EXHIBIT B TECHNICAL SPECIFICATIONS

In order to conduct environmental testing and analysis as requested by CITY for purposes of compliance with the National Pollutant Discharge Elimination System, Safe Drinking Water Act, Clean Water Act, Clean Air Act, Resource Conservation and Recovery Act, Hazardous Waste, State Aquifer Protection Permits, Reuse Permits, Industrial Pretreatment Program, Toxic Substances Control Act (TSCA), special projects and for EPA compliance with participation in Unregulated Contaminant Monitoring Rule 2, CONTRACTOR shall provide the following services as specified below:

1. Sample Containers

CONTRACTOR shall provide all the necessary new or certified-clean sample bottles and sample labels as required to perform field sampling. CONTRACTOR shall add reagent grade preservatives to the appropriate sampling container prior to field sampling. CONTRACTOR shall pre-label sample containers identifying the analyses types requested and preservatives used. The sample label information provided by CITY shall correspond to information contained in the chain of custody forms and shall include: CONTRACTOR name, the analyses requested, the sample ID number, the date and time the sample was taken, the location of field sampling, and the name or initials of the sampler. CONTRACTOR shall supply any necessary trip blanks. CONTRACTOR shall subject all supply bottles and/or containers to a Quality Assurance and Quality Control program and shall conduct a testing program on sample bottles and/or containers.

2. Chain of Custody

CONTRACTOR shall provide chain of custody forms and chain of custody seals for bottles and coolers and one chain of custody form shall accompany each sample set. CONTRACTOR shall include a copy of the completed chain of custody for each sample set at the end of each individual analyses report. CONTRACTOR and any and all city approved subcontractors shall utilize standard U.S. EPA chain of custody procedures, as documented in National Enforcement Investigations Center Policies and Procedures Manual, as revised in May, 1986, and amendments thereto, and the National Enforcement Investigations Center Manual For The Evidence Audit, published in September, 1981, and amendments thereto.

3. Transportation

CONTRACTOR shall provide for delivery of sample sets and pickup of field samples to and from CITY. CONTRACTOR shall pick up field samples as needed, but generally between 7:00 a.m. and 5:00 p.m., Monday through Friday. The Contractor shall pick up most samples within six (6) hours of CITY's request. CONTRACTOR shall pick up fecal coliform samples within two (2) hours of CITY's request. CONTRACTOR shall deliver sample bottles no later than forty-eight (48) hours after CITY's request. CONTRACTOR shall provide all necessary shipping containers.

4. Sample Control

CONTRACTOR shall report any sample or trip blank received in unacceptable condition, or rendered unacceptable for analyses to the CITY Contract Administrator or their designee within forty-eight (48) hours of loss of sample.

CITY reserves the right to recover cost of re-sampling due to CONTRACTOR error or failure to maintain sample integrity. Re-sampling required due to error or failure to maintain sample integrity at the laboratory shall be billed to CONTRACTOR at the CITY's cost plus \$100. Trip blanks rendered unacceptable while in the possession of the laboratory shall result in a fifty percent (50%) reduction in the analysis fee for the accompanying field samples.

5. Laboratory Services and Analytical Requirements

CONTRACTOR shall use current and future Federal and Arizona Department of Health Services approved test methods for all analyses. CONTRACTOR shall meet detection limits required by Local, State, and Federal regulations.

CONTRACTOR shall conduct all quality control tests and checks for precision, accuracy and control of method on a ten percent (10%) basis, or as specified by method, or per batch if less than ten (10) samples are submitted. CONTRACTOR shall provide as part of the quality control all QC data results as a Level 2 report.

CONTRACTOR shall communicate a full description of any anticipated or realized problem areas to the CITY's Contract Administrator or designee prior to analysis of any sample so that appropriate corrective action can be coordinated. CONTRACTOR shall immediately communicate, via telephone or e-mail, analytical or sample problems encountered subsequent to the analysis of any sample to the CITY's Contract Administrator or designee, followed by written communication with the sample results. CONTRACTOR shall immediately communicate, via telephone or e-mail, results indicating exceedance of SDWA MCL's and/or triggers and/or Permits limits to the CITY Contract Administrator or designee, followed by written communication with the sample results. CONTRACTOR shall designate all verbal and written notification about results that are not final as "preliminary" and document QA/QC issues as appropriate. Samples analyzed outside of the specified QA/QC without prior consent by CITY shall not be invoiced and paid under this Agreement.

6. Holding Times

The CONTRACTOR shall notify the CITY Contract Administrator or designee immediately on discovery that holding time(s) have been exceeded so that re-sampling can take place. The CITY will make a decision on analysis of such samples upon notification. CITY reserves the right to recover cost of resampling due to CONTRACTOR failing to meet sample holding times, provided that CONTRACTOR has had possession of the sample for at least 50% of the sample holding time. The exception to this would be in the case of coliform samples where CONTRACTOR will only be liable if CONTRACTOR was not notified of sample pick up within two hours of the time of the sampling. Re-sampling will be billed to CONTRACTOR at the CITY's cost plus \$100.

7. Written Reporting of Analysis Results

CONTRACTOR shall submit typewritten final reports for all sample results except Air sample results to the CITY Contract Administrator or their designee within twenty (20) calendar days of CONTRACTOR'S receipt of each sample.

CONTRACTOR shall submit typewritten final reports for air sample results to the CITY Contract Administrator or their designee within five (5) calendar days of CONTRACTOR'S receipt of each sample. At times rush analysis of three (3) days and twenty-four (24) hours will be required.

CONTRACTOR shall submit typewritten final reports for any rush results to the CITY Contract Administrator or their designee within two (2) working days of due date of the rush results.

CONTRACTOR shall report all quality control tests and checks used to prepare each sample, including all reporting levels, method references, date of sample receipt, date of analysis, dilutions, duplicates and matrix spike results, blank spike results, reagent blank and trip blank results for each applicable constitute requested.

Contractor shall insure that all subcontracted results are easily cross-referenced to samples submitted to CONTRACTOR and at a minimum, shall include the following:

- a. Cover letter, including a listing of any subcontractors used and any problems encountered during sample analysis.
- b. Analysis results including all QA/QC, compounds analyzed, method reporting levels, date of extraction, date of analysis, analyst, and analysis method.
- c. Original subcontractor analysis results including all QA/QC, compounds analyzed, method detection limits, and analysis method.
- d. Chain of custody as submitted, plus subcontractor's chain of custody, if applicable.
- e. Data from analyses of samples collected for compliance with the Safe Drinking Water Act and under the applicable Arizona Department of Environmental Quality (ADEQ) Drinking Water rules shall be submitted on the appropriate ADEQ forms (these forms shall be completed in full) in addition to CONTRACTOR's standard reporting form.

CONTRACTOR shall be responsible for a written communication of any miscalculation or error in analytical results to the CITY Contract Administrator or their designee. CONTRACTOR shall reissue, at their own expense, corrected hard copies and computer electronic copies as necessary. CONTRACTOR shall label all reissued reports "revised" and include an explanation of the revision in the cover letter. These errors include, but are not limited to; operator error, equipment malfunction, exceeding holding time, out of control results or any other quality control exception, and laboratory contamination in ambient air, glassware, standards, reagents, or equipment that could impact the quality or validity of the analytical results. CITY reserves the right to recover the cost of re-sampling due to CONTRACTOR miscalculation or error in the analytical results.

CITY reserves the right to enforce penalties for late sample results. An eight percent (8%) penalty for the first day and a five percent (5%) penalty each day thereafter per report will be charged to CONTRACTOR for each calendar day that delivery of the written report(s) and/or electronic data exceed the above specified delivery times. CONTRACTOR shall be liable for penalties for all late analyses, including subcontracted analyses. Fines or penalties levied against CITY by the State or Federal government due to late submittal of analysis results due to CONTRACTOR exceeding the above specified delivery times, shall be paid by CONTRACTOR.

8. Electronic Transfer of Reporting Results

CONTRACTOR and all subcontractors shall issue electronically, laboratory results to CITY with the hard copy reports. The submittal of electronic data is not intended to be a substitute for the requirement of hard copy reports.

CONTRACTOR shall supply the electronic data in a format compatible with existing CITY software as desired by CITY.

CONTRACTOR shall be responsible for verification that electronic data is not duplicated. CONTRACTOR shall maintain an electronic or a hard copy list of sample reports issued for review by CITY. This list shall include the CITY Chain of Custody ID Number (Chandler ID), the laboratory accession number (Accession ID), and the date sample data was issued. Should duplicate data be received, the cost to remove the duplicated data will be calculated using the applicable charge out rate. Any charge for this duplicate removal will be used as a credit toward the laboratory invoices issued by the CONTRACTOR at the CITY's cost plus \$100.

9. Contractor Capability and Capacity

During the term of this Contract, CONTRACTOR shall maintain the necessary capability and capacity to provide the specified laboratory services within the required turnaround times. CONTRACTOR and any subcontractors shall provide access for CITY and State personnel and their authorized representatives to audit the lab to assure the accuracy and precision of laboratory results related to the work performed.

10. State of Arizona Certification/Environmental Protection Agency Approvals

CONTRACTOR and all subcontractors must be licensed by the State of Arizona, Arizona Department of Health Services (ADHS), Office of Lab Licensure or Environmental Protection Agency (EPA), for all requested analyses for the duration of the Contract. CONTRACTOR shall meet the laboratory licensure requirements as stipulated in the Arizona Revised Statute Chapter 4.3, Article One, Section 36-495 et. Reg. or EPA.

CONTRACTOR shall provide to CITY notification of any change of license status, censure, fine, revocation, or any investigation by any certification agency, especially the ADHS or EPA, within 24 hours of notification.

11. EPA/ADHS Quality Assurance/Quality Control

CONTRACTOR and all subcontractors must demonstrate continuing satisfactory performance by proficiency testing. [Formerly water pollution (WP) and water supply (WS) check samples.]

12. Proficiency Samples

CITY may submit proficiency samples (blind, double blind, or otherwise) to the CONTRACTOR as part of the regular sampling and QC procedures.

CONTRACTOR shall submit a QA/QC report on deficiencies and corrections associated with the proficiency samples on an individual sampling period basis.

CONTRACTOR may be required to analyze a second set of proficiency samples at their cost should they fail to analyze the initial set within acceptable QA/QC limits.

Failure of the CONTRACTOR to analyze and report results within acceptable QA/QC limits can result in cancellation of this contract.

13. Disposal

CONTRACTOR shall comply with all Federal, State, and local regulations for disposal of samples and associated laboratory hazardous waste.
