All bizhub products are sold with Innovolt power filters which prolong equipment life and improve image output consistency.

Power Requirement Acknowledgement

Customer acknowledges power requirements for the equipment and agrees to provide a proper electrical supply and receptacles for required outlet(s) checked in boxes. A dedicated outlet is recommended for any multifunction device, accessory, or print controller to minimize potential problems caused by voltage fluctuations. Due to the irregular nature of power currents Konica Minolta Business Solutions installs proper Innovolt Power Filter (added cost), **unless specifically declined by client**, to protect against system damage. Innovolt provides full insurance against power-related service charges. Innovolt Power Filter **declined** by client ... Initial _____

Networking Acknowledgement

Konica Minolta Business Solutions will provide software and drivers for the equipment described in this document and will be responsible for installing said software on 3 workstations. Additional installations are chargeable. If the listed network configuration changes after the initial installation and those changes require Konica Minolta equipment to be re-configured, these services are chargeable. Konica Minolta may configure the device to provide automatic meter reads. Ultimately, the customer is responsible for providing a functional network and associated hardware for the system connectivity. Konica Minolta Business Solutions may require the assistance of the customer's network support staff, consultant, or contractor to complete the install. The customer is solely responsible for these costs. Any work or changes outside this scope of work may be subject to additional charges.

Initial _____ I have read and acknowledge the above information to be accurate and understand the required hardware and software needed for the installation on my leased/purchased Konica Minolta equipment.

Non-Networked Acknowledgement Initial _____

Customer chooses to **NOT** connect their Konica Minolta equipment to a network at this time. The customer understands that network installation may be performed at a later date and that installation may be a chargeable service. Network connectivity may require an additional purchase of a print controller from Konica Minolta.

Color Calibration for Print Controller and/or MFP Initial _____

Customer understands the need to calibrate the Konica Minolta MFP with either the Fiery or Creo Print Controller on a regular basis. "Off the Glass" calibrations do not provide optimal color accuracy and fidelity. For color critical applications Konica Minolta Business Solutions recommends the Gretag MacBeth ES-1000 or X-Rite's DT32 or DT34. If Konica Minolta Business Solutions Service is engaged to perform system calibration, and the calibration corrects the color concern, this will be a chargeable service call at prevailing service rates.

bizhub vCare (Please see your sales representative for additional information)

bizhub vCare is a Device Relationship Management system that interacts with the KMBS product(s) to be installed. I have reviewed the bizhub vCare Customer Information document, the bizhub vCare Security White Paper, as well as the bizhub vCare Security Policy Explanation, and will permit email-based communication (see page 2) between my organization's Konica Minolta bizhub product(s) and Konica Minolta's bizhub vCare Server for the purpose of automated meter reading, technical performance monitoring, supply-level monitoring, and malfunction reporting. All services provided by this system fall under the Terms and Conditions in the Maintenance Agreement between KMBS and Customer.

**ADDENDUM TO KMBS TERMS AND CONDITIONS
FOR THE KMBS MAINTENANCE AGREEMENT
BETWEEN KMBS, INC.
AND THE CITY OF GLENDALE, ARIZONA.**

KMBS further agrees as follows as of the Effective Date:

- I. Immigration Law Compliance.**
- A. KMBS, and on behalf any subcontractor, warrants, to the extent applicable under A.R.S. § 41-4401, compliance with all federal immigration laws and regulations that relate to its employees as well as compliance with A.R.S. § 23-214(A) which requires registration and participation with the E-Verify Program.
 - B. Any breach of warranty under subsection (A) above is considered a material breach of this Agreement and is subject to penalties up to and including termination.
 - C. Customer retains the legal right to inspect the papers of KMBS or subcontractor employee who performs work under this Agreement to ensure that KMBS or any subcontractor is compliant with the warranty under subsection (A) above.
 - D. Customer may conduct random inspections, and upon request of the Customer, KMBS shall provide copies of papers and records demonstrating continued compliance with the warranty under subsection (A) above. KMBS agrees to keep papers and records available for inspection by the Customer during normal business hours and will cooperate with Customer in exercise of its statutory duties and not deny access to its business premises or applicable papers or records for the purposes of enforcement of this Section I.
 - E. KMBS agrees to incorporate into any subcontracts under this Agreement the same obligations imposed upon itself and expressly accrue those obligations directly to the benefit of Customer. KMBS also agrees to require any subcontractor to incorporate into each of its own subcontracts under this Agreement the same obligations above and expressly accrue those obligations to the benefit of Customer.
 - F. KMBS' warranty and obligations under this Section I to Customer are continuing throughout the term of this Agreement or until such time as Customer determines, in its sole discretion, that Arizona law has been modified in that compliance with this section is no longer a requirement.
 - G. The "E-Verify Program" above means the employment verification program administered by the United States Department of Homeland Security, the Social Security Administration, or any successor program.
- II. Prohibitions.** KMBS certifies under A.R.S. §§ 35-391 *et seq.* and 35-393 *et seq.*, that it does not have, and during the term of this Agreement will not have, "scrutinized" business operations, as defined in the preceding statutory sections, in the countries of Sudan or Iran.
- III. Conflicts.** This Agreement is subject to cancellation for conflicts of interest under the provisions of A.R.S. § 38-511.

By signing on the following page, the Customer and KMBS acknowledge the contents of this Addendum, the changes made in paragraphs 20 and 25 of the "KMBS Standard Maintenance Terms and Conditions 'Schedule A,'" all as attached and incorporated herein.
