SCOPE OF SERVICES
EXHIBIT "A"

EXHIBIT A
SCOPE OF SERVICES

- 1 The Scope of Services and the type of records that must be maintained are two elements of a Subrecipient Contract that vary most from activity to activity, and from grantee to grantee
- 2 Agencies are required to prepare a Scope of Services, which is incorporated into the Subrecipient Contract with the City of Glendale. Each of the three sections of the Scope of Services (Description, Schedule, and Budget) must provide sufficient detail to permit effective monitoring of Agency's activities
 - 2.1 Description. The description section details the activities to be carried out by the Agency. It should define the "who, what, where, and how" of the Program. It should specifically describe and quantify the services or products to be provided with City of Glendale funds. Where appropriate, it should specify how the Program will serve the intended beneficiaries
 - 2.2 Schedule. A schedule is a required part of every Subrecipient Contract. It plays an essential role in the grant management system. The schedule should provide projected milestones and deadlines for accomplishment of tasks, or the delivery of services. These projected milestones and deadlines are a basis for measuring progress during the term of the Subrecipient Contract. For instance, the schedule for a public service activity may specify delivery of a certain number of staff-hours per quarter, or delivery of services to a certain number of persons per quarter. Other programs are likely to be more complex, requiring multiple tasks such as establishing an office, developing program guidelines, taking applications, providing services to the client, outreach activities, and follow up. The schedule should include time frames for completing each task or activity
 - 2.3 Budget
 - a The budget should provide a detailed presentation of projected revenues and expenses. The preparation of a detailed budget will help ensure that a project is adequately planned, in that, it will identify all expenses that are necessary to carry out the activities described in the program description, and quantify the resources required to cover these expenses
 - b The budget permits periodic comparisons of the projected use of funds with actual expenditures, as indicated on the monthly accomplishment reports submitted by the grantee. This comparison enables the City to seek corrective action where significant variations between the budget and actual expenditures are reported
