### **New Cultural Tourism Efforts Highlighted by the City's Historic Preservation Program.**

According to statistics from the Travel Industry Association of America, tourists include at least one historic activity in their plans while traveling.

Knowing how important this is for tourism, the city is capitalizing on a new historic initiative, known as the Myrtle Avenue Cultural Gateway, which is the latest renovation to complete the preservation of this area. The project will break ground soon with a scheduled completion for September 2011.

The city has been restoring the area at Grand and Myrtle avenues since 2006. This most recent update involves exterior and interior restoration of both the adobe house and service station, including roof repair, new windows and doors. Downtown's 1935 Morcomb Adobe House and 1930 service station will look like it once did in its earlier days, providing lasting evidence of Glendale's heritage and history, while enhancing the area. The renovation project will be funded by a grant from the U.S. Department of Interior.

Another great historical preservation program that is gaining momentum is Glendale's Bronze Plaque Program. Numerous plaques on some of the city's historic buildings have helped familiarize residents and visitors with treasured historic places. Approximately 200 bronze plaques, funded by grants from the city's Planning Department, have been installed throughout Historic Downtown Glendale.
