- 1.2 Project Team.
  - a. Project Manager.

    - (2) The City must approve the designated Project Manager; and
    - (3) To assure the Project schedule is met, Project Manager may be required to devote no less than a specific amount of time as set out in Exhibit A.
  - b. Project Team.
    - (1) The Project manager and all other employees assigned to the project by Contractor will comprise the "Project Team."
    - (2) Project Manager will have responsibility for and will supervise all other employees assigned to the project by Contractor.

- (2) Contractor will not discharge, reassign or replace or diminish the responsibilities of any of the employees assigned to the Project who have been approved by City without City's prior written consent unless that person leaves the employment of Contractor, in which event the substitute must first be approved in writing by City.
- (3) Contractor will change any of the members of the Project Team at the City's request if an employee's performance does not equal or exceed the level of competence that the City may reasonably expect of a person performing those duties or if the acts or omissions of that person are detrimental to the development of the Project.

  - (1) City is under no obligation to ascertain or confirm the existence or issuance of any Approvals or Debarments or to examine Contractor's contracting ability.
  - (2) Contractor must notify City immediately if any Approvals or Debarment changes during the Agreement's duration and the failure of the Contractor to notify City as required will constitute a material default under the Agreement.

3.3 Compliance. Services will be furnished in compliance with applicable federal, state, county and local statutes, rules, regulations, ordinances, building codes, life safety codes, and other standards and criteria designated by City.

3.4 Coordination; Interaction.

### **Organizational Experience:**

**Proposed Project:** Habitat for Humanity Central Arizona (HFHCAZ) proposes to acquire and rehabilitate 5 single family, vacant, foreclosed homes within the city's targeted zip codes of 85301, 85302 and 85303. The homes will then be re-sold at or below the total cost of acquisition and rehabilitation, to income qualified residents at or below 60% AMI. HFHCAZ will use the traditional Habitat financing model of 0% percent mortgages for the qualified homeowners. Mortgage payments are placed in a "Fund for Humanity" and used to purchase land and build/rehabilitate more homes.

**Experience:** Habitat for Humanity began building homes in 1985 and we have built/renovated more than 739 homes to date; including 40 in Glendale. In the past five years we have built/renovated 241 homes. We manage all aspects of home building including land purchase, infrastructure development, fund raising, partner family selection and support, house construction and mortgage servicing. We manage multiple build sites and plan to grow into building 100 homes a year.

We have completed infill projects in the Phoenix, Central Park, Sunnyslope, Capital Mall, Mesa, Chandler, Tempe and Glendale, Guadalupe, Peoria and Avondale neighborhoods.

In addition to the traditional Habitat infill building model, we were the first Habitat affiliate to approach community building. From 1995 to 2002 we turned a 40-acre parcel of raw land located in South Phoenix into a thriving 195-home community known as South Ranch. South Ranch now serves as a national Habitat model. The community boasts a 1.5 acre park and playground, active homeowners association and block watch program, and a community center developed in partnership with the Stardust Foundation. In 1999, South Ranch won the City of Phoenix's Community Improvement Award for community design and was again recognized in 2006 by the Arizona State University Stardust Center for Arizona Excellence in Affordable Housing.

Additional Habitat communities include Villas Esperanza, a 93-home South Phoenix community with park, playground, basketball court and HOA; Pueblo Futuro, a 119 home El Mirage community with park, playground, basketball court and HOA; El Amor de Cristo, a 17 home cul-de-sac community with park in Peoria; and Ironwood Trails an 18 home cul-de-sac Apache Junction community.

In 2008, we began providing rehabilitation services in response to the large inventory of vacant, foreclosed homes within the communities we serve. We began with two pilot projects that were highly successful. We have since completed 4 additional rehabs.

We have also been contracted by the city of Surprise to provide renovation and/or demolition and new construction of homes that they acquire under the NSP program.

We are currently building a 32-home community, Oro Vista, in South Phoenix and a 37-home community, Hillcrest, in Avondale; and a 48 unit community, Johnson Townhomes, in Surprise. We have on-going infill building projects around the valley. In 2010 we will begin an 11 home duplex project in Glendale.

We have strong partnerships with the cities in which we serve. We have received CDBG and/or HOME funding from the Cities of Glendale, Peoria, Surprise, Mesa, Apache Junction, Arizona Department of Housing, and the Maricopa Community Development HOME Consortium. We have also received funding from the Cities of Avondale, Chandler and Gilbert.

Habitat has a clear understanding of the requirements of CDBG funding. We already operate with Board approved policies governing:

- Equal Opportunity and fair housing laws
- Affirmative marketing, and displacement, acquisition and relocation requirements
- Lead-Based Paint Poisoning Prevention Regulations
- Conflict of Interest Laws
- Debarment and suspension certification
- Davis Bacon Requirements
- Competitive Bidding Process and Federal Procurement Rules
- Section 3
- Section 504
- Language Access Plan

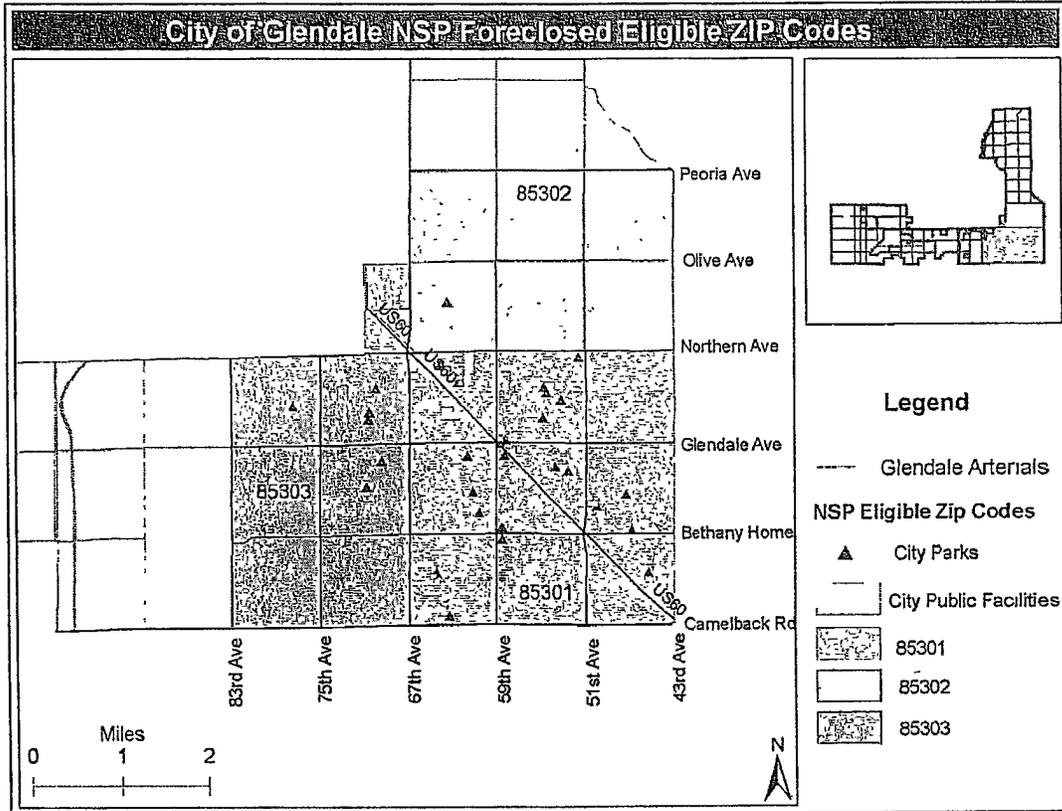

Each of the policies mentioned above are available for your review. We have also confirmed with the City of Glendale, that Davis Bacon Requirements will NOT be triggered if the scattered sites purchased are more than 2000 ft in distance from each other. We know that Davis Bacon can be triggered if more than 7 sites are located within 2000 ft of each other.
