LOCAL GHOST HUNTERS VISIT GLENDALE PUBLIC LIBRARY OCTOBER 4

Glendale, Ariz. — Back by popular demand, Ghosts of Arizona Paranormal Society will offer an encore of their “Science and Technology of Ghost Hunting” presentation on Saturday, Oct. 4 at 1 p.m. in the Auditorium of the Glendale Main Library, 5959 W. Brown St.

Join Lindsay Brown and Shawn Bechtel of Ghosts of Arizona Paranormal Society to learn about the devices used in field research. Their high-tech arsenal includes digital cameras, digital video cameras, an infrared camera, electromagnetic field meters, laser splitters, voice recorders, and a laser thermometer. One of the library’s most popular programs last year, this is a great opportunity to see their equipment, hear how it works, and evaluate the evidence for and against the supernatural which they have collected. To learn more, read last year’s “Arizona Republic” feature article [here](#).

Founded in 2004 and headquartered in Mesa, Ghosts of Arizona Paranormal Society is an all-volunteer group which conducts free investigations of alleged paranormal activity upon request. Their website is <http://ghostsofarizona.webs.com/>.

This program is free. No registration is required. For more information, call 623-930-3573.
