customer, nor to the extent that the Service or Software are used for or in connection with any purpose, application or function other than detecting and locating gunshots exclusively through acoustic means.

If, in SST's opinion, the Service, or Software may, or is likely to become, the subject of such a suit or action, does become the subject of a claim asserted against a customer in a lawsuit which SST is or may be obliged to defend under this section, or is determined to infringe the foregoing patents or copyrights of another in a final, non-appealable judgment subject to SST's obligations under this section, then SST may in full and final satisfaction of any and all of its obligations under this section, at its option: (1) procure for Customer the right to continue using the affected Service or Software, (2) modify or replace such Service or Software to make it or them non-infringing, or (3) refund to the purchaser a pro-rata portion of the annual Service price paid for the Service System

The foregoing section states the entire liability of SST and customer's and its suppliers' exclusive remedy for or relating to infringement or claims or allegations of infringement of any patent, copyright, or other intellectual property rights in or to the system, system components, and software. This section is in lieu of and replaces any other expressed, implied or statutory warranty against infringement of any and all intellectual property rights.

It shall be the sole and exclusive responsibility of the Customer to determine appropriate decisions, actions, reactions or responses, including whether or not to dispatch emergency responder resources. The Customer hereby expressly assumes all risks and liability associated with any and all action, reaction, response, and dispatch decisions, and for all consequences and outcomes arising from or caused by any decisions made or not made by the Customer in reliance, in whole or in part, on any

Services provided by SST, including any death, injury, or loss or damage to any property.

Any and all warranties, express or implied, of fitness for high risk purposes requiring fail-safe performance are hereby expressly disclaimed.

You and we each acknowledge and agree that the Service is not a consumer good, and is not intended for sale to or use by or for personal, family or household use.

8. YOUR OBLIGATIONS. You acknowledge and agree that SST's duties, including warranty obligations, and ability to perform its obligations to you shall be predicated and conditioned upon your timely performance of and compliance with your obligations hereunder, including, but not limited to:

A. You agree to pay all sums due under the purchase agreement or order as and when they are due pursuant to the terms of such agreement or order. Actual access and use of the SST Service shall constitute evidence that the Service is active and the final payment is due.

In this respect, no resale, transfer, or re-export of any ShotSpotter Flex System exported to you pursuant to a license from the U.S. Department of Commerce may be

resold, transferred, or reported without prior authorization by the U.S. Government. Customer agrees not to export, re-export or engage in any "deemed export," or to transfer or deliver, or to disclose or furnish, to any foreign (non-U.S.) government, foreign (non-U.S.) person or end-user, or to any U.S. person or entity, any of the ShotSpotter Flex System, GLS System components, Data, Software, Services, or any technical data or output data or direct data product thereof, or any service related thereto, in violation of any such restrictions, laws or regulations, or without all necessary registrations, licenses and or approvals. 11. PROTECTION OF CONFIDENTIAL INFORMATION. Unless either party (the "Receiving Party") obtains prior written consent from the other (the "Disclosing Party"), the Receiving Party agrees that it will not reproduce, use for purposes other than those expressly permitted herein, disclose, sell, license, afford access to, distribute, or disseminate any information: i) obtained from the Disclosing Party in connection with the System purchase, installation or operation, and designated by it from time to time as confidential; ii) the documentation, use and operations manuals; and output data created or compiled by the ShotSpotter Flex System; iii) your use of the ShotSpotter Flex System or technology, your deployment methodology, results, or related facts; iv) the contractual terms and payment terms applicable to the purchase of the ShotSpotter Flex System or technology, except as required by local law (collectively, "Confidential Information") Unless a section of the Purchase Document(s) specifically identifies the identity of Customer as Confidential Information, the fact that Customer is a customer of SST shall not itself be

A disclosure by Recipient of any of Discloser's Confidential Information (a) in response to a valid order by a court or other governmental body; (b) as otherwise required by law; or (c) necessary to establish the rights of either party under this Agreement shall not be considered to be a breach of this Agreement by such Recipient; provided, however, such Recipient shall provide prompt prior written notice thereof to such Discloser to enable Discloser to seek a protective order or otherwise prevent such disclosure. No part or provision shall be interpreted in favor or against any party because such party or its counsel drafted the relevant provision. No course of dealing, usage, custom of trade, or communication between the parties shall modify or alter any of the rights or obligations of the parties under this Agreement and Purchase Document(s).

E. INTEGRATION, AMENDMENT AND WAIVER.

All the parties' rights and duties are material and time is of the essence; no waiver of any rights hereunder shall be deemed effective unless in writing executed by the waiving party; no waiver of either party's breach of any provision of this Agreement or Purchase Documents shall constitute a waiver of any prior or subsequent breach of the same or any other provision, and no failure to exercise, and no delay in exercising, any right(s) hereunder on either party's part shall operate as a waiver of any such right; all of the parties' rights are cumulative; and, no single or partial exercise of any right

SST may assign or transfer this Agreement and the Purchase Documents and/or SST's rights and obligations hereunder, in whole or in part, to any third party without the necessity of obtaining Customer's consent. No assignee for the benefit of Customer's creditors, custodian, receiver, trustee in bankruptcy, debtor in possession, sheriff or any other officer of a court, or other person charged with taking custody of Customer's assets or business, shall have any right to continue or to assume or to assign these without SST's express consent.

G. GOVERNING LAW AND DISPUTE RESOLUTION.

The validity, performance, and construction of this agreement shall be governed by the laws of the State of California, without giving effect to the conflict of law principles thereof. The United Nations Convention on Contracts for the International Sale of Goods is expressly disclaimed and shall not apply. If the parties disagree as to any matter arising under this Agreement or the relationship and dealings of the parties hereto, then SST and Customer shall promptly consult with one another and make diligent, good faith efforts to resolve the disagreement, by negotiation. Should the dispute not be resolved within a reasonable time after commencement of such negotiations, it shall be mediated before one or more mediators mutually acceptable to both parties. Costs of mediation will be allocated as part of the resolution in mediation, but absent such resolution, shall be paid equally by the parties. If such effort is unsuccessful, any controversy or claim arising out of or relating to this Agreement or the validity or breach of any of the provisions thereof, or the relationship, dealings, rights, and obligations of the parties, or use of the Service, shall be settled by binding arbitration, before three arbitrators, in or as near as possible to Newark, California, United States of America, or in such other location as the parties may agree, in accordance with the Commercial Rules of the American Arbitration Association in effect on the date of this agreement. Judgment upon the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. In addition to any other remedies to which it may be entitled, the prevailing party shall be entitled to recover its reasonable attorneys' fees and costs (including expert

witness fees and costs) incurred in connection with enforcing its rights or defending itself.

All parties hereby irrevocably waive any and all rights they may have to a trial by jury in any judicial proceeding involving any claim relating to or arising under this agreement or any other agreement between the parties hereto.

EXHIBIT A - Reviewed Alert Service Levels

The ShotSpotter Flex System detects loud impulsive incidents, classifies them as gunfire, fireworks, or other, and sends them to the SST Incident Review Center. Within 15 seconds of receiving the incident audio download, SST review personnel will begin analysis of the incident, which will include observing sensor audio wave files and listening to sensor audio. The outcome of this review is intended to confirm or change the System’s classification of the incident type, and, depending on the reviewer’s confidence level that the incident is or may be gunfire, will result in an alert (“Reviewed Alert”) sent to the Customer’s Alert Console, based on the following criteria:

Table with 2 columns: Incident Type, Action. Rows include: High confidence incident is gunfire (Reviewed Gunfire Alert sent to Customer Alert Console), Uncertain if incident is gunfire or not (Reviewed Possible Gunfire Alert sent to Customer Alert Console), Low confidence incident is gunfire (No alert will be sent; incident available for customer review in the incident history available through the Customer Alert Console).

Reviewed Alerts are sent to the Customer Alert Console. Information in a Reviewed Alert will include the location of the incident, the reviewer’s qualitative assessment of the confidence level that the incident is or may be gunfire, along with other pertinent information and data.

Specifically, information provided in a Reviewed Alert may include any or all of the following:

- “Dot on the map” and closest parcel address denoting the location of the incident
• Qualitative Confidence that the incident is gunfire: High or Uncertain
• Qualitative Severity: Single shot, multiple shots, drive by shooting, full automatic
• Comments (if any)

The majority of incidents will be processed within 45 seconds of the System notifying the SST Incident Review Center of an incident and 90% of the incidents will be processed in less than 60 seconds. In the unlikely event that the review center loses connection to the hosting facility or the review center is unable to process the incident within approximately 60 seconds for some reason, the system will automatically route unreviewed incidents directly to the customer based on the systems classification of the incident. In the event the reviewed incident data reveals information that will aid in responder situational awareness, SST may (but is not obligated to) include this information as Comments in the Reviewed Alert.

During major holidays such as in the case of New Years Eve, Independence Day, and Cinco de Mayo, most communities experience a large increase in firework activity. During these periods, usually at least 48 hours in advance of the holiday, during the holiday and 48 hours following the holiday, SST will put the system into fireworks suppression mode so that the reviewers can focus their response to incidents classified as gunfire. SST will inform the customer prior to the system being placed in fireworks suppression mode and when fireworks suppression mode is disabled. The actual timing of fireworks suppression mode being active is determined by the review center based on the level of fireworks being discharged. While in fireworks suppression mode, fireworks incident alerts are not sent to the reviewer nor the customer alert console, however all firework incidents continue to be stored in the data base should any of this information be needed at a later time.

ShotSpotter FLEX™ Services Agreement – Standard Terms, Conditions and Support (Domestic)

The purpose of the Reviewed Alert Service is to provide incident data to the Customer, reviewed, analyzed and classified in the manner described above, in situations where the analyst's qualitative confidence that an incident is or may be gunfire meets the criteria set forth above. However, it is the sole responsibility of the Customer to interpret the data provided, and to determine any appropriate follow-up reaction or response, including whether or not to dispatch emergency responder resources based on a Reviewed Alert. SST does not undertake any obligation, duty or responsibility for reaction, response, or dispatch decisions, which are solely and exclusively the responsibility of Customer, or for the consequences or outcomes of any decisions made or not made by the Customer in reliance, in whole or in part, on any services provided by SST.

The Incidents & Reports Portal provides the Customer with full and immediate access to all incident history including the same information SST uses in its internal review process. This information includes, among other things, the initial incident classification and any reclassifications of an incident, incident audio wave forms, and incident audio files. This enables the Customer to perform its own incident reviews and run various reports. This data access is available as long as the Customer is under active subscription.

EXHIBIT B - System Configuration and Service Levels

SST will deploy or have deployed a ShotSpotter Flex system over the agreed upon coverage area. The system will be designed to detect at least 80% of the unsuppressed outdoor gunfire, with a location accuracy to the shooter's location within 25 meters, after sensor calibration. These performance levels are predicated on the deployment of sensors at all such sites, the foregoing performance levels may be compromised.

The sensors send incident information to a server in a SST hosting facility via third party cellular, wireless or wired networks. SST is not responsible for outages on the third party networks. SST will be responsible for installation and maintenance of the sensors and cost of the sensor communications to the hosted location server. The hosted server infrastructure (exclusive of communications networks) shall be maintained at 99.9% application availability exclusive of scheduled maintenance that SST will make reasonable efforts to coordinate with the customer.

The connection between the reviewer's console and the Customer's Alert Console is secured using a secure message protocol over http connection, where individual messages are encrypted using the same Public Key Infrastructure ("PKI") as a secure VPN connection.

Providing local access to the internet for the Alert Console is the responsibility of the Customer, as is providing a work station with access to the internet. The Customer may choose to set up multiple sessions of Alert Consoles as a form of redundancy.
