    - (2) Consultant will not discharge, reassign, replace or diminish the responsibilities of any of the employees assigned to the Project who have been approved by City without City's prior written consent unless that person leaves the employment of Consultant, in which event the substitute must first be approved in writing by City.

(3) Consultant will change any of the members of the Project Team at the City's request if an employee's performance does not equal or exceed the level of competence that the City may reasonably expect of a person performing those duties, or if the acts or omissions of that person are detrimental to the development of the Project.

  - b. Additional services which are outside the Scope of the Project contained in this Agreement may not be performed by the Consultant without prior written authorization from the City.
  - c. Notwithstanding the incorporation of the Exhibits to this Agreement by reference, should any conflict arise between the provisions of this Agreement and the provisions found in the Exhibits and accompanying attachments, the provisions of this Agreement shall take priority and govern the conduct of the parties.

- a. Mileage, airfare, lodging and other travel expenses will be reimbursable only to the extent these would, if incurred, be reimbursed to City of Glendale personnel under its policies and procedures for business travel expense reimbursement made available to Consultant for review prior to the Agreement's execution, and which policies and procedures will be furnished to Consultant upon request;
- b. The Reimbursable Expenses in this section are approved in advance by City in writing; and

6.1 For Convenience. City may terminate this Agreement for convenience, without cause, by delivering a written termination notice stating the effective termination date, which may not be less than 15 days following the date of delivery.

- a. Consultant will be equitably compensated for Services furnished prior to receipt of the termination notice and for reasonable costs incurred.
- b. Consultant will also be similarly compensated for any approved effort expended, and approved costs incurred, that are directly associated with Project closeout and delivery of the required items to the City.

6.2 For Cause. City may terminate this Agreement for cause if Consultant fails to cure any breach of this Agreement within seven days after receipt of written notice specifying the breach.

- a. Consultant will not be entitled to further payment until after City has determined its damages. If City's damages resulting from the breach, as determined by City, are less than

the equitable amount due but not paid Consultant for Services furnished, City will pay the amount due to Consultant, less City's damages, in accordance with the provisions of Sec. 5.

- b. If City's direct damages exceed amounts otherwise due to Consultant, Consultant must pay the difference to City immediately upon demand; however, Consultant will not be subject to consequential damages more than \$1,000,000 or the amount of this Agreement, whichever is greater.

7. **Conflict.** Consultant acknowledges this Agreement is subject to A.R.S. § 38-511, which allows for cancellation of this Agreement in the event any person who is significantly involved in initiating, negotiating, securing, drafting, or creating the Agreement on City's behalf is also an employee, agent, or consultant of any other party to this Agreement.

8. **Insurance.** For the duration of the term of this Agreement, Contractor shall procure and maintain insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of all tasks or work necessary to complete the Project as herein defined. Such insurance shall cover Contractor, its agent(s), representative(s), employee(s) and any subcontractors.

8.1 **Minimum Scope and Limit of Insurance.** Coverage must be at least as broad as:

- a. Commercial General Liability (CGL): Insurance Services Office Form CG 00 01, including products and completed operations, with limits of no less than **\$1,000,000** per occurrence for bodily injury, personal injury, and property damage. - a. **The City, its officers, officials, employees and volunteers are to be covered as additional insureds** of the CGL and automobile policies for any liability arising from or in connection with the performance of all tasks or work necessary to complete the Project as herein defined. Such liability may arise, but is not limited to, liability for materials, parts or equipment furnished in connection with any tasks, or work performed by Contractor or on its behalf and for liability arising from automobiles owned, leased, hired or borrowed on behalf of the Contractor. General liability coverage can be provided in the form of an endorsement to the Contractor's existing insurance policies, provided such endorsement is at least as broad as ISO Form CG 20 10, 11 85 or both CG 20 10 and CG 23 37, if later revisions are used.
- b. For any claims related to this Project, the **Contractor's insurance coverage shall be primary insurance** with respect to the City, its officers, officials, employees, and volunteers. - 8.5 **Verification of Coverage.** Within 15 days of the Effective Date of this Agreement, Contractor shall furnish the City with original certificates and amendatory endorsements, or copies of any applicable insurance language making the coverage required by this Agreement effective. All certificates and endorsements must be received and approved by the City before work commences. Failure to obtain, submit or secure the City's approval of the required insurance policies, certificates or endorsements prior to the City's agreement that work may commence shall not waive the Contractor's obligations to obtain and verify insurance coverage as otherwise provided in this Section. The City reserves the right to require complete, certified copies of all required insurance policies, including any endorsements or amendments, required by this Agreement at any time during the Term stated herein.
- Contractor's failure to obtain, submit or secure the City's approval of the required insurance policies, certificates or endorsements shall not be considered a Force Majeure or defense for any failure by the Contractor to comply with the terms and conditions of the Agreement, including any schedule for performance or completion of the Project.
- 8.6 **Subcontractors.** Contractor shall require and shall verify that all subcontractors maintain insurance meeting all requirements of this Agreement.

- 1.3.1 The Contractor shall deliver, setup, inspect, repair and pick up equipment and supplies at a designated area after receiving an order from an authorized City employee. The equipment shall also be inspected, serviced and repaired throughout the life of the setup as needed to keep all equipment in good working order as specified in 1.2.6. This includes, but is not limited to, sandbags, lighting devices and reflective sheeting. Setup as used in this contract means placing all equipment in the designated traffic control area to delineate hazards, alert and guide motorists, and protect pedestrians and workers.
- 1.3.2 No late delivery or special setup charges will be made for emergency requests. All equipment shall be quoted at a constant rate regardless of quantities.
- 1.3.3 The Contractor must be able to provide an attenuator truck and driver at the request of the City for maintenance activities on expressway/freeway facilities owned by the City.
- 1.3.4 Unless otherwise directed, contractor shall remove the barricades out of the roadway within two hours of the project being complete. Barricades must be picked up from the jobsite within 24 hours of notice that the project is complete if the equipment is removed from the roadway by city staff. Rental charges for a particular project shall terminate at the time the project is complete. The City will not be responsible for barricades that Contractor failed to pick up. If the equipment is not picked up within the timeframe specified for that project, the City will consider the equipment abandoned and may take necessary action to remove it from the worksite. Failure to comply with this 24-hour pickup window may result in a deduction of payment on the invoice for specified Liquidated Damages. (See table in Section 1.5.3)
- 1.3.5 DISPATCH. The Contractor shall provide and maintain a manned 24-hour dispatch center with an operational radio net and telephone to provide emergency service. The dispatch center must have at its disposal a sufficient number of trucks, men and equipment to respond to requests and initiate mobilization for service within two hours, including nights, weekends and holidays.
- 1.3.6 EMERGENCY RESPONSE. Emergency response time shall be a maximum of two hours after the City notifies Contractor an emergency exists. All necessary barricade equipment and personnel shall be at the job site within the two-hour response time after receiving the initial call, including nights, weekends and holidays. The 24-hour emergency phone number provided by the Contractor shall be the same as the phone number used for routine orders. No special setup charges will be made for emergency requests. Failure to comply with this two-hour delivery window may result in a deduction of payment on the invoice as specified in the Liquidated Damages Table. (See Section 1.5.3)

All stock shall be replaced with new or refurbished devices at the beginning of each contract year. Repairs/replacement throughout the year shall follow requirements listed in Section 1.2.9.

1.3.7.1 Field Operations Center, 6322 W Myrtle Ave, Glendale 85301, shall require, at a minimum, 50 Type I or II barricades with “C” warning lights.

**1.4 SPECIAL EVENTS ACTIVITES**

1.4.1 Special events are defined as activities such as parades, marches, funerals, festivals, races, University of Phoenix Stadium and Jobing.com Arena events, etc. that the City fully sponsors or co-sponsors. These types of events require close coordination between the Contractor and City personnel with regard to planning and street closure, setup and tear down times, adjustments in the field, etc.

1.4.2 The Contractor may pre-set traffic control equipment prior to a special event. The City shall only be charged the daily rental bid price for equipment on all approved pre-sets. No delivery, labor or stand-by charges will apply to any pre-set work for special events.

1.4.3 The Contractor shall provide the City’s pricing to and accept payment from a non-City sponsor for co-sponsored City events. Contractor shall bill the non-City event sponsor directly for these services.

1.4.5 Delivery charges and delivery labor time shall not be paid for special events. Actual time on the day of the event used to setup and tear down the barricades as well as standby time will be paid at the applicable labor rates.

1.4.6 The Contractor must be certified with the Arizona Department of Transportation (ADOT) to place and removed barricades within ADOT’s right-of-way.

1.6.1 **Unit cost for each item shall include setup, removal and daily field check.** Signs shall include sign stand support unless otherwise specified. A firm, fixed trip charge to cover preparation and travel time shall be reflected on the Price Page. Both the setup and removal of barricades will be considered as one trip charge on the Price Sheet regardless of the number of trucks used for the job. Only one trip charge will be allowed per setup/take down unless directed by the City to change the setup. The daily field check shall be included in the one trip charge. Special events are billed differently and do not have a trip charge.

1.6.2 For special events (see section 1.4.1 thru 1.4.6) the City shall compensate the Contractor at hourly rental rates for the actual time the barricade truck with driver is used in direct support of the special event. Although the arbitration will be conducted in accordance with AAA Rules, it will not be administered by the AAA, but will be heard independently.
- a. The parties will exercise best efforts to select an arbitrator within five business days after agreement for arbitration. If the parties have not agreed upon an arbitrator within this period, the parties will submit the selection of the arbitrator to one of the principals of the mediation firm of Scott & Skelly, I.J.C, who will then select the arbitrator. The parties will equally share the fees and costs incurred in the selection of the arbitrator.
  - b. The arbitrator selected must be an attorney with at least 15 years' experience with commercial construction legal matters in Maricopa County, Arizona, be independent, impartial, and not have engaged in any business for or adverse to either Party for at least 10 years.
