## CITY SEEKING RESIDENTS, STAKEHOLDERS FOR TRANSIT CORRIDOR STUDY WORKING GROUP

*Residents, business owners, community members invited to apply*

**GLENDALE, Ariz.** – Valley Metro and the cities of Glendale and Phoenix are studying options for a light rail or bus rapid transit route to connect downtown Glendale to the existing light rail system along 19<sup>th</sup> Avenue. As part of this study, Valley Metro and the city of Glendale are forming a Community Working Group (CWG) to provide input to the project team about potential routes within the downtown Glendale area. Information on the full corridor study will be presented and discussed in this working group; however, the main focus of the CWG is to provide an advisory recommendation on a preferred downtown route.

### Who should participate?

The selection panel is seeking a diverse group of stakeholders for the CWG. Interested business owners, property owners and residents within the Downtown Glendale Analysis Area are invited to submit an application, as well as residents and business owners from the larger Glendale community. There are a limited number of spaces available, and applications will be considered in the order they are received.

### What is the commitment?

The CWG will be established in May 2015, and will meet from June to October on the dates listed below. It is important that group members plan to attend all meetings, as new material will be presented and discussed at each session. The meetings will be held in the downtown Glendale area, though one meeting may be a field trip to another part of the region. Members should expect to read provided materials in advance of each meeting and participate in the meeting discussions. In addition, members will be the representatives for their business, organization, property or neighborhood and will be asked to share information with their neighbors and the community throughout the process.
