Re: Amendment No. Six (6) IFB #08-49

We certainly want to add additional buildings to this contract as requested.

However there are some buildings on here that do not fall into the same type and method of treatment as the bulk of the City of Glendale Buildings. At the time of the original bid it was all public buildings, offices, etc. and the bid was **priced per square foot.** The current pricing is .00057 cents per square foot.

This kind of pricing **cannot** apply to public housing, multi-unit complexes, etc. We have pricing for housing on Amendment No. 5. It would not make sense to price out housing, for example, 51 apartments @ 36,580 SF x .00057 = $20.85 ! This is a day's work for 2 - 3 technicians. Housing units, apartments are very different from businesses and offices.

Water treatment plants you have listed as "as needed". We are currently doing them now **monthly.** Again, these are not the same as offices and businesses. As an example Cholla WTP takes approx 4 hours for treatment. Enrique drives our tech around in a golf cart. This is not a building that can fall under the .00057 pricing. @ 19,196 SF x .00057 = $10.94.

I have crossed off the buildings we do not feel fall under the same type of buildings and same type of treatment we actually bid on for the SF pricing.

Again, we are happy to add the rest of the buildings to the contract and hope you are able to see our point.

Thank you. Please call my office if you have questions.

Sincerely yours,
Alison Solenski
Manager
